Awareness Watch™ Newsletter

By Marcus P. Zillman, M.S., A.M.H.A.
http://www.AwarenessWatch.com/

V6N3   **March 2008**

Welcome to the V6N3 March 2008 issue of the **Awareness Watch™ Newsletter.** This newsletter is available as a complimentary subscription and will be issued monthly. Each newsletter will feature the following:

Awareness Watch™ Featured Report
Awareness Watch™ Spotters
Awareness Watch™ Book/Paper/Article Review
Subject Tracer™ Information Blogs

I am always open to feedback from readers so please feel free to email with all suggestions, reviews and new resources that you feel would be appropriate for inclusion in an upcoming issue of Awareness Watch™. This is an ongoing work of creativity and you will be observing constant changes, constant updates knowing that "change" is the only thing that will remain constant!!

Awareness Watch™ Featured Report

This month's featured report will be highlighting **Business Intelligence Resources**. These resources are constantly updated on the *Business Intelligence Resources* Subject Tracer™ Information Blog available at the following URL:

http://www.BIResources.info/

These resources and sites bring you the latest information and happenings in the area of Business Intelligence Resources by using the Internet and allows you to expand your business intelligence knowledgebase with the connected and associated Internet links.

Awareness Watch™ Spotters

fResource - Global Fundraising Resources
http://www.fresource.info/
fResource is a unique online community for researchers and fundraisers from around the world to come together and share their knowledge about all things research related. Their aim is to help develop fundraising research as a discipline in it's own right as well as ensuring the vast array of information and resources can be accessed by everyone in the search for funding. This has been added to Grant Resources Subject Tracer™ Information Blog. This has been added to Financial Sources Subject Tracer™ Information Blog.

WikiAnswers™ - Q & A The Wiki Way
http://wiki.answers.com/
WikiAnswers™ is a wiki-based website that is growing constantly as people from all walks of life share their knowledge. It is the user-driven component of Answers.com where visitors contribute what they know and ask about what they don't. Their mission is to grow a collaborative answers resource. In WikiAnswers, anyone, anywhere, is encouraged to ask a question on any topic and get a cooperatively written human-generated answer. They believe that two heads truly are better than one, and together they

can provide fuller, richer answers. Everyone has knowledge to share, whether it's about health insurance, digital cameras or the meaning of life. Everyone should have the opportunity to contribute their expertise with the world, and on WikiAnswers that opportunity is free and available for the curious to explore. This has been added to Internet Experts Subject Tracer™ Information Blog.

International Journal of Data Warehousing and Mining (IJDWM)
http://www.igi-global.com/journals/details.asp?id=4291
International Journal of Data Warehousing and Mining aims to publish and disseminate knowledge on an international basis in the areas of data warehousing and data mining. It is published multiple times a year, with the purpose of providing a forum for state-of-the-art developments and research, as well as current innovative activities in data warehousing and mining. In contrast to other journals, this journal focuses on the integration between the fields of data warehousing and data mining, with emphasize on the applicability to real world problems. The journal is targeted at both academic researchers and practicing IT professionals. This has been added to Data Mining Resources Subject Tracer™ Information Blog.

MySyndicaat - Personalized Aggregator
http://www.mysyndicaat.com/
MySyndicaat is a personalized aggregator built on the idea that it should be easy to collect, filter and share web content that is important to you and others. MySyndicaat allows you to: a) Aggregate content from a a wide array of information sources on the web - automate keyword searches (Google, Yahoo, ...), pull in RSS feeds from news organizations, monitor discussions on blogs. Content can be automatically updated to ensure information is current, b) News and information can be filtered to ensure relevant, concise content. Remove duplicates, create user-defined rules to include or exclude news posts based on text, categories or date/time ranges. Allow manual inclusion, exclusion of posts in your content, and c) Aggregated content can be delivered to your users or subscribers using news feeds, web pages, or published directly on your web site. Dynamic streams of news can be created dynamically from your aggregated news to create domain specific dossiers of information. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Bots Blogs and News Aggregators presentation resources.

Entrepreneurial Resources
http://www.EntrepreneurialResources.info/
Entrepreneurial Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for entrepreneur resources.

DAVE Project - Gastroenterology (Digital Atlas of Video Education)
http://www.daveproject.org/
The DAVE Project, an acronym for the Digital Atlas of Video Education, is a collection of teaching tools. The project consists of a gastrointestinal endoscopy video atlas and medical lectures and presentations. The most recent additions to the collection are displayed below. Physicians are encouraged to submit material, for consideration, new entries to enrich and expand the atlas. This has been added to Healthcare Resources Subject Tracer™ Information Blog.

GRAIN - Agricultural Biodiversity
http://www.grain.org/
GRAIN is an international non-governmental organisation which promotes the sustainable management and use of agricultural biodiversity based on people's control over genetic resources and local knowledge. This has been added to Biological Informatics Subject Tracer™ Information Blog. This has been added to Agriculture Resources Subject Tracer™ Information Blog.

Journal of Biobased Materials and Bioenergy (JBMB)
http://www.aspbs.com/jbmbe/
http://www.ingentaconnect.com/content/asp/jbmb
The goal of the creation of a biobased economy is challenging to agriculture, forestry, academia, government and industry. The extractable resources of the Earth are finite, regardless of the quibble over when they will be depleted. The economic, political and social demands for biobased chemicals, materials and energy are expected to radically transform the materials industries, particularly the plastics industry as well as the biofuel industry. These changes will be based on the principles of sustainability, eco-efficiency, industrial ecology, and green chemistry and engineering. In keeping with the growth of knowledge in this field, there is a strong need for a forum to share original research related to biobased materials and bioenergy. The Journal of Biobased Materials and Bioenergy (JBMB) has been created as an international peer-reviewed periodical to fulfill the need for communication in these research areas. This journal will encompass related research activities in all fields of science, engineering and the life sciences. JBMB publishes original, full length papers using timely state-of-the-art reviews (with author's photo and biography) and short communications encompassing fundamental and applied research. Generally, the Journal of Biobased Materials and Bioenergy will cover all aspects of research related to bioderived/biobased materials and energy, including their applications in all fields of science, engineering and the life sciences. The depletion of petroleum reserves and its ever increasing price and the growing environmental pollution have necessitated the development of materials drived from biomass/renewable resources. Researchers and industrialists are seeking to develop new eco-friendly green/biobased products and other innovative technologies that will reduce our dependenc on dwindling petroleum resources. Biobased/green/renewable resource based materials are the wave of the future because of the growing environmental pollution. This synergy is driving the increased use of new materials and products that are compatible

with the environment and independent of fossil fuels. Such genuine requirements and needs can be fulfilled through fundamental research thereby developing the next generation of materials and fuels. Environmental and economic factors are also driving for the greater use of biobased feedstocks and chemicals. Many leading companies across the world have ambitious plans for biobased materials, biofuels and related processing technologies. Biobased materials have a wide range of uses in packaging, transportation, construction, consumer goods, electronics and many other fields. The scope of the journal will be in the areas of:

* Biobased Polymers and Blends
* Biobased Composites and Nanocomposites
* Biobased Materials Processing Technologies
* Life Cycle Analysis and Social Impacts of Biobased Materials
* Environmental Impacts of Biobased Materials
* Biofuels from Biomass and Related Processing Developments
* Life Cycle Analysis as well as Social and Environmental Impact of Biofuels, etc.

Bloomsbury Research Centre
http://www.bloomsburymagazine.com/arc/arc_home.asp
The Bloomsbury Research centre is a FREE on-line database of reference books. Over 17,000 entries are cross-referenced providing a wealth of information all linked and all fully indexed. Use our search engine to search on a wide range of subjects including literature, art, myth, human thought, quotations and a thesaurus or browse through each book at your leisure. The Research centre will continue to grow from the extensive list of reference books that Bloomsbury publish … This has ben added to Reference Resources Subject Tracer™ Information Blog.

Financial Sources
http://www.FinancialSources.info/
Financial Sources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for financial resources

ServerSniff
http://www.serversniff.net/
ServerSniff.net - Your free "Swiss Army Knife" for networking, serverchecks and routing with many many little toys and tools for administrators, webmasters, developers, powerusers und security-aware users. Benchmarks and informations about servers, routing, IP-Stacks, encryption, security, nameservers and domains. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

National Atlas of the United States
http://nationalatlas.gov/
Features include: a) Customize your own map for printing or viewing, b) Investigate the layers that you can mix and match when making your own map, c) Print pre-formatted maps on a variety of topics, c) Order larger maps suitable for the wall of your office, home, or classroom, d) Play with interactive maps, and e) Learn about topics that interest you. This has been added to Reference Resources Subject Tracer™ Information Blog.

Squeezed Books - Business Knowledge - Extracted, Compressed, Discussed
http://www.squeezedbooks.com/
There are many good ideas in business books, but often they can be distilled down to several essential concepts. Their summaries help you stay informed of the latest developments in business thinking. They're also a good way to get an idea of what a book has to say even if you still buy it. The idea behind Squeezed Books is to provide open access to business book summaries, and a collaborative environment where everyone can read summaries, writing new ones, and talk about the books in question. Indeed, most importantly, Squeezed Books is a forum for the discussion of the ideas and concepts in these books. Want to talk with other readers of a book? Share how its ideas affected your business? Ask a question about a technical detail? Thier forums exist to help you get even more value from the books we feature.This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

Finding People
http://www.FindingPeople.info/
Finding People is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for finding people.

FreePint Index
http://www.freepint.com/issues/07indexb.htm
The FreePint Index is helping 79,000 people find, use, manage and share work-related information. Find the FreePint article you need. The complete index to all articles that have appeared in the FreePint Newsletter (1997-2007) is now available. The index is a handy reference to all articles by topic. Three editions are available: text, HTML and fully-formatted PDF. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Green Fuels Forecast
http://www.greenfuelsforecast.com/
Green Fuels Forecast intends to be the source for information on the emerging alternative fuels business. Green Fuels Forecast is focusing its coverage, analysis and perspective on the critical intersection of transportation, agriculture, science and commerce. As veteran automotive and technology journalists their mission is to deliver original and in-depth

reporting on the burgeoning industry of green fuels. That includes not only covering all the latest developments in ethanol, biodiesel and synthetic fuels - but also a host of other renewables: from hydrogen to compressed natural gas to peat moss, just to name a few. At Green Fuels Forecast they will cover not only what automakers are doing to improve their engines, but also how government policy may impact the industry and ultimately how everyday consumers can find the cleanest ways to fuel their cars, trucks and SUVs. Green Fuels Forecast also provides a platform for airing the debates raging on the pros and cons of ethanol and other biofuels. In The Debate section, there is a forum for exchange of views across the spectrum of biofuels. They will include submissions with different points of view from the scientific, agricultural, energy and environmental constituencies.

Scirus Topic Pages
http://topics.scirus.com/
Scirus Topic Pages is a free, wiki-like service for the scientific community, where scientific experts summarize specific scientific topics, and where links to the latest, most relevant journal literature and web sources are presented on one page. Scirus Topic pages will develop continuously to form a topic-centered communication and collaboration platform for scientists. Features will include: a) A free service that serves authorative topic summaries, b) Produced by scientific experts, c) Facilitates knowledge sharing, and d) Provides the latest and most relevant journal and web results. This has been added to the tools section of Research Resources Subject Tracer™ Inform ation Blog. This has been added to Healthcare Resources Subject Tracer™ Information Blog. This has been added to Directory Resources Subject Tracer™ Information Blog. This will be added to Academic and Scholar Search Engines and Sources White Paper.

Games Resources
http://www.GamesResources.info/

e-Learning Tools Directory
http://www.c4lpt.co.uk/Directory/index.html
A growing Directory of over 2,000 tools ranging from "traditional" course authoring tools to E-Learning 2.0 collaboration and sharing tools as well as tools for managing your personal learning. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Index of Economic Freedom 2008
http://www.heritage.org/research/features/index/index.cfm
The 2008 Index of Economic Freedom covers 162 countries across 10 specific freedoms such as trade freedom, business freedom, investment freedom, and property rights. View scores and rankings for any country, along with detailed data and background analysis.

The 2008 Index provides an even clearer picture of economic freedom by using data-driven equations which allows countries to be graded between scores of 0 and 100. They continue the tradition of equally blending "Ten Freedoms" to produce a simple, unbiased overall score for each country. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Reference Resources Subject Tracer™ Information Blog.

International Journal of IT Standards and Standardization Research (IJITSR)
http://www.igi-global.com/journals/details.asp?id=497
The primary mission of The International Journal of IT Standards and Standardization Research is to publish research findings to advance knowledge and research in all aspects of IT standards and standardization in modern organizations. Furthermore, The International Journal of IT Standards and Standardization Research is considered an authoritative source and information outlet for the diverse community of IT standards researchers. JITSR is targeted towards researchers, scholars, policymakers, IT managers and IT standards associations and organizations. Topics include:

* Technological innovation and standardization
* Standards for information infrastructures
* Standardization and economic development
* Open source and standardization
* Intellectual property rights
* Economics of standardization
* Emerging roles of formal standards organizations and consortia
* Conformity assessment
* National, regional, international and corporate standards strategies
* Standardization and regulation
* Standardization in the public sphere
* Standardization in public policy
* Tools and services related to standardization

and all other topics related related to the areas of IT standards and standardization research.

theinfo.org - For People With Large Data Sets
http://www.theinfo.org/
This is a site for large data sets and the people who love them: the scrapers and crawlers who collect them, the academics and geeks who process them, the designers and artists who visualize them. It's a place where they can exchange tips and tricks, develop and share tools together, and begin to integrate their particular projects. This has been added to Bot Research Subject Tracer™ Information Blog. This has been added to Data Mining Resources Subject Tracer™ Information Blog.

Genealogy Resources
http://www.GenealogyResources.info/
Genealogy Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for genealogy resources.

Healthocrates - Free Medical Discussions
http://www.healthocrates.com/
This site is a community effort by Doctors, health professional and individuals interested in helping them build, improve and update their database of medical facts. This collaborative effort has produced 5,000 articles about medical issues and they are adding 1,500 new articles per month. This has been added to Healthcare Resources Subject Tracer™ Information Blog. This has been added to the source code of eHealthcareBot search engine.

Beige Book 2008 - Current Economic Conditions by Federal Reserve District
http://www.federalreserve.gov/fomc/beigebook/2008/
Commonly known as the Beige Book, this report is published eight times per year. Each Federal Reserve Bank gathers anecdotal information on current economic conditions in its District through reports from Bank and Branch directors and interviews with key business contacts, economists, market experts, and other sources. The Beige Book summarizes this information by District and sector. An overall summary of the twelve district reports is prepared by a designated Federal Reserve Bank on a rotating basis. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. This has been added to Research Resources Subject Tracer™ Information Blog.

International Journal of Electronic Government Research (IJEGR)
http://www.igi-global.com/journals/details.asp?id=4298
The International Journal of Electronic Government Research is a peer-reviewed multi-disciplinary international journal that publishes high-quality, original research about electronic government. Electronic government is broadly defined within topics such as but not limited to the hardware and software technology, e-government adoption and diffusion, e-government policy, e-government planning and management, e-government applications and e-government impacts. The journal also serves as a forum for scholars and practitioners to present theoretical and philosophical discussions on current issues relating to the practice of electronic government.

AltLaw - Free Legal Search Engine
http://www.altlaw.org/
AltLaw - Search the Full Text of Over 300,000 Legal Documents. The law is meant to belong to the people, but it can be surprisingly hard to find. Case reports, a major part of the laws of the United States, are hard to get at, and even when on the Internet, rarely searchable. To get full access you generally need either a library of law reports, or an expensive subscription to an online database, which can cost hundreds of dollars per

hour. AltLaw is a small effort to change that—to make the common law a bit more common. AltLaw provides the first free, full-text searchable database of Supreme Court and Federal Appellate case reports. It is a resource for attorneys, legal scholars, and the general public. AltLaw features include: a) Full text search of the last few decades of appellate and Supreme Court opinions, b) Advanced search options (proximity searching, Boolean, concentration, wildcards, etc.), c) Fast and free, and d) Updated daily. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This will be added to Legal Resources Internet MiniGuide.

Grant Resources
http://www.GrantResources.info/
Grant Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for grant resources.

Hubdub - The World's News Forecaster
http://www.hubdub.com/
Hubdub is all about letting you actively participate in the day's news. Hubdub wants to make following the news fast and exciting. Whether you want to skim the headlines of the day's most high impact stories or you want to get deep into the story, they want Hubdub to be for you. On Hubdub you can compete with other users in predicting how a news story will turn out. On Hubdub they use play money because here you risk something more valuable than money, you risk your reputation! Check out their leaderboard to see the top predictors in each category. Browse other users' profiles to see who holds similar (or opposing) views to yourself. Enter debates why you think you are right. This has been added to Prediction Markets Subject Tracer™ Information Blog.

Merck Veterinary Manual
http://www.merckvetmanual.com/
The Merck Veterinary Manual is the single most comprehensive electronic reference for animal care information. It is brought to you as a service of Merck & Co., Inc., providing quality medical information on a not-for-profit basis for more than 100 years, and Merial Limited, dedicated to producing a wide range of pharmaceuticals and vaccines to keep livestock and pets healthy and productive. This has been added to Reference Resources Subject Tracer™ Information Blog.

Advances in Theoretical and Applied Mathematics (ATAM)
http://www.ripublication.com/atam.htm
The Advances in Theoretical and Applied Mathematics (ATAM) is an international research journal, which publishes top-level work from all areas of theoretical and applied mathematics. Areas and sub-areas of interest include (but are not limited to) approximation theory; statistics; probability; fluid mechanics; Fuzzy mathematics; mathematical biology, algebra and applications; combinatorics; fractional analysis; solid

mechanics; variational methods; financial mathematics; graph theory; number theory and applications; topology and applications; complex analysis; differential equations; difference equations; dynamical systems; numerical analysis; integral equations; Fourier analysis; mathematical physics; optimization; wavelets; signal theory; optimal control; fixed-point theory and applications; discrete mathematics; automata theory and more.... The journal publishes research articles and reviews within the whole field of Mathematical Sciences, and it will continue to provide information on the latest trends and developments in this ever-expanding subject.

BioMedExperts - Your Scientific Match Point
http://www.biomedexperts.com/
The combination of scientific knowledge and experience is the key success factor for biomedical research projects. Bringing the right researchers together and allowing them to grow their professional network is the ultimate goal of biomedexperts (BME) -the first literature-based social networking platform for the life-science research community. BioMedExperts is a new online community that connects biomedical researchers to each other through the display and analysis of the networks of co-authors with whom each investigator works to publish scientific papers. The comprehensive system of pre-populated expert profiles, coupled with the ability to analyze all associated professional connections within the co-author network, allows scientists and researchers across organizations the ability to share data and collaborate in ways never before considered. This has been added to Biological Informatics Subject Tracer™ Information Blog. This has been added to Internet Experts Subject Tracer™ Information Blog.

Grid Resources
http://www.GridResources.info/
Grid Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for grid resources.

Updated> Online Research Tools White Paper Link Compilation
http://www.OnlineResearchTools.info/
The white paper link compilation *Online Research Tools* by Marcus P. Zillman, M.S., A.M.H.A. has been updated! It is a comprehensive listing of online research tools that offer various downloadable as well as web applications to allow you to do your research and searching on the Internet far more effective and productive. It is now a freely available 71 page .pdf document (1.61MB) that can be downloaded from the above URL. Other white papers and resources on information retrieval, information extraction and deep web research by Marcus P. Zillman, M.S., A.M.H.A. are available by clicking here. The Online Research Tools White Paper Link Compilation was updated **02-01-08**.

The Wellcome Trust Centre for the History of Medicine at UCL
http://www.ucl.ac.uk/histmed/
The Centre is one of the world's premier institutes devoted to scholarly research into the history of medicine. It is commited to promoting a vision of medical history which is comprehensive in chronological, geographical and thematic range, and which draws upon a wide field of scholarly expertise. The fields covered range from the ancient Greek and Islamic medicine through Renaissance and early modern medicine, down to medical science in the twentieth century and beyond. Research into these areas of medical history is anchored in the activities of the core members of the staff in the Centre; but staff also direct the work of a large number of pre-doctoral and post-doctoral scholars who research into many different aspects of medical history. Centre research is directed towards three major wide-ranging areas: Early Medicine; Asian Medicine; and Recent and Modern Medicine. This has been added to Reference Resources Subject Tracer™ Information Blog.

Acronyms Used by Asian / Pacific Studies' Scholars: A Dictionary
http://coombs.anu.edu.au/ACR/Acronyms.html
This document lists acronyms, names and web addresses of over 1,560 leading research associations, university departments, institutes, networks, NGOs, organisations, periodicals, programs, information resources, and research projects of relevance to Asian & Pacific Studies. This has been added to Reference Resources Subject Tracer™ Information Blog.

Management & Organizational History
http://moh.sagepub.com
Management & Organizational History (M&OH) is a quarterly, peer-reviewed journal which aims to publish high quality, original, academic research concerning historical approaches to the study of management, organizations and organizing. The journal addresses issues from all areas of management, organization studies, and related fields. The unifying theme of M&OH is its historical orientation. The journal is both empirical and theoretical. It seeks to advance innovative historical methods. It facilitates interdisciplinary dialogue, especially between business and management history and organization theory. The ethos of M&OH is reflective, ethical, imaginative, critical, inter-disciplinary, and international, as well as historical in orientation.

Judicial Watch - Promoting Integrity, Transparency and Accountability in Government, Politics and the Law
http://www.judicialwatch.org/
Judicial Watch, Inc., a conservative, non-partisan educational foundation, promotes transparency, accountability and integrity in government, politics and the law. Through its educational endeavors, Judicial Watch advocates high standards of ethics and morality in our nation's public life and seeks to ensure that political and judicial officials do not abuse the powers entrusted to them by the American people. Judicial Watch fulfills its educational mission through litigation, investigations and public outreach. This

Healthcare Resources
http://www.healthcareresources.info/
Healthcare Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™ . It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for healthcare.

Coding Analysis Toolkit (CAT)
http://www.qdap.pitt.edu/cat.htm
The Coding Analysis Toolkit (or "CAT") was developed in the summer of 2007. The system consists of a web-based suite of tools custom built from the ground-up to facilitate efficient and effective analysis of text datasets that have been coded using the commercial-off-the-shelf package ATLAS.ti (http://www.atlasti.com). CAT also includes an internal coding module. They have recently posted a narrated slide show about CAT and a tutorial online. The Coding Analysis Toolkit was designed to use keystrokes and automation to clarify and speed-up the validation or consensus adjudication process. Special attention was paid during the design process to the need to eliminate the role of the computer mouse, thereby streamlining the physical and mental tasks in the coding analysis process. They anticipate that CAT will open new avenues for researchers interested in measuring and accurately reporting coder validity and reliability, as well as for those practicing consensus-based adjudication. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Script Resources Subject Tracer™ Information Blog.

Scholars' Bank University of Oregon
https://scholarsbank.uoregon.edu/dspace/
Scholars' Bank, an open-access digital repository created to capture, distribute and preserve the intellectual output of the University of Oregon. Scholars' Bank is maintained by the University of Oregon Libraries, under the coordination of Metadata Services and Digital Projects. Over 4500 items now available in Scholars' Bank. This will be added to Academic and Scholar Search Engines and Sources White Paper.

International Journal of E-Business Research (IJEBR)
http://www.igi-global.com/journals/details.asp?id=4294
The primary objective of the International Journal of E-Business Research (IJEBR) is to provide an international forum for researchers and practitioners to advance the knowledge and practice of all facets of electronic business. Emerging e-business theories, architectures, and technologies are emphasized to stimulate and disseminate cutting-edge information into research and business communities in a timely fashion. The secondary objective of this journal is to develop a comprehensive framework of e-business by taking a multidisciplinary approach to understanding e-business and its implications on businesses and economies. This journal will serve as an integrated e-business knowledge

base for those who are interested in contributing to the advancement of e-business theory and practice through a variety of research methods including theoretical, experimental, case, and survey research methods.

OpenProj - Open Source Project Management Solution
http://openproj.org/openproj
OpenProj is a free, open source project management solution. OpenProj is a complete replacement of Microsoft Project and other commercial project solutions. The OpenProj solution has been download more than 200,000 times in the few weeks since launch and is being used in over 125 countries. OpenProj is ideal for desktop project management and is available on Linux, Unix, Mac or Windows. It even opens existing Microsoft or Primavera files. OpenProj shares the industry's most advanced scheduling engine with Project-ON-Demand and provides Gantt Charts, Network Diagrams (PERT Charts), WBS and RBS charts, Earned Value costing and more. There is literally no time or effort involved in switching to OpenProj, and your teams can manage projects on any platform for free. Projity worked closely with leaders in the commercial and open source industries in preparation for the release of OpenProj. It is a welcome addition, not only for project management users, but also for users in all software segments. OpenProj fills an important gap in the desktop market, as a key component in the Office family of products now has a replacement available on Linux, Unix, Mac or Windows. OpenProj has been translated into French, Spanish, German, Portuguese, Swedish, Russian and Chinese. The OpenProj solution is the most advanced project solution ever provided to the open source community. Projity has open sourced the entire OpenProj solution including the most advanced scheduling, resource and cost algorithms in the industry. Projity provides the source code and OpenProj solution free of charge. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Information Futures Markets
http://www.InformationFuturesMarkets.com/
The Spot for All Information and Idea Futures on the Net. This site contains articles and resources dedicated to the Information Futures Markets which are listed in alphabetical order both for articles and resources.

iberry.com - The Academic Portal
http://iberry.widged.com/cms/
iberry.com is a non-profit making, private website. Serving the international academic community since 1999, they provide information and resources for educators, self-learners, researchers and others with an interest in Higher Education (HE). iberry.com gratefully acknowledges the support of widged.com - Bite-size Applications for Education. Education and discovery are best advanced when knowledge is shared openly and freely. Open Courseware (OCW) is now available on many websites and forms a vast educational resource with much potential for development and the widespread exchange of ideas about its use in teaching and learning. They are attempting to provide a comprehensive and up-to-date directory to OCW. Their educational material and

facilities will always be free to anyone who is interested but they are now encouraging visitors to register their involvement as part of a self-sustaining academic community of educators and learners that is independent of existing universities and colleges and free of commercial interests. This has been added to [Education and Distance Learning Resources](#) Internet MiniGuide. This has been added to [Reference Resources](#) Subject Tracer™ Information Blog.

ReadBurner - Google Reader Aggregator
http://www.readburner.com/
ReadBurner aggragates items that are shared on the Google Reader. This works by constantly updating RSS feeds of currently several hundred linkblogs. In order to filter out the best stuff ReadBurner counts, whenever an item is shared by multiple persons. Since Google Reader users can generally be described as very tech-aware, they think that over time lots of good stuff can come out of ReadBurner. This has been added to [Bots Blogs and News Aggregators](#) Presentation Resources.

Mathematical Notes
http://www.springerlink.com/content/1573-8876/
The journal Mathematical Notes, is the largest monthly mathematical journal of the Russian Academy of Sciences (RAS). It features the English translations of the mathematical papers simultaneously published with their Russian versions. The journal contains research papers and survey articles in modern algebra, geometry and number theory, functional analysis, logic, set and measure theory, topology, probability and stochastics, differential and noncommutative geometry, operator and group theory, asymptotic and approximation methods, mathematical finance, linear and nonlinear equations, ergodic and spectral theory, operator algebras, and other related theoretical fields. It also presents rigorous results in mathematical physics.

NOZA - World's Largest Searchable Database of Charitable Donations
https://www.nozasearch.com/
Raising money for nonprofit organizations is hard work. The founders of NOZA were professional nonprofit fundraisers prior to launching this company, so they know this firsthand. The number one reason that people donate to charity is because they were asked. One of the most difficult aspects of fundraising is figuring out who to ask. This is where NOZA can help: they help charities identify who to ask. The way they do this is rather simple. They have built a searchable database containing more than 26 million charitable donation records (growing by 1,000,000 records monthly). Charities access their database through their website and search for prospective donors for their organizations. This has been added to [Grant Resources](#) Subject Tracer™ Information Blog.

Information Quality Resources
http://www.InformationQualityResources.info/
Information Quality Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for information quality.

MAPLight.org - Money and Politics Connections
http://www.maplight.org/
MAPLight.org, a groundbreaking public database, illuminates the connection between campaign donations and legislative votes in unprecedented ways. Elected officials collect large sums of money to run their campaigns, and they often pay back campaign contributors with special access and favorable laws. This common practice is contrary to the public interest, yet legal. MAPLight.org makes money/vote connections transparent, to help citizens hold their legislators accountable. The Database MAPLight.org combines three data sets: a) Bill texts and legislative voting records, b) Supporting and opposing interests for each bill, and c) Campaign contribution data from the Center for Responsive Politics and the National Institute on Money in State Politics. Combining this data makes visible key information that could never before be determined easily. For example: 1) Contributions given by interests supporting and opposing each bill, 2) Average donations given to legislators voting "Yes" and "No" on each bill, and 3) Timeline of contributions and votes for each bill, graphically identifying when legislators received large donations before or after their vote. MAPLight.org, a 501(c)(3) nonprofit organization, is nonpartisan. Contributions to MAPLight.org are tax-deductible as provided by law. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog.

Finding Information on the Internet - A Tutorial
http://www.lib.berkeley.edu/TeachingLib/Guides/Internet/FindInfo.html
This tutorial presents the substance of the Internet Workshops (current schedule) offered year-round by the Teaching Library at the University of California at Berkeley. The content on this site has been updated to reflect the latest trends in search engines, directories, and evaluating web pages. They call the course "Research Quality Web Searching" to reflect their belief that there is a lot of great material on the Web - primary sources, specialized directories and databases, statistical information, educational sites on many levels, policy, opinion of all kinds, and so much more - and there are better tools for finding this great stuff. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Searching the Internet White Paper.

International Journal of Agricultural Resources, Governance and Ecology (IJARGE)
http://www.inderscience.com/ijarge
International Journal of Agricultural Resources, Governance and Ecology (IJARGE) proposes and fosters discussion on the evolution and governance of agricultural resources, with emphasis on the implications that policy choices have on both the welfare

of humans and the ecology of the planet. This perspective acknowledges the complexity of the agricultural sector as an interface between ecological and socio-economic processes operating in parallel over different space-time scales, as well as the reflexive characteristic of human systems. The objectives of IJARGE are to establish an effective channel of communication between policy makers, government agencies, academic and research institutions and persons concerned with the complex role of agriculture in society. It also aims to promote and coordinate developments in the field of agricultural resources. The international dimension is emphasised in order to overcome cultural and national barriers and to meet the needs of accelerating technological and ecological change and changes in the global economy. IJARGE publishes original and review papers, technical reports, case studies, conference reports, management reports, book reviews, and notes, commentaries, and news. Contribution may be by submission or invitation, and suggestions for special issues and publications are welcome. This has been added to Agriculture Resources Subject Tracer™ Information Blog.

1000 Genomes Project
http://www.1000genomes.org/
An international research consortium has been formed to create the most detailed and medically useful picture to date of human genetic variation. The 1000 Genomes Project will involve sequencing the genomes of at least a thousand people from around the world. The project will receive major support from the Wellcome Trust Sanger Institute in Hinxton, England, the Beijing Genomics Institute Shenzhen in China and the National Human Genome Research Institute (NHGRI), part of the National Institutes of Health (NIH). Drawing on the expertise of multidisciplinary research teams, the 1000 Genomes Project will develop a new map of the human genome that will provide a view of biomedically relevant DNA variations at a resolution unmatched by current resources. As with other major human genome reference projects, data from the 1000 Genomes Project will be made swiftly available to the worldwide scientific community through freely accessible public databases. This has been added to Biological Informatics Subject Tracer™ Information Blog.

Dokeos - Open Source eLearning and Learning Management Systems
http://www.dokeos.com/
Dokeos is a learning management system used in more than 600 companies and public administrations to manage e-learning and blended learning programmes. Dokeos is also a network of consulting companies helping these organisations run Dokeos, analyse, design develop and organize blended learning programmes. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

rsizr - Intelligent Image Resizing
http://rsizr.com/
rsizr is a free Flash application that lets you resize JPG, PNG, and GIF images on your computer. With rsizr, in addition to normal image rescaling and cropping, you can also resize images using a new image resizing algorithm called seam carving (a method of image retargeting) that tries to keep intact areas in your image that are richer in detail. Seam carving is a brilliant image resizing technique pioneered by Shai Avidan and Ariel Shamir. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

India Together
http://www.indiatogether.org/
India Together (IT) is an electronic publication devoted to coverage of public affairs, policy, and development in India, providing news in proportion to the country's broad development experiences. India Together provides in-depth information & news on the issues that matter covering 15 major topics and over 15 states. India Together also helps leaders, experts, practitioners, scholars and artists take their ideas, insights and concerns expeditiously to an interested national and global audience.

Global E-Government Survey 2008
http://www.unpan.org/egovkb/global_reports/08report.htm
The UN E-Government Survey 2008: From E-Government to Connected Governance assesses the e-government readiness of the 192 Member States of the UN according to a quantitative composite index of e-readiness based on website assessment, telecommunication infrastructure, and human resource endowment. ICTs can help reinvent government in such a way that existing institutional arrangements can be restructured and new innovative arrangements can flourish, paving the way for a transformed government. The focus of the report this year, in Part II, is e-government initiatives directed at improving operational efficiency through the integration of back-office functions. Whilst such initiatives, if successful, will deliver benefits to citizens, the primary purpose is to improve the effectiveness of government and governmental agencies. Models of back-office integration, irrespective of the delivery mode, fall into three broad categories: single function integration, cross functional integration, and back-office to front-office integration. The level of complexity, expressed in terms of the number of functions within the scope and number of organizations involved, is the primary factor influencing a successful outcome - with a tendency amongst the more ambitious projects to fail to deliver the full anticipated benefits. The key variables involved in the delivery of back-office integration are the people, processes and technology required. Whilst the technology is increasingly resilient and 'fit for purpose', the evidence indicates that success or failure is less a technological issue and more a people issue - in particular, the ability to change public service cultures and motivate public sector workers to new ways of working, address trade union concerns, and provide adequately skilled and competent management and leadership. Chronicling America: Historic American Newspapers (BETA)
http://www.loc.gov/chroniclingamerica/
Chronicling America is a prototype Website providing access to information about historic newspapers and select digitized newspaper pages, and is produced by the National Digital Newspaper Program (NDNP). NDNP, a partnership between the National Endowment for the Humanities (NEH) and the Library of Congress (LC), is a long-term effort to develop an Internet-based, searchable database of U.S. newspapers with descriptive information and select digitization of historic pages. Supported by NEH, this rich digital resource will be developed and permanently maintained at the Library of Congress. An NEH award program will fund the contribution of content from, eventually, all U.S. states and territories. This site allows you to search and read newspaper pages from 1900-1910 and find information about American newspapers published between 1690-present. This has been added to [Reference Resources](#) Subject Tracer™ Information Blog.

Wakerupper - Free Wake Up Calls and Telephone Reminders
http://www.WakerUpper.com/
Wakerupper is an experimental service that aims to make telephone alerting as easy and inexpensive as possible. In one easy step, on one simple web page, Wakerupper enables users in the United States and Canada to schedule telephone reminder calls. No more need to pay a wakeup call service up to 6 dollars to arrange a one-time wakeup call. Just enter the number of the phone you would like to be called on, the time you want to receive the call, your email address, and an optional 140-character reminder message and you will receive a call from Wakerupper at the time you have specified--completely free of charge. Use Wakerupper to: a) Set a wake-up call at a specific time, b) Remind yourself of important events, c) Remember to take medication on time, d) Escape from a boring date or meeting, e) Remind child or spouse to do chores, and f) Tell someone that you love them. And it's free. Wakerupper doesn't charge you a thing for basic telephone alert calls. Regular phone charges may apply, based on your telephone service provider. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

EAWP (Economic Analysis Working Papers)
http://www.economistascoruna.org/eawp/
Thier goal is to encourage the scientific divulgation in the area of Economics and Business. EAWP welcomes submitted working papers for consideration for publication, previewed by the group of selected dictaminators by the editorial board. Working papers should deal with the economics analysis in any of its many aspects. Working papers about: Latin American Economics, Spanish Economics, General Economics, Methodology and History of Economics Thought, Mathematical and Quantitative Methods, Microeconomics, Macroeconomics and Monetary Economics, International Economics, Financial Economics, Public Economics, Health Economics, Education Economics, Welfare Economics, Labor Economics, Demographic Economics, Law and Economics, Industrial Organization, Economic History, Economic Development, Technological Change, Growth, Economic Systems, Agricultural and Natural Resource Economics. Working papers may be written in either English or Spanish or both languages.

Qipit - Copy and Share Documents with Camera Phone or Digital Camera
http://www.qipit.com/
Qipit turns camera phones and digital cameras into mobile copy centers so people can turn photographs or written and printed materials into scan-quality digital documents they can share and store on the go. Copy documents, whiteboards and handwritten notes with your camera phone or digital camera to store, fax, email or publish. Features include: a) Turn documents, notes and whiteboards into digital copies (PDFs), b) Email or fax qipit digital copies via email, your online Qipit account, or right from your phone, c) Store all of your paper documents and notes as digital documents for easy archiving and sharing, d) Tag your qipit documents for easy searching and sorting, and e) Publish and share your documents on the web. http://zillman.blogspot.com/2004/12/academic-and-scholar-search-engines.html
I have updated my Internet MiniGuide Annotated Link Compilation White Paper titled "Academic and Scholar Search Engines and Sources" which is a 43 page research paper listing selected resources both new and existing that will help anyone who is attempting to find academic and scholarly information and knowledge available on the Internet. Each source is described along with the URL address than can be accessed. It is freely available as a .pdf file (1.20MB) at the above link from the Virtual Private Library™ and authored by Marcus P. Zillman, M.S., A.M.H.A. [Update Posted 2-07-08]

Digital Artists Handbook
http://www.digitalartistshandbook.org/
The Digital Artists Handbook is an up to date, reliable and accessible source of information that introduces you to different tools, resources and ways of working related to digital art. The goal of the Handbook is to be a signpost, a source of practical information and content that bridges the gap between new users and the platforms and resources that are available, but not always very accessible. The Handbook will be slowly filled with articles written by invited artists and specialists, talking about their tools and ways of working. Some articles are introductions to tools, others are descriptions of methodologies, concepts and technologies. When discussing software, the focus of this Handbook is on Free/Libre Open Source Software. The Handbook aims to give artists information about the available tools but also about the practicalities related to Free Software and Open Content, such as collaborative development and licenses. All this to facilitate exchange between artists, to take away some of the fears when it comes to open content licenses, sharing code, and to give a perspective on various ways of working and collaborating. This has been added to Reference Resources Subject Tracer™ Information Blog.

Patient Privacy Rights Toolkit
http://www.patientprivacyrights.org/site/PageServer?pagename=Toolkit
A patient privacy rights toolkit that includes sections on: a) forms, b) information, and c) take action. These include both to prevent and respond. The toolkit is being constantly updated by the folks at PatientPrivacyRight.org. This has been added to Privacy Resources Subject Tracer™ Information Blog.

Electronic Government, an International Journal (EG)
http://www.inderscience.com/eg
Electronic Government (EG), a fully refereed journal, publishes articles that present current practice and research in the area of e-government. EG is dedicated to design, development, management, implementation, technology, and application issues in e-government. EG aims to help professionals working in the field, academic educators and policy makers to contribute, to disseminate knowledge, and to learn from each others' work through cutting-edge thinking in e-government. The international dimension is emphasised in order to overcome cultural and national barriers and to meet the needs of

accelerating technological change and changes in the global economy. EG is an outstanding outlet where e-government research can take a shape of its own and results can be shared across institutions, governments, researchers and students, as well as industry. Content includes:

* Up-to-date, leading edge research to keep readers ahead and maintain a competitive edge best practice in e-government;
* Practical guidance on ways to achieve great effectiveness and efficiency in e-government development and implementation;
* In-depth analysis and interpretation to advance our understanding and provide a framework for further study of e-government;
* International coverage that allows us to share information, knowledge and insight on a worldwide scale.

Best of History Web Sites
http://www.besthistorysites.net/
Best of History Web Sites is an award-winning portal that contains annotated links to over 1000 history web sites as well as links to hundreds of quality K-12 history lesson plans, history teacher guides, history activities, history games, history quizzes, and more. BOHWS has been recommended by The Chronicle of Higher Education, The National Council for the Social Studies, The British Library Net, The New York Public Library, the BBC, Princeton University, -- and many others. FLOSS Manuals - Free How To Use Free Software Manuals
http://flossmanuals.net/
FLOSS Manuals provides quality free manuals about how to use free software. Free software gives users the freedom to copy and redistribute the software. This can save schools, hospitals, emergency services, governments, businesses and individuals money. There is not a social service in a single country that could not benefit financially by using free software. In rich countries this means bottom line savings and improved services, in very poor countries this can also mean closing the digital divide and economic empowerment. Free software is a technical and social revolution that can change the world. However with 60% of all websites running on free software, why do only 1.7% of all computer users have free software on their desktops? The answer is simple and the Free Software Foundation has said it already the biggest deficiency in free operating systems is not in the software—it is the lack of good free manuals". The missing step towards social and economic empowerment for many worldwide is not free software. It

already exists. The missing step is the information about how to use free software. FLOSS Manuals exists to provide this information to anyone, for free. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Reference Resources Subject Tracer™ Information Blog.

Collabtive - Multi-Language Project Management
http://collabtive.o-dyn.de/index.php?lang=en
Collabtive is web-based groupware to get your projects done! Features include: 1) Easy to use, 2) Projects, Milestones, Tasks lists, Tasks, 3) User management, 4) Message system, 5) Integrated instant messenger, and 6) Multi-language. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Afro-Asian Journal of Finance and Accounting
http://www.inderscience.com/aajfa
Scholarly research into finance and accounting issues affecting Africa, the Middle-East and Asia is currently wanting. A contributing factor is the lack of suitable journals dedicated to publishing high quality research on finance and accounting issues specifically affecting these regions. The journal bridges this gap in the finance and accounting literature and will help to generate greater research into these disciplines in Africa, the Middle-East and Asia. A major feature of the journal will be to emphasise the implications of this development and the effects on businesses, academics and professionals.

Global Voices Online
http://www.globalvoicesonline.org/
Global Voices is a non-profit global citizens' media project founded at Harvard Law School's Berkman Center for Internet and Society, a research think-tank focused on the Internet's impact on society. Global Voices aggregates, curates, and amplifies the global conversation online – shining light on places and people other media often ignore. They work to develop tools, institutions and relationships that will help all voices, everywhere, to be heard. Issuu - Online Publishing Service and Creative Community
http://www.issuu.com/
Issuu is an online publishing service and a creative community dedicated to publishing. With Issuu (pronounced 'issue') anyone can convert their PDF documents into interactive online publications. It only takes a minute and it's free. With Issuu you can: a) Upload any PDF file and have it instantly converted to an online publication, b) Embed your documents on any site, profile or blog with our standalone viewer, c) Connect with your friends to see what they publish and bookmark on Issuu, d) Customize your personal Library to show exactly what you're interested in, and e) Find the web's coolest publications in one place. Founded in February 2006, Issuu is a dedicated team who strive for excellence in online publishing. Our product and services are based on providing instant gratification for people, businesses, and advertisers. In essence, they aim to reduce some of the pain and frustration associated with publishing on the Internet. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Open Source Business Organizations of Europe (OBOOE)
http://www.obooe.eu/
OBOOE is a european initiative to bring companies and organizations related or using Free and Open Source Products closer together. Its goal is to create a network between national organizations to provide more knowledge and business interchange in the european IT sector. Most of the Free Software products an solutions in europe are created by small and medium enterprises. But the paneuropean communication on the market is mostly led by large international companies. They intend to give the european Open Source Software companies, Users from private economy and Public Sector a common voice. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

International Journal of Biological and Medical Sciences (IJBMS)
http://www.waset.org/ijbms/
International Journal of Biological and Medical Sciences (IJBMS) is a scholarly open access, peer-reviewed, interdisciplinary, quarterly and fully refereed journal focusing on theories, methods and applications in Biological and Medical Sciences. All submitted articles should report original, previously unpublished research results, experimental or theoretical, and will be peer-reviewed. Articles submitted to the journal should meet these criteria and must not be under consideration for publication elsewhere. Manuscripts should follow the style of the journal and are subject to both review and editing. IJBMS covers all areas of Biological and Medical Sciences, publishing refereed research articles, survey articles, and technical notes. IJBMS reviews papers within approximately one month of submission and publishes accepted articles on the internet immediately upon receiving the final versions.

Palbee - Knowledge Sharing Via Video Conferencing
http://www.palbee.com/index.aspx
Palbee is a Knowledge Sharing service platform on Video Conferencing format (Videos + Whiteboard). Although you can share knowledge only on video or on text formats. Palbee takes advantage of "Video Conferencing Format" that supports both Non-verbal (gesture, facial expressions & tone of voice) and Verbal (real-time conversation, texts & images) communication. They believe this new communication medium promotes better knowledge sharing in the Internet. Here in Palbee, you can: a) FREE Video Conference (One hour/Five People) for unlimited sessions. Its Flash based interface enables true cross platform interoperability(PC, Mac & Linux)and even without downloading and Installation; b) Palbee supports FREE Recording of sessions; and c) you can share the recordings on any other Web 2.0 services such as blogs and wikis. You can embed or use widgets for sharing your recordings on Palbee Player. You can use Palbee for your company, school, clubs, friends & families, marketing, sales meetings and any other purposes. Also, you would want to use Palbee for your presentation, lectures, webinars, product promotions or self-promotions. Even without a participants, you can come alone and record the materials, then share any where in the Internet. Public Knowledge Project (PKP)
http://pkp.sfu.ca/
The Public Knowledge Project is a research and development initiative directed toward improving the scholarly and public quality of academic research through the development of innovative online publishing and knowledge-sharing environments. Begun in 1998, PKP has developed Open Journal Systems and Open Conference Systems, free software for the management, publishing, and indexing of journals and conferences, as well as Open Archives Harvester and Lemon8-XML to facilitate the indexing of research and scholarship. This open source software is being used around the world to increase access to knowledge and improve its scholarly management, while considerably reducing publishing costs. See Software & Services for demos, downloads, and information about these systems. Located at the University of British Columbia, Simon Fraser University, and Stanford University, PKP also sustains an active research program on the impact of increased access to knowledge, with the resulting publications,dating back to 1998, available from this site. Canadian Association of Research Libraries (CARL) Institutional Repositories Pilot Project Harvester
http://carl-abrc-oai.lib.sfu.ca/
The Canadian Association of Research Libraries (CARL) Institutional Repositories Pilot Project Harvester currently has 45367 records from 17 archives indexed, and is updated daily. This Harvester is the search service for the CARL Institutional Repositories Pilot Project and aggregates material from each of the participating Canadian institutions, allowing users to seamlessly search all of the repositories at once, using one common point of access. The purpose of the Pilot Project is to increase the accessibility of Canadian scholarly material. Currently, Canadian research output is published and distributed in extremely diverse platforms and formats. As well, the majority of Canadian research output is published outside of Canada, with its institutional and national origins concealed. The CARL Institutional Repository Pilot Project aims to increase the visibility of Canadian researchers and universities through the implementation of repositories at a number of Canadian institutions. An institutional repository (IR) is a digital collection of a university's intellectual output. It centralizes, preserves, and makes accessible the knowledge generated by an academic institution. Institutional repositories also form part of a larger global system of repositories, which are indexed in a standardized way and freely accessible to anyone with an Internet connection, providing the foundation for a new model of scholarly publishing. While the project is in its initial stages, the ultimate vision is to create a number of content-rich repositories, which are interoperable and form the basis of a larger archive of Canadian research output. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This will be added to Academic and Scholar Search Engines and Sources White Paper.

International Journal of Business Intelligence and Data Mining (IJBIDM)
http://www.inderscience.com/ijbidm
The International Journal of Business Intelligence and Data Mining (IJBIDM) publishes and disseminates knowledge on an international basis in the areas of business intelligence, intelligent data analysis, and data mining. It provides a forum for state-of-the-art developments and research, as well as current innovative activities in business intelligence, data analysis and mining. In contrast to other journals, IJBIDM focuses on the application of data analysis and mining techniques in business applications. Intelligent data analysis provides powerful and effective tools for problem solving in a variety of business modelling tasks. IJBIDM is devoted to intelligent techniques used for business modelling, including all areas of data visualisation, data pre-processing (fusion, editing, transformation, filtering, sampling), data engineering, data mining techniques, tools and applications, neurocomputing, evolutionary computing, fuzzy techniques, expert systems, knowledge filtering, and post-processing. IJBIDM is devoted to the publications of high quality papers on theoretical developments and practical applications in business intelligence, data analysis and data mining. Original research papers, state-of-the-art reviews, and technical notes are invited for publications. Special issues are devoted to current issues in business intelligence and techniques. IJBIDM also publishes best papers from international conferences in the areas relevant to the journal. Papers

published in IJBIDM are geared heavily towards applications (use of intelligence data analysis and mining techniques in business applications), with an anticipated split of 70% of the papers published being applications-oriented, research and the remaining 30% containing more theoretical research. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. This has been added to Data Mining Resources Subject Tracer™ Information Blog.

BlurtIt - The Definitive Question and Answer Website
http://www.blurtit.com/
Blurtit has come a long way since it's relatively simple Blog Promotion days. It now has a super Questions and Answers (Q&A) system as well. On Blurtit you can submit Questions that you always wanted an answer for. They have a team of writers and researchers made up of professionals and accredited persons ready to answer your questions. You can also help other Blurters (what we call people that use Blurtit) find answers to their questions too. When you answer questions you receive points which allow you to move up in the Blurtit world. Blurters increase their levels to gain more functions and responsibilities. They will also be including competitions in the future! This has been added to Internet Experts Subject Tracer™ Information Blog.

Environmental Capital - Daily Analysis of the Business of the Environment by The Wall Street Journal
http://blogs.wsj.com/environmentalcapital/
Environmental Capital provides daily news and analysis of the business of the environment. It tracks how growing green concern, particularly over climate change, is roiling established industries and spurring new ones – and how that shift is affecting investors, consumers and the planet. The Wall Street Journal's Keith Johnson, who spent the past decade reporting from Europe, increasingly on energy issues, is the lead writer. The Wall Street Journal's Jeffrey Ball, who has covered the auto and oil industries and now covers the business of the environment, is the blog's editor and a contributor. Environmental Capital also includes contributions from others at the Journal, WSJ.com, and Dow Jones Newswires. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog.

NVDA - Free and Open Source Screen Reader for Microsoft Windows Operating System
http://www.nvda-project.org/index.cgi
NVDA is a free and open source screen reader for the Microsoft Windows Operating System. This software can enable blind or vision impaired people to access computers running Windows, for no more cost than a sighted person. NVDA allows the user to find out what is happening on the screen, by querying the Operating system and using a speech synthesizer to output the information. Providing feedback by synthetic speech, NVDA allows blind and vision impaired people to access and interact with all parts of the Windows operating system, such as: a) Browsing the web (with Internet Explorer or Mozilla Firefox, b) Reading and writing documents with programs such as Wordpad or Microsoft Word, c) Sending and receiving email with Outlook Express, d) Using command-line programs in Dos windows, e) Producing basic spreadsheets in Microsoft Excel, and f) General computer management through My Computer / Windows Explorer, Control Panel applets, and other generic Windows tasks. This has been added to Accessibility Resources Subject Tracer™ Information Blog.

Journal of Thermal Science
http://www.springerlink.com/content/1003-2169/
Journal of Thermal Science publishes high-quality articles on the latest advancements in experimental, numerical and theoretical investigations which give better insight into the major areas of thermal and fluid sciences. It publishes contributions in the fields of fluid mechanics, aerothermodynamics of internal flow, heat and mass transfer, multiphase flow, turbulence modeling, combustion, engineering thermodynamics, thermophysical properties of matter, measurement and visualization techniques. Journal of Thermal Science also includes technical papers concerning the application of fundamental knowledge to industrial processes and equipment, such as energy conversion and conservation, turbomachinery, heat transfer equipment, furnaces and boilers. Journal of Thermal Science also incorporates review articles, technical notes, short communications and discussions on previously published papers. The review article will provide the readers with comprehensive reviews of topics of critical importance. Technical notes are intended to provide an opportunity to rapidly disseminate research results that are of timely interest to the thermal and fluid sciences community.

Manuscriptorium - Building Virtual Research Environment for the Sphere of Historical Resources
http://www.manuscriptorium.com/Site/ENG/default_eng.asp
Manuscriptorium is a system for collecting and making accessible on the internet information on historical book resources, linked to a virtual library of digitised documents. The Manuscriptorium service is financed by the National Library of the Czech Republic and managed by AiP Beroun s.r.o. digital library of manuscripts, old printed books and other scarce documents is in existence. Like any other library, it contains a catalogue – in this case the OCHBR (Open Catalogue of Historical Book Resources) and its own digital documents deposited in a data storage system. The

OCHBR brings together information about physical documents (manuscripts etc.) in the form of catalogue records in XML format. The Repository contains digital copies of a subset of these catalogued documents, known as complex digital documents (CDD) As a matter of principle, the Manuscriptorium system stores the metadata centrally in the OCHBR and provides access to digitised documents held in the operator's data storage facilities and in the remote storage facilities of its partners. JThe basis has been laid, facilitating the collection of existing data and the provision of access to it. A further objective is the development of a virtual resaerch environment for the sphere of historical resources. Facilities for the digital presentation of these resources (images and text) and for rendering them accessible are being expanded. A virtual digital library of copies of images and full texts is being established. Links to further data of relevance to these resources are being provided (analyses, further descriptive metadata, further electronic documents/objects) and the provision of information to other systems is also being secured by means of standardised procedures (communication interfaces) (Z39.50, OAI-MPH). This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

An excellent genealogy resource by Stephen B. Morse. Very comprehensive with excellent sources and sites. This has been added to Genealogy Resources Subject Tracer™ Information Blog.

International Journal of Business Innovation and Research (IJBIR)
http://www.inderscience.com/ijbir
International Journal of Business Innovation and Research (IJBIR) is a fully refereed journal, covering the new developments in theory and applications of business and entrepreneurship innovation strategies, methods and tools to enhance organisational competitiveness. Business innovation significantly contributes to the improvement in enterprise productivity and quality. Innovation and research are integral components of business strategy and success. Designing and developing suitable strategies, techniques, tools and models for business innovation and research have become an essential function of researchers and practitioners in a global economy; new strategies, techniques and tools

for innovation and research in business will be the main focus of IJBIR. Companies constantly look for innovative processes and methods to gain a competitive advantage. Unfortunately, the assets and ideas in organisations are not fully utilised to improve the value of the organisation. Organising a process to take advantage of information technology and systems for business innovation should be part of every organisation. One of the largest unrealised opportunities in organisations today is fully leveraging ideas and knowledge to transform business processes into continuing innovation. IJBIR will act as a platform to encourage further research in business innovation and research. The main objective of IJBIR is to promote research and application of new strategies, techniques and tools of business innovation and in turn the organisational competitiveness in new economy and society. IJBIR aims to help professionals working in the field of business innovation and research, academic educators, industry consultants, and practitioners to contribute, to disseminate and to learn from each other's work. The global dimension is emphasised in developing appropriate strategies, tactics, operational policies and tools for business innovation and research. IJBIR aims to act as a forum for exchanging new ideas and sharing practical experiences in managing and improving business innovation and research activities. IJBIR publishes original papers, review papers, conceptual framework, analytical and simulation models, case studies, empirical research, technical notes, and book reviews. Special Issues devoted to important topics in business innovation and research will occasionally be published. Business innovation and research strategies, tactics and tools of both theoretical and practical nature are welcome. Articles that deal with innovation and research issues in accounting and finance, marketing, management information systems, organisational management, operations, supply chain, logistics, government, entrepreneurship, business infrastructure development, ethical and environmental laws and standards, health services, international business, manufacturing, education, energy, mining, sports, and transportation are encouraged.

HealthMap - Global Disease Alert Mapping System
http://www.healthmap.org/en
HealthMap brings together disparate data sources to achieve a unified and comprehensive view of the current global state of infectious diseases and their effect on human and animal health. This freely available Web site integrates outbreak data of varying reliability, ranging from news sources (such as Google News) to curated personal accounts (such as ProMED) to validated official alerts (such as World Health Organization). Through an automated text processing system, the data is aggregated by disease and displayed by location for user-friendly access to the original alert. HealthMap provides a jumping-off point for real-time information on emerging infectious diseases and has particular interest for public health officials and international travelers. This has been added to Internet Alerts Subject Tracer™ Information Blog. This has been added to Healthcare Resources Subject Tracer™ Information Blog.

Privacy Resources
http://www.PrivacyResources.info/
Privacy Resources is a Subject Tracer™ Information Blog developed and created by the Virtual Private Library™. It is designed to bring together the latest resources and sources on an ongoing basis from the Internet for privacy resources.

Farmer's Market Online
http://www.farmersmarketonline.com
Started in 1995, it is the oldest and largest marketplace of its kind anywhere in the world. A 24/7 source for handmade, custom crafted, home grown and farm raised goods available direct from the producer. This has been added to Agriculture Resources Subject Trace™ Information Blog.

Academic Tutorials - Programming Languages
http://www.AcademicTutorials.com/
You will find over 100 programming language tutorials, lessons, and how-to's. You can surf through their collection of free online tutorials or read postings in one of their forums. This has been added to Tutorial Resources Subject Tracer™ Information Blog.

Asia Policy
http://asiapolicy.nbr.org/current.html
The National Bureau of Asian Research (NBR) is a nonprofit, nonpartisan research institution dedicated to informing and strengthening policy in the Asia-Pacific. Asia Policy is a peer-reviewed journal devoted to bridging the gap between academic research and policymaking on issues related to the Asia-Pacific. Asia Policy publishes, in descending order of emphasis, three types of peer-reviewed essays: (1) social scientific research articles that both use social science theories, concepts, and approaches and draw clear and concise policy implications on issues of import to the region; (2) research notes that present, in a well-organized format, new and important descriptive information of use to policymakers, especially on topics that have traditionally been underrepresented in the literature; and (3) policy analyses that present original, persuasive, analytically rigorous, and clear and concise research-based argumentation on crucial policy matters.

LoudLit.org - Literature for Your Eyes and Ears
http://www.loudlit.org/
LoudLit.org is committed to delivering public domain literature paired with high quality audio performances. They pair together great literature and accompanying audio. Putting the text and audio together, readers can learn spelling, punctuation and paragraph structure by listening and reading masterpieces of the written word. Read and listen via your web browser or on your mp3 player. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Accessibility Resources Subject Tracer™ Information Blog.

March 2008 Zillman Column - Grid Resources On the Internet
http://columns.VirtualPrivateLibrary.net/Grid_Resources_Mar08_Column.pdf
http://www.zillmancolumns.com
http://www.GridResources.info/
The March 2008 Zillman Column is now available and is titled **Grid Resources On the
Internet**. This March 2008 column is a comprehensive list of grid and distributed
computing resources and sites on the Internet including associated and related online sites
and sources. If you are looking to participate in one of the fastest growing areas of the
Internet this is the resource to investigate! Download this excellent 19 page free .pdf
(616KB)column today and start your cyber journey into grid and distributed computing
resources available over the Internet.

European Science & Technology Transfer Professionals (ASTP)
http://www.astp.net/
The initiative of a multinational group of professionals to meet and share experiences on
a regular basis resulted in the establishment of the non-profit Association of European
Science & Technology Transfer Professionals. ASTP is practitioners and members
focused and is growing rapidly; we have proudly welcomed more than 500 members,
covering 35 countries. In order to facilitate the exchange of ideas and expertises, and to
strengthen the network of our members, ASTP organises meetings with a high standard
of presentations and discussions throughout the year. These meetings vary locations
within Europe and consist of the Annual Conference in the spring, the Fall Seminar and
the Training Courses in January. Additional one-day Workshops on specific subjects, as
well as Site Visits are organised throughout the year, whereas the Executive Forum
always takes place the afternoon preceding the Annual Conference. The mission of ASTP
is to professionalize and promote technology and knowledge transfer between the
European science base and industry. This has been added to Research Resources Subject
Tracer™ Information Blog.

Delver - Socially Connected Next Generation Search Engine
http://www.delver.com/
Delver is a socially connected search company; a next-generation web search engine -
what they call a Connected Search Engine - that improves the relevancy of web search
results by prioritizing these results based upon the searcher's social network. Delver
uncovers the wealth of knowledge from users' online connections in a useful and
enjoyable way. They founded Delver because they recognized a strong need for people to
find information created or referenced by their friends and friends-of-friends. Delver
supports a spirit of open interchange where the wisdom of a person's social network can

contribute to that individual's search success. Existing search engines do not account for who a person is and what that person's network finds valuable. Delver makes search more significant to the user by organizing friends' tags and information found on social networking profiles, blogs, bookmarks, photo and video sharing sites rather than basing results upon the popularity of a given page or Web site. This has been added to Social Informatics Subject Tracer™ Information Blog. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

International Journal of Enterprise Information Systems (IJEIS)
http://www.igi-global.com/journals/details.asp?id=4292
The primary objective of the International Journal of Enterprise Information Systems (IJEIS) is to provide comprehensive coverage and understanding of various Enterprise Information Systems (EIS) such as Enterprise Resource Planning (ERP) and Electronic Commerce (EC) and their implications on supply chain management and organizational competitiveness. Design, development and implementation issues of EIS including ERP and EC will be discussed. These include organizational, people and technological issues of EIS. The secondary objective of this journal is to expand the knowledge on ERP and EC and in turn help researchers and practitioners to develop suitable strategies, tactics, and operational policies for EIS and for improving communication in organizations. The journal publishes original contribution in the areas of design and implementation of EIS. IJEIS intends to be a forum for exchanging new ideas and developments in the field of EIS. It also acts as a medium of communication among EIS researchers and practitioners.

SciVee - Pioneering New Modes of Scientific Dissemination
http://www.scivee.tv/
SciVee is about the free and widespread dissemination and comprehension of science. Created for scientists, by scientists, SciVee moves science beyond the printed word and lecture theater taking advantage of the internet as a communication medium where scientists young and old have a place and a voice. SciVee is operated in partnership with the Public Library of Science (PLoS), the National Science Foundation (NSF) and the San Diego Supercomputer Center (SDSC). Please see our Partners page to learn more about them. SciVee allows scientists to communicate their work as a multimedia presentation incorporated with the content of their published article. Other scientists can freely view uploaded presentations and engage in virtual discussions with the author and other viewers. SciVee also facilitates the creation of communities around specific articles and keywords. Use this medium to meet peers and future collaborators that share your particular research interests. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog

SuperCook Recipe Search Engine
http://www.supercook.com/
Supercook is a new recipe search engine that finds recipes you can make with the ingredients you have at home. To begin, simply start adding ingredients you have. The more ingredients you add, the better the results will be. This has been added to Reference Resources Subject Tracer™ Information Blog.

Bookmach - Track Your Favorite Subject Using Sticky Zine and Blog Search
http://www.bookmach.com/
This site lets you quickly build and save a page with some keywords on it that will scour the web looking for the latest posts with those keywords. Each saved page is called a "bookmach", and you will see it updated with postings that contain your search terms as it flows through blogs, zines and web discussion sites. Each page has an easy to remember address, so you can just check from anywhere in the world to see the latest stories that come up for the subjects you want to follow, using the web, email alerts, or RSS. Only well-regarded, content-rich sites are spidered, so you will find only top quality links with little or no ads. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added top Bot Research Subject Tracer™ Information Blog.

Foundations and Trends® in Marketing
http://www.nowpublishers.com/product.aspx?product=MKT
The growth in all aspects of research in the last decade has led to a multitude of new publications and an exponential increase in published research. Finding a way through the excellent existing literature and keeping up to date has become a major time-consuming problem. Electronic publishing has given researchers instant access to more articles than ever before. But which articles are the essentials one that should be read to understand and keep abreast with developments of any topic? To address this problem Foundations and Trends® in Marketing will publish high-quality survey and tutorial monographs of the field using modern techniques to enable both instant linking to the primary research in its electronic form and affordable paper copies, finally delivering on the promise to authors of multiple channel publishing from a single source. Each issue of Foundations and Trends® in Marketing will comprise a 50-100 page monograph written by research leaders in the field. Monographs that give tutorial coverage of subjects, research retrospectives as well as survey papers that offer state-of-the-art reviews fall within the scope of the journal. Foundations and Trends® in Marketing will publish survey and tutorial articles in the following topics:

* B2B Marketing
* Bayesian Models
* Behavioral Decision Making
* Branding and Brand Equity
* Channel Management
* Choice Modeling
* Comparative Market Structure
* Competitive Marketing Strategy
* Conjoint Analysis
* Customer Equity
* Customer Relationship Management
* Game Theoretic Models
* Group Choice and Negotiation
* Discrete Choice Models
* Individual Decision Making
* Marketing Decisions Models
* Market Forecasting
* Marketing Information Systems
* Market Response Models
* Market Segmentation
* Market Share Analysis
* Multi-channel Marketing
* New Product Diffusion
* Pricing Models
* Product Development
* Product Innovation
* Sales Forecasting
* Sales Force Management
* Sales Promotion
* Services Marketing
* Stochastic Model

doubleTwist - Share Media With Friends and Sync With Popular Devices
http://www.doubletwist.com/
Their mission is to help consumers liberate their media by simplifying the flow of pictures, video and audio between friends, family and their favorite devices. Their first product, doubleTwist desktop, is a free application that empowers consumers to easily transfer, share and sync personal media regardless of device, file format or social network. doubleTwist corporation is a venture funded start-up that was incubated in Oslo, Norway. The company was founded by Monique Farantos and Jon Lech Johansen (aka DVD Jon) and is headquartered in San Francisco. This is one to watch! Awareness Watch™ Paper Review

Creative Commons and Contemporary Copyright: A Fitting Shoe or "a Load of Old Cobblers"? by Maureen O'Sullivan
http://www.uic.edu/htbin/cgiwrap/bin/ojs/index.php/fm/article/view/2087/1919

Abstract:
This article examines copyright's historic trajectory from a common law to a statutory privilege, turning almost full circle in recent years, in the current age of high technology. It simultaneously probes theories of intellectual property rights which are grounded in somewhat skewed ideas related to tangible property, and contextual parallels and contrasts are drawn between physical and ephemeral resources throughout. The founding and fomenting of various civil society organisations in response to the expansions in the term and scope of copyright law, such as Creative Commons, is then charted. This leads on to complex questions about what constitutes the public domain, and whether and how it should be facilitated. The aims of grassroots movements such as Creative Commons to persuade and assist authors, through voluntary means, to relax their legislative rights and its impact on copyright law and practice, are also critically evaluated.

Subject Tracer™ Information Blogs

Subject Tracer™ Information Blogs created and developed by the Virtual Private Library™ combine the best of the latest tools on the Internet. Using bots, blogs and news aggregators the Subject Tracer™ Information blogs generate RSS feeds with the latest resources to create a current information resource flow through niched subject tracers. I am proud to be the creator of the Internet's first Subject Tracer™ Information Blogs:
