V22N4

April 2024

Welcome to the V22N4 April 2024 issue of the **Awareness Watch™ Newsletter**. This newsletter is available as a complimentary subscription and will be issued monthly. Each newsletter will feature the following:

Awareness Watch™ Featured Report

Awareness Watch™ Spotters

Awareness Watch™ Book/Paper/Article Review

Subject Tracer™ Information Blogs

I am always open to feedback from readers so please feel free to email with all suggestions, reviews and new resources that you feel would be appropriate for inclusion in an upcoming issue of Awareness Watch™. This is an ongoing work of creativity and you will be observing constant changes, constant updates knowing that “change” is the only thing that will remain constant especially in today’s post COVID-19 New Economy and New Normal 2024 world!!

Awareness Watch™ Featured Report

This month’s featured report covers **2024 Reference Resources** and is a comprehensive listing of competent Internet reference pathfinders resources and tools including the new economy and new normal internet directories, subject guides and index resources and sites on the Internet available for the 2024 year. The below list is taken partially from 2024 Reference Resources and is constantly updated with my Subject Tracer™ bots at the following URLs:

<http://www.2024ReferenceResources.com/>

These resources and sources will help you to discover the many new pathways available through the Internet to find the latest new and existing world wide web and Internet competent reference pathfinders research sources, tools and sites. As this site is constantly updated it would be to your benefit to bookmark and return to the above URLs frequently. The below resources and sources will be your reference pathfinder to all the new and existing competent reference research tools and resources on the Internet.

Societal Implications of Quantum Technologies Through a Technocriticism of Quantum Distribution by *Sarah Young, Catherine Brooks, and Jason Pridmore*

<https://firstmonday.org/ojs/index.php/fm/article/view/13571/11586>

Abstract:

Advancement in quantum networking is becoming increasingly more sophisticated, with some arguing that a working quantum network may be reached by 2030. Just how these networks can and will come to be is still a work in progress, including how communications within those networks will be secured. While debates about the development of quantum networking often focus on technical specifications, less is written about their social impacts and the myriad of ways individuals can engage in conversations about quantum technologies, especially in non-technical ways. Spaces for legal, humanist or behavioral scholars to weigh in on the impacts of this emerging capability do exist, and using the example of criticism of the quantum protocol quantum key distribution (QKD), this paper illustrates five entry points for non-technical experts to help technical, practical, and scholarly communities prepare for the anticipated quantum revolution. Selecting QKD as an area of critique was chosen due to its established position as an application of quantum properties that reaches beyond theoretical applications.
