

Awareness Watch™ Newsletter

By Marcus P. Zillman, M.S., A.M.H.A.

<http://www.AwarenessWatch.com/>

V13N8

August 2015

Welcome to the V13N8 August 2015 issue of the **Awareness Watch™ Newsletter**. This newsletter is available as a complimentary subscription and is issued monthly. Each newsletter will feature the following:

Awareness Watch™ Featured Report

Awareness Watch™ Spotters

Awareness Watch™ Book/Paper/Article Review

Subject Tracer™ Information Blogs

I am always open to feedback from readers so please feel free to email with all suggestions, reviews and new resources that you feel would be appropriate for inclusion in an upcoming issue of Awareness Watch™. This is an ongoing work of creativity and you will be observing constant changes, constant updates knowing that “change” is the only thing that will remain constant!!

Awareness Watch™ Featured Report

This month’s feature covers a timely and topical report for all students: **Student Research Resources**. This is an extremely comprehensive listing of student research search engines, sources and sites available currently from the Internet. As more and more of the Internet global student population is utilizing these student research resources and sources that are available from the Internet, this V13N8 August 2015 Awareness Watch Newsletter brings you a plethora of these relevant sources for your virtual private library on your desk top, laptop, tablet or smartphone. All in time for your upcoming school and academic year! Now all your student research online information needs are just a click or tap away! The sites are always updated and available at the following URL:

Awareness Watch™ Spotters

edX: Introduction to Computer Science

<https://www.edx.org/course/introduction-computer-science-harvardx-cs50x>

The MOOC (Massive Open Online Course) mogul, edX, takes popular courses from some of the best universities in the world and adapts them for home computer use. Readers can simply audit courses for free, or they can pay \$90 for a Verified Certificate. In that vein, CS50: Introduction to Computer Science is a high-energy Harvard course that includes nine long problem sets and a final project. The free enrollment process is exceptionally simple. Readers may use their existing Facebook or Google accounts, or follow a one-step sign up process. From there, students can explore the course, sign up for optional social media and chat accounts to communicate with other students and instructors and begin watching lectures, completing and turning in problem sets, and

receiving grades and feedback on your burgeoning computer science skills. This will be added to [Tutorial Resources](#) Subject Tracer™. [From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>]

American Archive of Public Broadcasting

<http://americanarchive.org/>

The American Archive of Public Broadcasting is a truly exceptional site, representing 60 years of public broadcasting from every state and region of the nation. For an overview of what public broadcasting has meant to America, the About page pulls together a convincing case with a 5-minute video and a short essay replete with quotes from senators, academics, and members of the public broadcasting community. Before searching the site, readers may like to select Searching the Website (found under Research), which describes how to use the search bar, limit your search, tell if a resource has been digitized, filter the search results, and search by media type, genre, asset type, organization, and year. From there, readers can spend hours scouring the site for access to layers and layers of American history, including everything from addresses by Eleanor Roosevelt to interviews with Jamaica Kincaid to old episodes of "See it Now" with Edward R. Murrow. Few archives offer the range and depth of information that the American Archie of Public Broadcasting promises. This will be added to [Reference Resources](#) Subject Tracer™. [From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>]

Xmarks

<https://www.xmarks.com/>

Often considered the number one bookmarks add-on on the market, Xmarks is built to be compatible with Firefox, Safari, Google Chrome, and Internet Explorer. The program can be downloaded in seconds. From there readers may begin backing up and synchronizing bookmarks in an intuitive and friendly template. In addition, Xmarks will sync bookmarks across computers, and, if desired, across different web browsers. While Xmarks is free for personal computer use, a premium version (\$1 per month) is necessary for readers who want to sync with their iPhones, Blackberries, and Androids. Xmarks is the most popular bookmark sync add-on for a reason: it's easy to use and convenient. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. [From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>]

Updated> Academic and Scholar Search Engines and Sources

<http://www.ScholarSearchEngines.com/>

Internet Annotated Link Dataset Compilation titled "Academic and Scholar Search Engines and Sources" is now a 68 page research paper listing selected resources both new and existing that will help anyone who is attempting to find academic and scholarly information and knowledge available on the Internet. Each source is described along with the URL address than can be accessed. It is freely available as a .pdf file (447KB) at the

above link from the [Virtual Private Library™](#) and authored by [Marcus P. Zillman, M.S., A.M.H.A.](#) [Updated: July 1, 2015]. Other white papers are available by clicking [here](#).

Updated> Deep Web Research and Discovery Resources 2015

<http://www.DeepWeb.us/>

I have just updated my white paper link dataset compilation titled **Deep Web Research and Discovery Resources 2015** and it is now a 49 page 335KB PDF document available directly from the above URL. This update verified all links as well as reviewed all resources covered. Currently this has been downloaded over 2,500,000+ times!

July 1, 2015

Shodan - Search Engine for Internet-Connected Devices

<https://www.shodan.io/>

Shodan is the world's first search engine for Internet-connected devices. Search the Internet for devices with Shodan and use the web interface to quickly generate beautiful reports. Install the browser plugins for Chrome or Firefox and see what services the website you are visiting is running. Features include: a) Explore the Internet of Things - Use Shodan to discover which of your devices are connected to the Internet, where they are located and who is using them; b) Monitor Network Security - Keep track of all the computers on your network that are directly accessible from the Internet. Shodan lets you understand your digital footprint; c) See the Big Picture - Websites are just one part of the Internet. There are power plants, Smart TVs, refrigerators and much more that can be found with Shodan; and d) Get a Competitive Advantage - Who is using your product? Where are they located? Use Shodan to perform empirical market intelligence. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This will be added to [Business Intelligence Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [Internet of Things Resources](#) white Paper.

Capacitor - Find the Perfect Team for Your Startup

<https://mycapacitor.io/>

Find the perfect team for your startup. Developers, Designers, and Growth hackers. Two sections: a) I want to Hire a Team; and b) I want to Join a Team. This will be added to [Internet Experts](#) Subject Tracer™. This will be added to [Employment Resources](#) Subject Tracer™. This will be added to [Startup Resources for the Entrepreneur](#) White Paper.

Updated> International Trade Resources White Paper Dataset Link Compilation

<http://www.InternationalTradeResources.info/>

The above is the associated white paper link compilation of the [International Trade Resources](#) Subject Tracer™ Information Blog by [Marcus P. Zillman, M.S., A.M.H.A.](#) It is now a 28 page .pdf document 226KB. [Updated on July 2, 2015] Other white papers are available by clicking [here](#).

Boxcryptor - Highest Security for Your Files In the Cloud

<https://www.boxcryptor.com/>

Boxcryptor protects your files in the cloud no matter if you use Dropbox, Google Drive, Microsoft OneDrive, SugarSync, Box.net, or any other major cloud storage provider. It also supports all the clouds that use the WebDAV standard such as Cubby, Strato HiDrive, and ownCloud. If you are storing or would like to store your files in the cloud, make sure these are securely encrypted before uploading them to the cloud. Encrypting your files will safeguard the privacy of your data; especially important when you are storing sensitive corporate data or personal information that should never fall into the wrong hands. Boxcryptor is the right solution for all private and business needs. Once you have installed Boxcryptor, you can easily encrypt files and store them in your cloud provider's folder (e.g. your Dropbox folder). You keep control of your data and enjoy 24/7 peace of mind knowing that your data is securely stored in the cloud. With Boxcryptor you don't have any problems to access your files on the go - anywhere and anytime. Our Boxcryptor apps for Android, iOS, Windows Phone and Blackberry 10 give you quick and easy access to your files from your mobile devices at your convenience. Features include: a) Fast and easy encryption; b) Available for all major cloud storage providers; c) Secure cloud usage on all platforms; and d) Free for private use. This will be added to [Privacy Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™ This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

FutureGrid@Chameleon - Configurable Experimental Environment for Large Scale Cloud Research

<https://www.chameleoncloud.org/>

Cloud services have become ubiquitous to all major 21st century economic activities. However, cloud services and technologies can be significantly more powerful than they are now. A persistent barrier to further advancement has been the lack of a large-scale and open cloud research platforms. With funding from the National Science Foundation (NSF), the Chameleon project will provide such a large-scale platform to the open research community allowing them explore transformative concepts in deeply programmable cloud services, design, and core technologies. Chameleon will allow users to explore problems ranging from the creation of Software as a Service to kernel support for virtualization. This broad range of supported research includes many other areas such as developing Platforms as a Service, creating new and optimizing existing Infrastructure as a Service components, investigating software-defined networking, and optimizing virtualization technologies. The Chameleon testbed, will be deployed at the University of Chicago and the Texas Advanced Computing Center and will consist of 650 multi-core cloud nodes, 5PB of total disk space, and leverage 100 Gbps connection between the sites. While a large part of the testbed will consist of homogenous hardware to support large-scale experiments, a portion of it will support heterogeneous units allowing experimentation with high-memory, large-disk, low-power, GPU, and co-processor units. The project will also leverage existing FutureGrid hardware at the University of Chicago and the Texas Advanced Computing Center in its first year to provide a transition period

Updated> eReference Library Link Dataset Toolkit

<http://www.eReferenceLibrary.com/>

The eReference Library Link Dataset Toolkit has been completely updated, reviewed with ALL links verified and is now a 64 page freely available white paper link compilation for a selected group of reference resources that are available over the Internet. These resources are designed to be your eReference Library and to give you the latest and greatest reference resources available from the Internet. The eReference Library Link Toolkit has been created by Internet guru and expert [Marcus P. Zillman](#) who is the Executive Director of the [Virtual Private Library](#) and designed specifically for use on iPads, iPhone, Androids, Smart Phones, and netbooks/laptops. Updates to this toolkit are powered by [Subject Tracer™](#) Information Bots (STIB). This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. Additional freely available white papers by Marcus P. Zillman are available by clicking [here](#). [Updated July 4, 2015 .pdf 64 pages 424KB]

Cloud MedX - Integrated Platform for Predictive Health Intelligence To Effectively Manage Population Health

<http://www.cloud-medx.com/>

Unlock your population health data with evidence-backed intelligence. Identify and reduce gaps, improve patient outcomes, and reduce avoidable costs while managing your population health. CloudMedx provides HIPAA compliant population health management, predictive health analytics, and care coordination platform that leverages an entire population's healthcare history for better clinical, treatment and diagnostic outcomes. Patient Data Aggregation Their platform allows the ingestion of various health data formats that include HL7 2.x, 3.x, CCD, CCR, XML, DICOM, and unstructured EMRs notes in a central dashboard securely in the cloud. Actionable Insights & Risk Stratification - They transform raw healthcare data into healthcare insight quickly by revealing trends, patterns, deviations and predicting the probability of outcomes (diagnosis, treatment, and financial). Care Coordination & Management - Their platform notifies physicians when care is needed making follow-ups more efficient and convenient. It also provides tools for improved patient engagement. Features include: 1) Population Health Management; 2) Risk Stratification; 3) Gap Analysis; 4) Care Coordination; 5) Business Intelligence; 6) Enterprise Reporting; 7) Predictive Modeling; 8) Clinical Analysis; 9) High-risk Patient Identification; 10) Patient Stratification; 11)

Early Detection & Prevention; and 12) Financial Outcomes. This will be added to [Healthcare Resources](#) Subject Tracer™.

Asana - Team Tasks and Conversations

<https://asana.com/>

Run your day, your team, and your company with Asana—from everywhere you work. Against the speed, complexity, and scope of our modern work, email is no longer up to the task. Figuring out what needs to get done, getting on the same page, and finding the right information in email is inefficient. Asana has re-imagined team communication from the ground up. Conversations and tasks are in one place, so everything is actionable and transparent. When less of your time is spent in email, you'll have more time to get work done. Asana is available everywhere you work--on the web, iOS, and Android. Features include: a) Tasks - Create tasks for work you plan to do or need a teammate to do, instead of sending an email; b) Projects - Organize your tasks into shared projects for your initiatives, meetings & lists; c) Comments - Keep conversations with tasks, instead of scattered across email; and d) Inbox - Never read a status email again; get automatic updates about tasks that matter to you. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Zillman, M.S., A.M.H.A.](#) is a freely available 21 page .pdf document (211KB) listing the latest and greatest online resources and sites for artificial intelligence! **Updated on July 6, 2015.** Other white papers are available by clicking [here](#).

BrightPod - Web-Based Project Management and Time Tracking Software

<http://www.brightpod.com/>

When your marketing projects run smoothly, every day feels like a holiday. Web-based project management & time tracking software for digital marketing & creative teams. Take the chaos out of marketing collaboration & planning. Your business can now have its own marketing communication, content planning & project tracking system. Organization is the key to productivity. Organize, manage and track all your SEO, social media, blog strategy, content marketing and design projects from one place to save time. Actively keep tabs on the status of all your projects. You'll never waste time wondering who is working on which task and what is pending to be sent to your client. See everyone's tasks, content publish dates and events on the shared calendar. See what is coming up next and manage deliverables when growing your projects and clients. What gets tracked gets done. Tracking small tasks (recurring ads, campaigns, email newsletters etc.) across all your marketing and content projects is key to the overall success of your business. Take a streamlined approach to communicate on all the different projects that the team is working on without having time sucking meetings. Features include: 1) 100%

HASTAC: Blogs

<http://www.hastac.org/blogs>

The Humanities, Arts, Science, and Technology Alliance and Collaboratory (HASTAC) functions as a hub for big, bright, interdisciplinary ideas online. The blog section of its website offers an array of thoughtful pieces by HASTAC members. Recent articles have featured an interview with history of technology scholar Cathy N. Davidson on the nature of trust in online learning environments, a first hand account of a course run by the Women's Coding Collective, and a webinar video from a course on teaching and researching with Scalar, a free open-source publishing platform. From the blog, readers may also link to the rest of the HASTAC site, which highlights events (both online and in person), groups, and topics from around the international scholarly community. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. From The Scout Report, Copyright Internet Scout 1994-2015.

Frame.io

<http://frame.io/>

For anyone working with teams of people on multimedia projects, Frame.io provides a way to co-create and co-edit video, photos, audio, documents, and other modalities all in one place. Recently launched, Frame.io operates on the premise that more and more people are working with more complex media programs but are forced to use different platforms for different parts of the same project. So, for example, teams use Vimeo for their video, email for communication, and Dropbox to share files. Frame.io wraps all of the functionalities of those various services into a single well-designed platform. It's fast too - 5x faster than Dropbox. So when users are uploading and sharing large files, there's less lag, which leads to greater productivity. The company offers 2GB of free file storage on a single project that can include up to five collaborators. For larger projects, the paid tiers start at \$15 per month. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>

Updated> Biological Informatics Subject Tracer White Paper Link Dataset Compilation

<http://www.BiologicalInformatics.info/>

I have just updated my Subject Tracer™ Information Blog white paper link dataset compilation titled **Biological Informatics** which is now a 36 page paper listing selected resources both new and existing that will help anyone who is attempting to find the latest information about biological informatics that are available over the Internet. It is freely available as a .pdf file (296KB) at the above link from the Virtual Private Library™ and authored by [Marcus P. Zillman, M.S., A.M.H.A.](#) It was updated on **July 8, 2015**. Other white papers are available by clicking [here](#).

Counsel - Real Time Answers From People

<http://trycounsel.com/>

Counsel is an app designed to help you make better decisions in life using the wisdom of people. A single human being may not have the experience to make the best decisions but several people combined surely do. We here at Counsel made it easy to seek advice. Just 3 Taps to some Good Advice ... It takes only a few seconds to connect & talk to someone who has been there, done that. An opportunity to listen to and help fellow human beings. Share wisdom, experiences and opinions that transcend geographical and cultural boundaries. An iOS app is also coming soon. Features include: a) Connect Instantly over Call; b) Leave Voice Comments; and c) Be Anonymous. This will be added to [Internet Experts](#) Subject Tracer™.

Open Whisper Systems - Open Source Security for Mobile Devices

<https://whispersystems.org/>

Private Messaging for iPhone and Android with the following features : a) Say Anything - Send high-quality group, text, picture, and video messages, all without SMS and MMS fees; b) Be Yourself - Use your existing phone number and address book.

Data Mining for the Masses

<http://www.onlineprogrammingbooks.com/data-mining-masses/>

In Data Mining for the Masses, professor Matt North—a former risk analyst and database developer for eBay.com—uses simple examples, clear explanations and free, powerful, easy-to-use software to teach you the basics of data mining; techniques that can help you answer some of your toughest business questions. Topics included: Introduction to Data Mining and CRISP-DM 3 • Organizational Understanding and Data Understanding • Data Preparation • Correlation • Association Rules • k-Means Clustering • Discriminant Analysis • Linear Regression • Logistic Regression • Decision Trees • Neural Networks • Text Mining • Evaluation and Deployment • Data Mining Ethics. This will be added to [Data Mining Resources](#) Subject Tracer™.

Shanghai Library

<http://www.library.sh.cn/>

The Shanghai Library was founded in 1952, and the Institute of Scientific and Technical Information of Shanghai was established in 1958. In October 1995, the Shanghai Library and the Institute of Scientific and Technical Information of Shanghai merged to become a comprehensive research public library and center for industrial information. It is also the branch of the National Cultural Information Resource Sharing Project in Shanghai, the main library of the Shanghai Central Library System, Shanghai Ancient Books Protection Center and the “Pioneer Technology Development Research Center” of the Shanghai soft science research base. The Shanghai Library now has a collection of over 53 million items in Chinese and foreign languages, including such unique resources as rare books, letters and rubbings, celebrity manuscripts, genealogical records and local histories, Western rare books, sheet music, modern newspapers and periodicals, and patents and standards. This has been added to the tools section of [Research Resources](#) Subject Tracer™. This will be added to [Reference Resources](#) Subject Tracer™.

Updated> Student Research Resources White Paper Link Dataset Compilation

<http://www.StudentResearch.info/>

The above is the associated white paper link dataset compilation for [Student Research](#) Subject Tracer™ by [Marcus P. Zillman, M.S., A.M.H.A.](#) . It is a freely available 34 page .pdf (9) document covering all areas for student research available over the Internet! [Updated July 10, 2015] Other white papers are available by clicking [here](#).

Weld - From Idea To Prototype In Minutes

<https://www.weld.io/>

Features include: a) Responsive - Make responsive web and app prototypes that scale and adapt beautifully to different screen sizes; b) Simple - A prototyping tool so simple anybody can use it and be productive in a few minutes; c) Share - All design changes are reflected in real-time, on all connected devices; and d) Future - They are building a new visual programming system that will radically simplify the creation of interactive apps & prototypes. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Updated> Data Mining Resources Whitepaper Dataset Link Compilation

<http://www.DataMiningResources.info/>

I have updated my Data Mining Resources Subject Tracer™ Whitepaper Dataset Link Compilation and it is now a 26 page (244KB) .pdf white paper document is available from the above URL link. It lists alphabetically the latest resources and sources for data mining available from the Internet. [Updated July 11, 2015] Additional white papers and resources by [Marcus P. Zillman](#) are available by clicking [here](#).

ScramPhoto - Safer Photo Sharing

<https://scramphoto.com/>

ScramPhoto makes photo sharing safer by preventing location stalking and deterring copyright theft. It removes photo metadata, adds copyright messages and watermarks and downsizes photos. This will be added to [Privacy Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Google URL Shortener

<http://goo.gl/>

The Google URL shortener is as intuitive as it is powerful. Users may paste any web address into the appropriate text box, select Shorten URL, and a shorter, more manageable URL will appear. For instance, "https://www.law.cornell.edu/supremecourt/text/home," which is 49 characters long, becomes "goo.gl/8rrlvp," which is just 11 characters long. Though most users will most likely shorten URLs for Twitter, Facebook, and other social media platforms, these concise versions can also be helpful for business cards and presentations, among other possibilities. In addition, the Google URL shortener saves your activity and tracks the number of times the shortened URL is clicked, either in the past two hours, day, week, month, or all time. This will be added to the tools section of [Research Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [World Wide Reference](#) Subject Tracer™. From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>

Updated> ShoppingBots and Online Shopping Resources 2015

<http://www.ShoppingBots.info/>

The above is my 19th annual release of **ShoppingBots and Online Shopping Resources 2015** allowing you to shop with your bot until you drop! I started this in 1996 and have annually released a new edition each year since then! Also included with the list of ShoppingBots (Shopping Search Engines) is a very comprehensive listing of coupon, discount code and deal sites and resources. It is now a 37 page .pdf document 269KB and **Created on November 1, 2014 and Updated on July 13, 2015**. Other white papers are available by clicking [here](#).

Scalar - Digital Online Open Source Writing

<http://scalar.usc.edu/scalar/>

For many users, Scalar is the next step in digital, online, open source writing. It combines the functionality of a blog with the focus and length of an e-book. It also enables authors - even relatively un-techy authors - to assemble videos, infographics, music, and other media from around the web, easily, conveniently, and seamlessly. While the service seeks to strike a balance between standardization and flexibility, most beginners will find the templates and platforms easy to approach (more experienced developers may wish to move on to truly open source sites where they can design to their hearts' content). To understand what Scalar is capable of, readers might like to scroll through the featured projects on the homepage. In addition, selecting Learn More navigates to a four-minute

Email Hunter - Direct Access To All the Web's eMails

<https://emailhunter.co/>

Email Hunter is your sales secret weapon. Email Hunter helps sales people reach their targets and increase their sales. Features include: a) Don't waste your time - How much time have you lost looking for contact information? Find email addresses all over the web in seconds with Email Hunter; b) Reach your targets - In seconds, choose the right person to contact or guess instantly the company's email pattern; and c) Build with our API - Bring the power of Email Hunter to your users. All the data are available in a simple to use and powerful API. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [Business Intelligence Resources](#) Subject Tracer™.

Updated> Grid, Distributed and Cloud Computing Resources Primer

<http://www.zillman.us/white-papers/grid-distributed-and-cloud-computing-resources-primer/>

I am very pleased to announce that I have just updated my **Grid, Distributed and Cloud Computing Resources Primer**. This primer is now 30 pages and a .pdf document (247KB) and freely available from the above URL. This primer gives an excellent overview of Cloud Computing along with a comprehensive listing of cloud, grid and distributed computing resources! It will be permanently archived in my [White Papers](#) site. [Updated on July 14, 2015]

CrawlTrack - Your Web Statistics Tool

<http://www.crawltrack.net/>

CrawlTrack is the script you were looking for to manage your site(s). It's not only a Web Analytics script such as Google analytics, AWstats, phpMyVisites or Piwik, but it's a complete tool. With CrawlTrack you will get informations that all the others are unable to give. With CrawlTrack you will get a detail view of the crawler activity on your site. Crawlers visits count for more than 85% of hits on www.Crawltrack.net; some are usefull, other far less and even dangerous (30% are hacking attempts on www.crawltrack.net). Only the php technology used by CrawlTrack is able to give a clear view of spiders crawling your site, to follow your site indexation minute per minute. This is fundamental to help you to improve your site ranking in search engine index and so the number of visitors. You will also have information regarding the number and origin of visitors, the bounce rate, the number of 404 errors, the number of file downloads, your server load usage and your site indexation. You will be able to follow on a daily basis

Muck Rack - The Easiest Way To Find and Contact Journalists

<http://muckrack.com/>

Muck Rack's mission is to make journalists, PR pros and marketers more successful. Technology delivers news faster than ever. There's never been more potential to tell your story to the public, yet most of the tools haven't fundamentally changed since the first journalist directory named Bacon's was mailed out in 1952. Press releases are aimlessly blasted out. Journalists are spammed because of antiquated media databases. PR pros get little response and can't measure the effectiveness of their work. This has all made communicating with a wide audience harder than ever. They decided to build Muck Rack after launching new products ourselves. Despite having a zero dollar marketing budget, they reached an audience of millions by building relationships with journalists who ended up covering them including the New York Times, BBC and Wall Street Journal. They needed a tool designed for how the media works today, not how it worked ten years ago. So we built it. Today Muck Rack is trusted by top-tier journalists, global PR agencies and Fortune 500 companies, in addition to many boutique agencies and entrepreneurs. Journalists use Muck Rack to: a) build their portfolio; b) get verified in Muck Rack's authoritative directory; c) track the impact of their work; d) keep up with news about their colleagues; and e) find career opportunities. PR pros, marketers and companies use Muck Rack to: 1) effectively pitch story ideas to the right journalists; 2) monitor what's being said about their company, client or competitors in real-time; 3) receive alerts when there are new PR opportunities or crises; and 4) track how successful their campaigns have been and generate reports to share with colleagues and clients. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [Journalism Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

PitchEngine - The Publishing Platform Built For Business

<http://pitchengine.com/>

PitchEngine is the best way to reach your stakeholders and fans - people influential to your brand like employees, journalists, vendors or investors. For smaller businesses, it's a new way to interact with your best customers and grow your business doing so. Think of PitchEngine as your own micro-network that's built specifically for you and your community. They don't decide who sees what - they help you deliver your followers the content they crave. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

August 2015 Zillman Column - Searching the Internet - A Primer

http://columns.virtualprivatelibrary.net/Primer_Searching_Internet_Aug15_Column.pdf

<http://www.zillmancolumns.com/>

The August 2015 Zillman Column features **Searching the Internet – A Primer** by Marcus P. best performing content, but you'll also be in good company. Their readers trust them because they have proven to be the most reputable in the industry. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

PRESSfeed - Social Media Online Newsroom

<http://news.press-feed.com/>

PRESSfeed has been at the forefront of online newsroom development for five years now – they were the first to add RSS Feeds to news content and they were the first to develop the social media newsroom. They are deeply involved in the PR industry and they know the needs of PR and marketing professionals as well as the needs of the media, both traditional and social. They constantly research the changing needs of journalists and bloggers and how people consume news in the social media space. We listen to our customers and constantly research changes in news consumption. They integrate these insights and behaviors into our newsroom. In today's fast paced news cycle, with so much news being shared on social media sites, it's vital to have your news and content in Twitter, Facebook, YouTube and LinkedIn. But it is just as important to keep your newsroom relevant and plugged into this new social world. This will be added to [Social Informatics](#) Subject Tracer™.

AirPR Analyst - Humanizes Data to Increase PR Performance

<https://www.airpr.com/>

The solution tracks media activity and provides top-level, actionable insights into your PR efforts to tell you what is driving engagement and moving the needle in terms of traffic, conversion, organic search, and even revenue. For CMOs and communications professionals, understanding which PR efforts are driving the most effective outcomes is imperative to making better decisions around both budget allocation and content development for future campaigns. Features include: a) Integration - In less than 30 minutes, you can fully onboard; in less than 24 hours you can begin pulling data and reports on current PR activity; b) Impact - Real-time data aggregation and dynamic data visualization of only the most authoritative and impactful information across articles, blogs, and social; and c) Insights - Track the media activity of your top competitors; understand gaps and opportunities to drive future PR decision-making. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

CHAIN-REDS - Co-ordination and Harmonization of Advanced e-Infrastructures for Research and Education Data Sharing

<https://www.chain-project.eu/>

CHAIN-REDS is a FP7 project co-funded by the European Commission (DG CONNECT) aiming at promoting and supporting technological and scientific collaboration across different e-Infrastructures established and operated in various continents, in order to define a path towards a global e-Infrastructure ecosystem that will allow Virtual Research Communities (VRCs), research groups and even single researchers to access and efficiently use worldwide distributed resources (i.e., computing,

storage, data, services, tools, applications). This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

Extreme Science and Engineering Discovery Environment (XSEDE)

<https://www.xsede.org/>

The Extreme Science and Engineering Discovery Environment (XSEDE) is the most advanced, powerful, and robust collection of integrated advanced digital resources and services in the world. It is a single virtual system that scientists can use to interactively share computing resources, data, and expertise. Scientists and engineers around the world use these resources and services—things like supercomputers, collections of data, and new tools—to make our lives healthier, safer, and better. XSEDE, and the experts who lead the program, will make these resources easier to use and help more people use them. The five-year, \$121-million project is supported by the National Science Foundation. It replaces and expands on the NSF TeraGrid project. More than 10,000 scientists used the TeraGrid to complete thousands of research projects, at no cost to the scientists. Initially, XSEDE supports 16 supercomputers and high-end visualization and data analysis resources across the country. It also includes other specialized digital resources and services to complement these computers. These resources will be expanded throughout the lifetime of the project. The XSEDE partnership includes: University of Illinois at Urbana-Champaign, Carnegie Mellon University/University of Pittsburgh, University of Texas at Austin, University of Tennessee Knoxville, University of Virginia, Shodor Education Foundation, Southeastern Universities Research Association, University of Chicago, University of California San Diego, Indiana University, Jülich Supercomputing Centre, Purdue University, Cornell University, Ohio State University, University of California Berkeley, Rice University, and the National Center for Atmospheric Research. It is led by the University of Illinois's National Center for Supercomputing Applications (NCSA). This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

WikiReverse

<https://wikireverse.org/>

WikiReverse shows pages that link to Wikipedia articles. It is a dataset of 36 million links parsed from the July 2014 web crawl released by Common Crawl. WikiReverse shows pages that link to Wikipedia articles. This is sometimes known as a reverse web-link graph. The source data was the July 2014 web crawl released by Common Crawl, which contains 3.6 billion web pages. WikiReverse isn't affiliated with Common Crawl or Wikipedia. But is very grateful to both projects for their work supporting open data. This website is developed and operated by Ross Fairbanks, a software developer based in Barcelona. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [Business Intelligence Resources](#) Subject Tracer™.

ScreenAware - Automatic Time Tracking

<https://www.screenaware.net/>

Invoice clients accurately by automatically tracking and relating your screen time to billable project tasks using a simple desktop plugin. The resulting timesheets are then directly imported into your favorite invoicing or project management solution. Features include: a) Accurate Invoices - At the end of your workday, you get an email report showing which tasks you spent your time on. Optionally you make some adjustments and import the effort spent into your favorite invoicing or project management solution to effortlessly create accurate invoices. All with just the push of one button or even fully automatized; b) Automatic Time Tracking - You install the lightweight ScreenAware desktop app and while you are working, it continually captures your work context noting interruptions and task switches. Offline activities such as meetings from your calendar are considered as well. It then attributes all spent time to your billable projects/tasks. This time tracking happens in the background without requiring any input from your side – no more hitting start/stop timers; and c) Focus on your actual work - You work on projects or tasks using a variety of desktop applications, files and websites, communicate with coworkers and clients via multiple channels and on top are often interrupted forcing you to switch what you are working on. Keeping track of the time spent for each client or project only adds to this burden but is necessary to invoice the client correctly and to judge which projects are profitable and which are not. ScreenAware takes this mental overhead off your shoulders allowing you to focus on your actual work. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

The Hague Declaration

<http://thehaguedeclaration.com/>

The Hague Declaration aims to foster agreement about how to best enable access to facts, data and ideas for knowledge discovery in the Digital Age. By removing barriers to accessing and analyzing the wealth of data produced by society, we can find answers to great challenges such as climate change, depleting natural resources and globalization. This has been added to [Research Resources](#) Subject Tracer™.

OpenRefine - A Free Open Source Powerful Tool for Working With Messy Data

<http://openrefine.org/>

OpenRefine (formerly Google Refine) is a powerful tool for working with messy data: cleaning it; transforming it from one format into another; extending it with web services; and linking it to databases like Freebase. Please note that since October 2nd, 2012, Google is not actively supporting this project, which has now been rebranded to OpenRefine. Project development, documentation and promotion is now fully supported by volunteers. Find out more about the history of OpenRefine and how you can help the community. Klets - A Chat Page For Your Business

<https://klets.co/>

Klets allows businesses to better engage with their customers, leads, and partners in real-time. An easy way to boost sales, solve issues and understand your customers, Klets makes it attractive for people to interact with your business through chat. No coding skills required. It's as simple as signing up for a Twitter profile or Facebook page. Really ... Simple as 1,2,3: 1) Get a Klets page - Set up your profile. Upload your logo and background image. Get a custom address, such as klets.co/digitalagency; 2) Spread your chat address - Post your Klets address on your website, Twitter, Facebook, email signature, or business cards. It's up to you; and 3) Visitors can chat with you - Anyone who has this address is able chat with you. Kind of like a phone number or email address. Works anywhere, anytime - Klets is a web application that works on any device, in any browser, and every resolution. Native apps coming soon! This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

Economic Indicators

<http://www.gpo.gov/fdsys/browse/collection.action?collectionCode=ECONI&browsePath=2015%2F02&isCollapsed=false&leafLevelBrowse=false&ycord=0>

Available from April 1995 forward, this monthly publication is prepared by the Council of Economic Advisers for the Joint Economic Committee. It provides economic information on gross domestic product, income, employment, production, business activity, prices, money, credit, security markets, Federal finance, and international statistics. Economic Indicators back to 1948 are made available through FRASER, the Federal Reserve Archival System for Economic Research. FRASER is provided through a partnership between GPO and the Federal Reserve Bank of St. Louis. FRASER is not an official version of Economic Indicators and GPO can not guarantee the authenticity or completeness of the data. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

Temponia - Online Timesheet Application

<https://www.temponia.com/>

While other timesheet solutions on the market focus mainly on duration, Temponia uses a calendar based scheduler allowing managers to get much more in-depth reporting and control. You can easily visualize a whole working week of an employee, see the exact time they started working on something, when they finished, and spot blank periods when nothing was logged. Features include: a) Calendar Interface - Unlike other time tracking apps we use a calendar for input and visualization. This gives you a great overview of your tracked time as well as in-depth reporting; b) Budget - Setup a project budget within Temponia and track whether your project is still on track. You can even configure alerts so you receive a notification when hours/expenses are nearing budget; c) Powerful Reporting - Different types of reports — by employee, project, task, or client, will let you understand every minute your worker spent on anything; d) Great For Teams - Whether

UNESCO's Open Access (OA) Curriculum

<http://cssp-jnu.blogspot.in/2015/03/unescos-open-access-oa-curriculum-is.html>

"Building inclusive Knowledge Societies through information and communication" is one of the key objectives for UNESCO's Medium-Term Strategy. By adopting this objective, UNESCO Member States have recognized that knowledge plays a key role in economic growth, social development, cultural enrichment and democratic empowerment. This decision of the Members States has influenced UNESCO's Open Access program, through which the organization received a unique mandate to work on OA policy issues; bridge knowledge pools on OA across the world and build capacities to better understand Open Access. These curricula will soon be converted into self-directed e-learning tools, which will enable users to self-assess their knowledge on Open Access and take a learning pace that is initiated and directed by the learners themselves. UNESCO also aims to strengthen this initiative by translating the OA curricula into several languages that will increase their reach and impact. The complete set of five OA modules for researchers and four OA modules for library schools is now available online and can be downloaded from this site. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

StartMail - Take Back Your eMail Privacy

<https://www.startmail.com/>

“Free” email services aren’t free — you pay for them by sharing the most intimate details of your life with corporations and marketers. With StartMail, your email is for only you to read. We make it easy for you to protect yourself from unwanted intrusion and mass surveillance. Features include: a) Send private email to anyone, StartMail user or not; b) Easy, one-click PGP encryption — The Internet’s gold standard; c) They never read your email; d) Based in Europe, home of strict privacy laws and regulations; and e) Built by the people behind StartPage and Ixquick, the world’s most private search engines. This will be added to [Privacy Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. The Center for the Advancement of Science in Space

<http://www.iss-casis.org/>

The Center for the Advancement of Science in Space (CASIS) is a non-profit organization that was founded in 2011 to manage the International Space Station. In addition to making access to the station faster and easier, connecting funders to scientists, and making research accessible to the public, CASIS hosts an excellent website packed with information about the space station. Readers may view the short videos on the homepage for more information on the projects CASIS sponsors, or peruse articles under the News & Events tab. Perhaps the most interesting part of the site, however, are the three tabs set aside for researchers, businesses, and educators. In fact, the For Educators

boomers and seniors to remain longer in their home of choice. In addition to her technology background and years as a technology industry analyst, Laurie has served as a volunteer long-term care ombudsman and is certified in Geriatric Care Management from the University of Florida. Aging in Place is the ability to live in one's own home - wherever that might be - for as long, as confidently and comfortably possible. Livability can be extended through the incorporation of universal design principles, telehealth and other assistive technologies. It is described with reference to Aging in Place Technology Watch and quoted in CNN, Yahoo! Finance, Kiplinger, The Wall Street Journal, The NY Times, and USA Today. Laurie is profiled in Business Week's Launching Startups, Huffington Post, and The NY Times. This will be added to [Elder Resources](#) Subject Tracer™.

MIT Video

<http://video.mit.edu/>

With 150 channels and over 12,000 videos, MIT Video is one of the great unsung repositories of the Internet. Looking for videos related to the arts? There are 174 available. Or perhaps you are more interested in Earth, Atmospheric, and Planetary Sciences. More than 80 videos are waiting for you. Indeed, there are also 261 Engineering videos, 182 videos about Robotics, 181 videos related to Entrepreneurship, and 215 videos about Brain and Cognitive Science. Scouting the site is easy with the site's excellent search function. It is also possible to browse by Channels, Type (Community, Educational, Feature, News, and more), Spotlight, and Surprise Me. However readers choose to navigate the site, there will be many opportunities for hours of video viewing. This has been added to [Tutorial Resources](#) Subject Tracer™.

AWS Educate - Academic Gateway for the Next Generation of IT and Cloud Professionals

<http://aws.amazon.com/education/awseducate/>

With the dramatically increasing demand for cloud employees, AWS Educate provides an academic gateway for the next generation of IT and cloud professionals. AWS Educate is Amazon's global initiative to provide students and educators with the resources needed to greatly accelerate cloud-related learning endeavors and to help power the entrepreneurs, workforce, and Gridresearchers of tomorrow. This will be added to [Grid, Distributed and Cloud Resources](#) Subject Tracer™. This will be added to [Tutorial Resources](#) Subject Tracer™.

OpenSoon - Restaurants and Bars

<http://restaurants.opensoon.co/>

Instantly discover 1600+ new restaurants & bars, before they open, every month. OpenSoon automates your prospect discovery & lead generation for pre-opening restaurants & bars. OpenSoon is a powerful web-based app that discovers upcoming restaurant & bar openings in the US. Built as a foundation for your outbound sales program, OpenSoon instantly automates your prospect discovery & lead generation for pre-opening restaurants & bars. Every week OpenSoon discovers 400+ new upcoming

openings, and converts that data into actionable sales leads. Members access the OpenSoon site from any web browser, to quickly manage and /or export the leads to their CRM. This will be added to [Business Intelligence Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

The Muse

<https://www.themuse.com/>

The Muse is a free job hunting service. But it's also much more than that. Since its inception in 2012, the Muse has been featured in the Wall Street Journal, Mashable, CNN, Bloomberg Television, PBS, and other media outlets. What makes the Muse fresh and interesting? On the website, readers can browse over 2,500 open jobs at companies like Facebook, Zappos, Petplus, and many others. However, the site goes way beyond the ordinary listing service. It also features colorful profiles of each company, which include video interviews with employees, photographs of offices, and rich descriptions of the company culture. In addition, the website provides free training on everything from designing the perfect CV to interview skills to tips on how to choose a career in the first place. This will be added to [Employment Resources](#) Subject Tracer™. From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>

SimpleWeek - Personal Task Manager

<https://simpleweek.com/>

Get things done wherever you go with the world's best personal task manager. SimpleWeek is simple, powerful and so much more than an online to-do list. Features include: a) SimpleWeek keeps you organized - If you don't manage to get everything done, your unfinished tasks will be rolled over to the next day automatically; b) Recurring tasks - SimpleWeek will make sure you never forget again to do something. Just choose one of the allowed period (daily, weekly, etc.) and task will appear on the scheduled day; c) Custom lists - Need a place for long-term tasks? Want to save some links to read later from favorite site? Save all of this data on custom lists, name each list with unique title; d) Planning for the future - You can create tasks for any day in the future. And now you can not imagine how useful it is when SimpleWeek reminds you about birthday, about cinema or something else. Why should you keep it in your head; and e) Task sorting. Drag and Drop - You can sort tasks as you want, while improving the visual priority of each of them. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Discover Business - Startup and Entrepreneur Resources

<http://www.discoverbusiness.us/>

Discover Business offers curated business resources to inspire, cultivate, and grow small businesses, startups, and entrepreneurship. Their goal is to help you find the right resource or tool you need for any business task. They strive to offer strong resources for diverse needs, with voices that are likewise diverse. Their team of experienced professionals have created resources to help you with tasks like how to write a business

plan, or cultivating problem solving skills and even improving your time management techniques. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [Startup Resources for the Entrepreneur](#) white paper.

Calvin - Text Calvin For Whatever You Want, Wherever You Want

<https://www.textcalvin.com/>

Calvin is more than just a delivery service, it's a real person. You'll get to converse with Calvin, stay up to date on your order, and even have a little fun chatting, too! Features include: a) Text their number what you want and where you want it; b) They find the best and fastest service or delivery for your order; c) Confirm your order and they will send you a secure payment link; and d) Celebrate! Save their number and text them again!

This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

NIMH: Recent Science News

<http://www.nimh.nih.gov/news/science-news/index.shtml>

Science News from the National Institute of Mental Health is a fantastic resource for teachers, psychologists, and others who want to keep abreast of the latest research on a range of mental health concerns. Readers can scout the site by Recent News, which appears automatically on the homepage. They can also delve into the hundreds of past reports by searching News by Year and News by Topic. Topics include a wide range of disorders, populations, research, and other categories. For instance, there are 22 articles available about psychotherapy, 91 articles on medications, and 26 articles about diversity and ethnic groups. This will be added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. From The Scout Report, Copyright Internet Scout 1994-2015. <https://www.scout.wisc.edu>

Competency-Based Education Network - A National Consortium for Designing, Developing and Scaling New Models for Student Learning

<http://www.cbenetwork.org/>

The Competency-Based Education Network is a group of colleges and universities working together to address shared challenges to designing, developing and scaling competency-based degree programs. In early 2014, the network selected an initial cohort of participating colleges and universities; the cohort includes 17 institutions and two public systems serving 42 campuses. The institutions will take part in a research-and-development phase, funded by Lumina Foundation, to provide an evidence-based approach to advancing high-quality competency-based education capable of serving many more students of all backgrounds. A Steering Committee, led by Laurie Dodge of Brandman University, was formed in spring 2013 and the network issued a formal call for membership applications in the fall. Participating institutions either offer degree programs with well-defined learning outcomes and rigorous assessment or are on their way to creating them. The C-BEN Steering Committee, comprising higher education innovators from several of these institutions, will guide the work and periodically will issue additional calls for applications. This will be added to [Education and Academic](#)

Awarenesswatch™ Paper Review

Redefining Privacy and Anonymity Through Social Networking Affordances by
Angela M. Cirucci

<http://firstmonday.org/ojs/index.php/fm/article/view/5465>

Abstract:

Social networking sites allow people to create, broadcast, and interpret the self in new and evolving ways. While early online social media studies praised the Internet for providing an anonymous space in which to experiment with identity, more recent research suggests that social networking sites have become not anonymous, as they compel users to perform identity in new ways. Through a novel application of affordance theory, this paper argues that instead of attempting to apply outdated definitions of privacy to social networking spaces, we should instead be discussing our right to anonymity. I argue that privacy is immaterial due to the fact that from the moment we log in and interact with a social media interface, we have shared some type of personal information with someone. Anonymity, on the other hand, is defined as the unlinkability of our many identifications. Thus, instead of attempting to define ideas such as “personal” and “private,” we should instead fight for the separation of selves, both at the social and institutional level.

Subject Tracer™ Information Blogs

Subject Tracer™ Information Blogs created and developed by the Virtual Private Library™ combine the best of the latest tools on the Internet. Using bots, blogs and news aggregators the Subject Tracer™ Information blogs generate RSS feeds with the latest resources to create a current information resource flow through niched subject tracers. I am proud to be the creator of the Internet’s first Subject Tracer™ Information Blogs:
