

Awareness Watch™ Newsletter

By Marcus P. Zillman, M.S., A.M.H.A.

<http://www.AwarenessWatch.com/>

V14N12

December 2016

Welcome to the V14N12 December 2016 issue of the **Awareness Watch™ Newsletter**. This newsletter is available as a complimentary subscription and is issued monthly. Each newsletter will feature the following:

Awareness Watch™ Featured Report

Awareness Watch™ Spotters

Awareness Watch™ Book/Paper/Article Review

Subject Tracer™ Information Blogs

I am always open to feedback from readers so please feel free to email with all suggestions, reviews and new resources that you feel would be appropriate for inclusion in an upcoming issue of Awareness Watch™. This is an ongoing work of creativity and you will be observing constant changes, constant updates knowing that “change” is the only thing that will remain constant!!

Awareness Watch™ Featured Report

This month's featured report covers **ShoppingBots and Online Shopping Resources 2017** is a comprehensive listing of shoppingbot and online shopping/coupon resources and sites on the Internet. This is the 21st annual listing of this directory that has been produced and published by Internet Expert and Guru Marcus P. Zillman, M.S., A.M.H.A. since 1996. The below list of sources is taken from his Subject Tracer™ Information Blog titled ShoppingBots and is constantly updated with Subject Tracer™ bots at the following URL:

<http://www.ShoppingBots.info/>

These resources and sources will help you to discover the many pathways available to you through the Internet to find the latest shoppingbot resources and coupon/deal sites. Shop with your Bot until you Drop!!!

Notes and Suggestions for Virtual Shopping

Whether your gift list is ready or you're wondering how long you can wait to start your holiday shopping, the Federal Trade Commission has online tips to help you get the best deals. The bottom line: Some extra research can really pay off:

Set a Budget. Create a gift list and check it twice to help you stay on track and not overspend.

Decide What Matters. Especially if you're buying gadgets, know what your "must-have" features are vs. those that are just nice to have.

Use Search Engines. Type a company or product name into your search engine with terms like "review," "complaint" or "scam" to find out more about it.

Read Reviews Online. Reviews from other people, experts, and columnists can give you an idea of how a product performs. But don't put all of your trust in one review.

Consider Reputation. A brand's reputation for quality and good customer service can really pay off.

Check Comparison Shopping Sites. They connect to many retailers selling the same product, sometimes at significantly different prices. Keep shipping costs in mind.

Consider Coupons. Some companies offer discounts via e-mail, and some websites collect and list codes for free shipping and other discounts. Search for the store with terms like "discount," "coupon" or "free shipping."

Read Return Policies. Not all stores have the same rules. Some charge fees for return shipping or restocking things like electronics.

Decide How to Pay. When you shop online, credit cards can offer extra protections.

Look for a Secure Checkout. Does the website start with https (the "s" stands for secure) when you're checking out?

Open eBooks

<http://openebooks.net>

Open eBooks, a project headed by the Digital Public Library of America (DPLA) and First Book with support from a variety of publishers and foundations, strives to make a variety of books freely available to children and families who need them. Any educator or librarian who works in a Title I eligible school or in a program or library that "serves at least 70 percent of children from in-need families" can sign up for an Open eBooks account. These educators and librarians can then provide an access code to youth in their program, allowing youth and their family to access up to 10 books at a time on any device free of charge. Youth can then "return" a book to check out a new one at any time. This will be added to [Student Research Resources](#) Subject Tracer™. PubPeer - The Online Journal Club

<https://pubpeer.com/>

The PubPeer Foundation is a California-registered nonprofit public benefit corporation with 501(c)(3) nonprofit status in the United States. The overarching goal of the Foundation is to help improve the quality of scientific research by enabling innovative approaches for community interaction. Their initial focus will be on maintaining and developing the PubPeer online platform for post-publication peer review. The bylaws of the newly created Foundation aim to establish PubPeer.com as a service run for the benefit of its readers and commenters, who create all of its content. They feel that a nonprofit organization constitutes the ideal framework through which to pursue these goals. They are also taking this opportunity to formalize the responsibilities of directors, officers, agents, and subcontractors of the Foundation. First and foremost, they should always act to preserve and defend the anonymity of users of Foundation sites. In addition, they must not comment on Foundation sites except through official channels (such as the blog, the twitter account or as moderators), and they must avoid real and apparent conflicts of interest. The inaugural Board of the Foundation consists of the three founders of PubPeer.com and two associates, respectively: Brandon Stell (President), George Smith, Richard Smith, Boris Barbour (Treasurer) and Gabor Brasnjo (Secretary). They wish to thank all of the expert commenters of PubPeer.com, who are responsible for the success of the site. They also thank and are extremely grateful to our pro bono legal representatives (Nicholas Jollymore of Jollymore Law and Alex Abdo, Daniel Korobkin and Samia Hossain of the ACLU) for defending our site and the community's right to comment freely under the law. This will be added to [Research Resources](#) Subject Tracer™.

Startup Patterns - Bit Sized Startup Lessons for Busy Founders

<http://www.startuppatterns.co/>

Bite-sized startup lessons for busy founders. Startup Patterns is designed for people aspiring to stay on top startup knowledge, but can barely find time to do it. They give you a competitive edge, learn fast and effortlessly by swiping through curated lessons, once at a time, from the world's best startup references & authors. Some of the featured authors that inspire our lessons are @paulg, @sgblank, @fredwilson and many more. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. The Top 210 Best Job Search Sites for 2016

<http://www.jobs2careers.com/advice/best-job-search-sites/>

The one thing we can all agree on: searching for jobs online can be a PAIN. What if they told you they could make your search easier by giving you a list of the best sites to find any job you might be looking for? 50 sites? 100? They did better. This post features more than 200 job search sites, from large job sites to small niche industry sites. They weeded out the scams and the spam sites for you; each of these sites lists actual jobs, just like theirs. They divided them by industry so you can easily find the sites that have the jobs that you WANT. Check out the categories and sites you might not have even heard of, then use this free resource to get your resume out there. What do they get out of it? Satisfaction. Their job is to help you find one. This will be added to [Employment Resources](#) Subject Tracer™.

Association of Internet Research Specialists (AIRS)

Observatory on Social Media (OSoMe)

<http://osome.iuni.iu.edu/>

This project aimed to study diffusion of information online and discriminate among mechanisms that drive the spread of memes on social media. They collected big data from public micro-blogging streams and analyzed information sharing using complex networks tools and models. This project is headed by [Filippo Menczer](#), Professor of Informatics and Computer Science and Director of the Center for Complex Networks and Systems Research at the Indiana University School of Informatics and Computing. This will be added to [Social Informatics](#) Subject Tracer™. This will be added to [Business Intelligence Resources](#) Subject Tracer™.

FreeNode - Free and Open Source Communities

<http://freenode.net/>

The freenode project began as #linuxneo, a tiny GNU/Linux support channel, created by Rob Levin in 1994 on EFNet IRC. The channel soon changed its name to #LinPeople. By 1995, after moving to Undernet and then DALnet, #LinPeople became a small network, irc.linpeople.org. In early 1998, it became Open Projects Net, with about 200 users and fewer than 20 channels. In 2002, Open Projects Net became freenode, a service of Peer-Directed Projects Center, a tax-exempt corporation. In 2013, the Peer-Directed Projects Center shut down; however the freenode project continues to operate as before. Today, the freenode project plays host to somewhere in the region of 90,000 users and just shy of 50,000 registered channels. The freenode project is managed entirely by a small team of enthusiastic volunteers who all share a passion for free and open source software and peer-directed project communities. You can learn more about the people behind freenode here. The freenode project has experienced immense growth over the years and, in line

G Data Secure Chat for Android

<https://www.securechat.com/en>

A snapshot from holiday, quickly sent via the messenger service – a nice greeting directly on the smartphone instead of a postcard. But does the image really reach only the recipient? Yes! G DATA SECURE CHAT makes sure of it. With its reliable encryption, nobody but you can access your data. Middlemen are left with no chance: Only your smartphone and the recipient's device can decrypt the messages that are sent. Your data traffic remains secure and you retain all rights to the contents. G DATA SECURE CHAT is open source software, meaning that the source text is freely available and has been checked in detail for backdoors and security holes. Independent organizations have found the app to be secure. Features include: a) Encrypt chats with your group - Your data is also encrypted when sent in a group chat. The keys are on your contacts' smartphones; b) Send SMS securely - A security key that you share with other users guarantees that only they can read your messages; and c) Self-Destructing Messages - With the self-destruct timer, you can rest assured that your personal data will not be forwarded to third parties. This will be added to [Privacy Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Ricochet - Anonymous Instant Messaging for Real Privacy

<https://ricochet.im/>

Ricochet is a different approach to instant messaging that doesn't trust anyone in protecting your privacy. Features include: a) Eliminate metadata. Nobody knows who you are, who you talk to, or what you say; b) Stay anonymous. Share what you want, without sharing your identity and location; c) Nobody in the middle. There are no servers to monitor, censor, or hack; and d) Safe by default. Security isn't secure until it's automatic and easy to use. This will be added to [Privacy Resources](#) Subject Tracer™.

Zenodo - Research Shared

<https://zenodo.org/>

Built and developed by researchers, to ensure that everyone can join in Open Science. The OpenAIRE project, in the vanguard of the open access and open data movements in Europe was commissioned by the EC to support their nascent Open Data policy by providing a catch-all repository for EC funded research. CERN, an OpenAIRE partner and pioneer in open source, open access and open data, provided this capability and Zenodo was launched in May 2013. In support of its research programme CERN has developed tools for Big Data management and extended Digital Library capabilities for Open Data. Through Zenodo these Big Science tools could be effectively shared with the long-tail of research. Zenodo is derived from Zenodotus, the first librarian of the Ancient Library of Alexandria and father of the first recorded use of metadata, a landmark in library history. Zenodo in a nutshell: a) Research. Shared. — all research outputs from across all fields of research are welcome! Sciences and Humanities, really; b) Citeable. Discoverable. — uploads gets a Digital Object Identifier (DOI) to make them easily and uniquely citeable; c) Communities — create and curate your own community for a workshop, project, department, journal, into which you can accept or reject uploads. Your

GotScience.org

<http://www.gotscience.org>

Founded in 2008 by the nonprofit organization Science connected, GotScience.org is a free, digital magazine dedicated to making recent scientific research available - and accessible - to members of the general public. Edited and authored by a diverse group of journalists, freelance writers, and photographers, GotScience.org summarizes and analyzes recent research studies and news events so that individuals understand the significance and limitations of these new studies. Each article includes links to original peer-reviewed journal studies. Visitors can search for articles by subject tags, including Astronomy, Engineering, Environment, and Health. Recent articles highlight research on solar energy, the effects of sunlight on sleep, and the impact of global climate change on the Totten Glacier in Antarctica. In addition to research summaries, GotScience.org also features interviews and book reviews. Educators can sign up for a free GotScience.org Discussion Guide. This will be added to [Student Research Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. December 2016 Zillman Column - Current Awareness Discovery Tools 2017

http://columns.virtualprivatelibrary.net/Current_Awareness_2017_Dec16_Column.pdf
<http://www.zillmancolumns.com/>

The December 2016 Zillman Column features **Current Awareness Discovery Tools 2017** by [Marcus P. Zillman, M.S., A.M.H.A.](#); Executive Director of the [Virtual Private Library](#). This is a comprehensive listing of current awareness discovery tools available on the Internet. Download this excellent freely available 25 page column 607KB today. These resources and sources will help you to discover the many pathways available through the Internet to find the latest current awareness resources and sites. Download this freely available column now to maintain your all important current awareness in today's new economy and cyber based world!!

Chatfuel - Build a Facebook Bot Without Coding

<https://chatfuel.com/>

Chatfuel was born in the summer of 2015 with the goal to make bot-building easy for anyone. They started on Telegram and quickly grew to millions of users. Today they are focusing mainly on making it easy for everyone to build chatbots on Facebook Messenger, where their users include NFL and NBA teams, publishers like TechCrunch and Forbes, and millions of others. They believe in the power of chatbots to strengthen

XMind

<http://www.xmind.net>

Visual learners looking for a free study or note taking tool may want to check out XMind. This "mind-mapping" program, designed for Mac or Windows computers, allows users to create and save a variety of organizational maps, diagrams, charts, and spreadsheets. Users can create their own maps or select from a variety of templates, including timelines, fishbone charts, and flowcharts. Users can then save their maps to other note-taking tools like Evernote, or share them on social media via Facebook, Twitter, or LinkedIn. (Users may also purchase a version of XMind that allows them to export mindmaps to a variety of formats, including PDF or Microsoft Office). As of now, XMind is available only on computers; a mobile version is in the works. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

Online Research Browsers 2017

<http://www.zillman.us/white-papers/online-research-browsers/>

Internet MiniGuide Annotated Link Dataset Compilation white paper titled "Online Research Browsers 2017" a 18 page research paper listing many resources both new and existing that will help anyone who is attempting to find information and knowledge research about online research browsers available on the Internet. These research browsers allow you to visualize information to find new relationships and associations to create knowledge discovery and obtain new and highly relevant research data. It is freely available as a .pdf file (195KB) at the above link from the Virtual Private Library™ and authored by [Marcus P. Zillman, M.S., A.M.H.A.](#) It was updated with all links validated on **November 14, 2016**. Other white papers are available by clicking [here](#).

dash - Repository-agnostic Data Curation

<http://www.slideshare.net/UC3/dash-data-sharing-made-easy>

dash is a user-friendly data deposit and discovery platform in development by the UC Curation Center. This will be added to the tools section of [Research Resources](#) Subject Tracer™.

Singularity Hub

<http://singularityhub.com/>

Singularity Hub chronicles technological progress by highlighting the breakthroughs, players, and issues shaping the future as well as supporting a global community of smart, passionate, action-oriented people who want to change the world. This will be added to

the tools section of [Research Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

When2meet

<http://www.when2meet.com>

For visual learners, When2meet is a free tool designed to alleviate the stress of planning a large meeting or event. First event planners select days and times that may work (e.g., Thursday between 10:00AM- 4:00PM). Participants may then be emailed or provided with a distinct URL to offer input about the schedule in question. Participants can mark half hour blocks when they are available and unavailable to meet. As participants respond, a group schedule is shaded in (the more people available to meet, the darker the shade for that time period). This allows visitors to quickly visualize the best time to meet. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>.

Director Stats

<http://www.directorstats.co.uk/>

Directorstats.co.uk is a one-stop source for researching information about top directors and executives leading enterprises based and operating in the United Kingdom. Directorstats.co.uk displays an in-depth director profile for every single professional, including a detailed summary of their current workplace, as well as recent career history. Users can access information ranging from personal details such as full name, date of birth, address and nationality, to a history of professional collaborations displayed on a special coworkers graph. Directorstats.co.uk also provides details of their appointment dates and traces positions they occupied within specific periods of time, granting users a complete summary of a professional's career development. Directorstats.co.uk aims to give a full picture of professionals occupying executive positions by allowing users to judge their performance on the basis of key financial data about every single of their workplaces. The platform does that by granting access to full company filings which feature critical information such as the annual returns or changes in official company data. Directorstats.co.uk is your best resource for exhaustive and constantly updated information about high-level professionals managing companies located in the UK. This will be added to [Finding People](#) Subject Tracer™.

Open Learning Initiative: Probability & Statistics

<http://oli.cmu.edu/courses/free-open/statistics-course-details>

A strong grounding in probability and statistics can help with the interpretation of research studies in a variety of fields. Carnegie Mellon's Open Learning Initiative offers a free, online, four-unit course on Probability & Statistics for anyone looking to learn more about the discipline. This course, intended to be the equivalent of a college semester, is designed to be taken independently or incorporated into a classroom. The course utilizes

the university's own StatTutor program to provide interactive feedback and hints to learners as they solve problems. Learners have the choice of selecting two versions of this online course: Probability & Statistics, which includes a more "classical" approach to probability, or Statistical Reasoning, which features an abridged version of the Probability unit with an emphasis on the skills and knowledge needed to understand inference. This course is intended as a beginner course in Statistics and requires prior knowledge in basic algebra. This will be added to [Statistics Resources and Big Data](#) Subject Tracer™. MindMeld - Advanced Artificial Intelligence To Power the New Generation of Intelligent Conversational Interfaces

<https://www.mindmeld.com/>

MindMeld has pioneered the development of technology to power a new generation of intelligent conversational interfaces. MindMeld was founded in 2011 by Tim Tuttle. A former AI researcher from MIT and Bell Labs, Tim saw how recent advances in AI would enable breakthrough applications driven by natural language, touch and gesture. After 3 years of technology development and 10 patents, MindMeld launched its core offering, the MindMeld platform, in 2014. MindMeld is the first platform that makes it possible for companies to create intelligent conversational interfaces for any app or device. MindMeld has been widely recognized as a leader in the field of natural language understanding and was named by MIT Technology Review as one of the world's "50 Smartest Companies" of 2014. This will be added to [Artificial Intelligence](#) Resources Subject Tracer™ This will be added to [ChatterBots](#) Subject Tracer™. This will be added to [Bot Research](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Postleaf

<https://www.postleaf.org>

Bloggers and web content managers looking for an alternative to current blogging platforms may want to check out Postleaf. This open-source online publishing tool boasts a sleek interface and responsive admin panel, allowing your online publication to be easily read on a computer, tablet, or mobile phone. Free to download, Postleaf utilizes inline editing and allows users to easily add tags. It also allows users to quickly backup material. Postleaf's creator, Cory LaViska, wrote: "I built Postleaf because I wanted to 'thin down' the blogging experience into a minimal, beautiful, installable application." Readers of a similar mindset will want to check out this tool. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

Syncthing

<https://syncthing.net>

For those who work on multiple devices and operating systems or who want to securely access photos and music between devices, Syncthing may appeal. Syncthing is an open-sourced, encrypted syncing tool that users can download for a variety of operating systems (including Linux, Windows, MacOS, and Solaris to name just a few) or install as an application. To access files on another device or systems, users can simply download their folder of shared items. All shared items are also backed up securely. One unique feature of Syncthing is that it includes File Versioning options, which allow users to save and archive older versions as they continue to work and update a file. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™. Drone Journalism Lab

<http://www.dronejournalism.org/>

Links, thoughts and research into using drones, UAVs or remotely piloted vehicles for journalism at the Drone Journalism Lab at the University of Nebraska-Lincoln's College of Journalism and Mass Communications. The College of Journalism and Mass Communications at the University of Nebraska-Lincoln established the Drone Journalism Lab in November 2011 as part of a broad digital journalism and innovation strategy. Journalism is evolving rapidly, and journalism education must evolve with it, teaching new tools and storytelling strategies while remaining true to the core principles and ethics of journalism. The lab was started by Professor Matt Waite as a way to explore how drones could be used for reporting. In the lab, students and faculty will build drone platforms, use them in the field and research the ethical, legal and regulatory issues involved in using pilotless aircraft to do journalism. This will be added to [Drone Resources](#) Subject Tracer™. This will be added to [Journalism Resources](#) Subject Tracer™.

Courseware In Context

<http://coursewareincontext.org/>

The CWiC Framework supports postsecondary decision-makers in effectively navigating the market of courseware solutions. It is designed to help you make better-informed adoption and implementation decisions with the goal of advancing the adoption of high-quality digital courseware in higher education and ultimately achieving improved outcomes for students. As a guide for broadening your awareness and equipping you with helpful decision making tools, the Framework offers an inventory of product capabilities, as well as implementation considerations foundational to enhancing and improving blended and online teaching and learning with digital courseware. Research shows that decision-makers are starved for time to discover and rigorously evaluate courseware. The CWiC Framework equips higher education to overcome this barrier in support of improved digital learning. This will be added to [Education and Academic Resources](#) Subject Tracer™.

Library and Information Science: Blogs and Podcasts

<http://guides.lib.ua.edu/c.php?g=39525&p=252576>

The University of Alabama Libraries has compiled this diverse and delightful list of podcasts, blogs, and Wikis that will be of interest to librarians and library science students. This resource list contains professional resources - including a Wiki that highlights best practices in the field and links to Twitter feeds that librarians may want to follow to keep abreast of developments in the library world. Many podcasts and blogs featured here - such as Adventures in Library Instruction and the official podcast of the Young Adult Library Service Association - provide specialized information and advice for specific members of the library profession. On the lighter side, the University of Alabama Libraries also highlights a number of personal and group blogs that provide humor and wry commentary about the library world. Social Media Lab

<http://socialmedialab.ca/>

The Social Media Lab is a multi- and interdisciplinary research laboratory at the Ted Rogers School of Management at Ryerson University in Toronto, Canada. The lab studies how social media is changing the ways in which people communicate, disseminate information, conduct business and form communities, and how these changes impact the social, economic and political structures of modern society. Our expertise lies in studying online communities and social networks and developing new tools and methods for analyzing and visualizing social media data. The broad aim of our various research initiatives is to provide decision makers with additional knowledge and insights into the behaviors and relationships of online network members, and to understand how these interpersonal connections influence our personal choices and actions. This will be added to [Social Informatics](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

Due - Start Getting Paid Today

<https://due.com/invoicing>

They are a Payments, eCash, Online Invoicing, Time Tracking, Global Payments and Digital Wallet Solution for Freelancers, Small Business Owners, and Companies of all sizes. They offer an affordable solution for business owners to pay and get paid faster. Doesn't matter where you live in the world, they have an option for you. They help businesses process millions of dollars each month in credit cards, eCash and eCheck payments. They deliver millions of invoices each year. Their goal is to help each and every business owner grow their businesses and not worry about getting paid. This will be added to [eCommerce Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

This will be added to [Entrepreneurial Resources](#) Subject Tracer™.

IPUMS USA

<https://usa.ipums.org/usa>

Census data provides essential information that allows social scientists, economists, and historians to better understand and analyze the past and present. IPUMS (Integrated Public use Microdata Service) USA is a remarkable online database that allows anyone to explore and examine federal census data from 1850 through the present. Created by Steven Ruggles at the Minnesota Population Center, IPUMS lets users examine past census microdata, highlighting individual level responses rather than aggregate data. Historians will also appreciate that IPUMS assigns uniform codes to all samples, circumventing any complications caused by change in terminology over time. To use IPUMS, users will need to create a free researcher account and agree to IPUMS' citation and redistribution policies. Once users create an account, they can search for data by selecting a variety of samples and variables and submit a request to receive a free data extract. As of this writing, IPUMS USA includes over 50 samples from the federal census and the more recent American Community Surveys. This will be added to the tools section of [Research Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

ScienceNews: Scicurious

<https://www.sciencenews.org/blog/scicurious>

Award-winning writer Bethany Brookshire, authors Scicurious, a sub-blog of ScienceNews. With her engaging posts, Brookshire covers a range of topics relating to science, health, and psychology. Recent articles include an exploration of what human reactions to animal cages demonstrate about human empathy; an analysis of the research relationship of uncertainty to stress (and what we can do about this relationship); and thoughtful examinations of how women are underrepresented in research studies in sports medicine and exercise physiology - and the implications of this oversight. Visitors to SciCurious can browse for past articles of interest by subject tags. This will be added to the tools section of [Research Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

Beyond Citation

<http://www.beyondcitation.org>

Researchers, students, and instructors use academic databases to find scholarship on topics of interest. Yet it is difficult to get information about how these databases work and what materials are included in - or left out of - them. In response to this challenge, a group of students in a Digital Praxis Seminar at the City University of New York (CUNY) created Beyond Citation, a website dedicated to providing the public with information and analysis about major academic search engines. As of this writing, Beyond Citation features explorations of thirteen major databases, including Google Books, Project MUSE, HathiTrust Digital Library, JSTOR, and ProQuest Historical Newspapers. Each database record includes an Overview outlining what the database

Peek A Tab

<https://chrome.google.com/webstore/detail/peek-a-tab/nnpdamdaknpnohmlbnmgphiodghbohohp?hl=en>

Anyone who browses the internet with multiple tabs open knows that doing so can both help and hinder productivity: while multiple tabs allow users to quickly switch between websites and documents, it can also clutter one's browser so that it is difficult to remember what tabs are open. Peek A Tab, a free extension for Google Chrome, may be the answer. Users can install it with just one click. Once installed, visitors can select a small Peek A Tab icon, which will appear on the upper right corner of their browser, to see an easily readable, vertical list of all currently opened tabs. Users can then quickly visit - or close - tabs using this list. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

All About Circuits (AAC)

<http://www.allaboutcircuits.com/>

Since its founding in 2003, AAC has grown into one of the largest online electrical engineering communities. They are a positive, open community of electronics geeks who enjoy sharing knowledge and ideas. Their community takes pride in educating electrical engineers as they grow their experience and knowledge. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to the tools section of [Research Resources](#) Subject Tracer™.

The Metropolitan Museum of Art (The Met)

<http://www.metmuseum.org/>

The Met presents over 5,000 years of art from around the world for everyone to experience and enjoy. The Museum lives in three iconic sites in New York City—The Met Fifth Avenue, The Met Breuer, and The Met Cloisters. Millions of people also take part in The Met experience online. Since it was founded in 1870, The Met has always aspired to be more than a treasury of rare and beautiful objects. Every day, art comes alive in the Museum's galleries and through its exhibitions and events, revealing both new ideas and unexpected connections across time and across cultures. Research Data Spring

<https://www.jisc.ac.uk/rd/projects/research-data-spring>

Technical tools, software and service solutions to support the researchers' workflows, the use and management of their data. Research data spring, part of the research at risk co-design challenge area, is a project aiming to find new technical tools, software and service solutions, which will improve researchers' workflows and the use and management of their data. Their co-design process has identified research data management as a key priority for continued research and development. The project model intends to support the creation of innovative partnerships between researchers, librarians, publishers, developers and other stakeholders engaged in the research data lifecycle. Through the project they hope that the use of practice and standards from other important initiatives in the research data area are pursued, such as DataCite, ORCID, SSI and the ODI certificate. This will be added to the tools section of [Research Resources](#) Subject Tracer™.

The Association of Religion Data Archives

<http://www.thearda.com>

From Pennsylvania State University, with support from the Lilly Endowment and the John Templeton Foundation, the Association of Religion Data Archives (ARDA; formerly known as the American Religion Data Archive) is an extensive online repository for data about religion around the world. Aimed at educators, researchers, journalists, and religious congregations, the ARDA features U.S. and international religious surveys and congregation membership data. One highlight of this website's data collection is the Congregational Resource Center; here, visitors can explore religious affiliation data alongside a number of indexes about religious freedom in that country. In addition to a wealth of data, the site boasts a number of teaching tools, including lesson plans and sample syllabi for religious studies and social science classrooms. Also of note are three interactive timelines that highlight the history of religion in the United States and a number of family trees, which trace the development of a number of religions over time. This will be added to [Theology Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

iMathematics

<http://imathematics.en.softonic.com/>

From Marco Santonocito and Antonio Giarrusso, iMathematics is a free phone application for practicing a variety of mathematical subjects, including arithmetic, algebra, geometry, trigonometry, calculus, and probability. As Giarrusso explains, this phone application can be considered "the Duolingo for Learning Math." Like the popular application for learning new languages, iMathematics teaches users new skills in small steps and then quizzes them on new concepts. Students and teachers alike can create a free account; however, some topics and quizzes require purchasing a Pro version. iMathematics is available for iOS or Android devices. This will be added to the tools section of [Research Resources](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

Open Knowledge Maps - A Visual Interface To the World's Scientific Knowledge

<http://openknowledgemaps.org/>

An Open Knowledge Maps visualization presents you with a topical overview for your search term. It is based on the most relevant papers in the chosen library. They use text similarity to create the knowledge maps. The algorithm groups those papers together that have many words in common. The visualization is intended to give you a head start on your literature search. You can also use Open Knowledge Maps to stay up-to-date - just limit your search to the most recent papers in the options. Their Mission includes the following: a) Visual Interface - They are creating a visual interface to the world's scientific knowledge that can be used by anyone in order to dramatically improve the discoverability of research results; b) Revolutionize Discovery - They are going to provide a large-scale system of open, interactive and interlinked knowledge maps spanning all fields of research; and c) Share. Use. Collaborate. - They will develop a space for collective knowledge organization and exploration, connecting researchers, students, librarians, journalists, practitioners and citizens. This will be added to the tools section of Research Resources Subject Tracer™. This will be added to [Academic and Scholar Search Engines and Sources](#) white paper.

Sizzle Analytics

<https://www.sizzleanalytics.com>

Anyone looking to create appealing visualizations as a way to share data will want to check out Sizzle Analytics. This free tool is designed for creating data visualizations. To create one, users simply upload data as a CSV (Comma Separated Variable) file. Next, users select what variables to measure and what kind of graph to use. Notably, Sizzle Analytics allows users to create graphs that allows others to select variables themselves - allowing for sleek, versatile visualizations. By creating a free account, users can save their work. Those looking for inspiration can check out Featured Boards, which include visualizations of the top Spotify tracks for 2015-2016. This will be added to [Statistics Resources and Big Data](#) Subject Tracer™. Copyright © 2016 Internet Scout Research Group - <http://scout.wisc.edu>

Unplag - Plagiarism Detection

<https://unplag.com/>

Check academic papers for plagiarism on the fly ... Real-time check and Real-time web index. Unplag similarity detection engine checks academic papers literally on the fly. They perform real-time check against real-time web index ensuring you receive the most accurate similarity results. Features include: a) Check up to 5 papers online simultaneously - Choose up to 5 papers to check for plagiarism simultaneously with no decrease in speed. Should you accidentally log out, no worries, the process of checking will be finished automatically. b) View plagiarism check results in the most convenient way - It takes only 4 seconds per page to complete your plagiarism check. They keep the initial file formatting while applying "duplication mask" on top of the document. View plagiarism report online or download it in .pdf format; c) Easy-to-handle file manager supporting multiple file formats - Check .doc, .docx, .rtf, .txt, .odt, .html or .pdf files.

Best Cloud Backup Services 2016 by Ben Schmitt

<https://www.cloudwards.net/award/best-online-backup-services/>

Cloudwards has been publishing reviews about cloud backup services since early 2012, and have been involved in this market since 2010. Not only have they seen and tested many services and apps, but they also had a close eye on the industry itself, where many services come and go on a regular basis. This article summarizes years of experience in the cloud backup market. During the past several months, this guide has grown to over 19,000 words, because they wanted to create a definite overview for people looking for the best cloud backup service — no matter the situation. It comes with everything you need to know about cloud backup (and a little bit about backing up in general), and video reviews of each provider. Some readers won't have time to read through such a content monster. And they get it; so here's a summary table for the impatient, looking for a quick-fix. However, they do guarantee that reading through the entire article will be a much more rewarding and eye-opening experience. This will be added to [Grid, Distributed and Cloud Computing Resources](#) Subject Tracer™. This will be added to [Entrepreneurial Resources](#) Subject Tracer™. This will be added to [eCommerce Resources](#) Subject Tracer™.

Awarenesswatch™ Paper Review

Social Bots Distort the 2016 U.S. Presidential Election Online Discussion

by *Alessandro Bessi, Emilio Ferrara*

<http://firstmonday.org/ojs/index.php/fm/article/view/7090>

Abstract:

Social media have been extensively praised for increasing democratic discussion on social issues related to policy and politics. However, what happens when this powerful communication tools are exploited to manipulate online discussion, to change the public perception of political entities, or even to try affecting the outcome of political elections? In this study we investigated how the presence of social media bots, algorithmically driven entities that on the surface appear as legitimate users, affect political discussion around the 2016 U.S. Presidential election. By leveraging state-of-the-art social bot detection algorithms, we uncovered a large fraction of user population that may not be human, accounting for a significant portion of generated content (about one-fifth of the

entire conversation). We inferred political partisanship from hashtag adoption, for both humans and bots, and studied spatio-temporal communication, political support dynamics, and influence mechanisms by discovering the level of network embeddedness of the bots. Our findings suggest that the presence of social media bots can indeed negatively affect democratic political discussion rather than improving it, which in turn can potentially alter public opinion and endanger the integrity of the Presidential election.

Subject Tracer™ Information Blogs

Subject Tracer™ Information Blogs created and developed by the Virtual Private Library™ combine the best of the latest tools on the Internet. Using bots, blogs and news aggregators the Subject Tracer™ Information blogs generate RSS feeds with the latest resources to create a current information resource flow through niched subject tracers. I am proud to be the creator of the Internet's first Subject Tracer™ Information Blogs:
