

# Awareness Watch™ Newsletter

By Marcus P. Zillman, M.S., A.M.H.A.

<http://www.AwarenessWatch.com/>

V7N11

November 2009

Welcome to the V7N11 November 2009 issue of the **Awareness Watch™ Newsletter**. This newsletter is available as a complimentary subscription and will be issued monthly. Each newsletter will feature the following:

**Awareness Watch™ Featured Report**  
**Awareness Watch™ Spotters**  
**Awareness Watch™ Book/Paper/Article Review**  
**Subject Tracer™ Information Blogs**

I am always open to feedback from readers so please feel free to email with all suggestions, reviews and new resources that you feel would be appropriate for inclusion in an upcoming issue of Awareness Watch™. This is an ongoing work of creativity and you will be observing constant changes, constant updates knowing that “change” is the only thing that will remain constant!!

## **Awareness Watch™ Featured Report**

This month’s featured report will be highlighting **Research Resources** with the Subject Tracers located at the Virtual Private Library and accessible online at the following URL:

<http://www.ResearchResources.info/>

These research resources will allow you the ability to create your own private virtual library for research resources and sites. These resources will keep you on the correct and positive path for the knowledge discovery required to fulfill your academic and business research mission and goals.

## **Awareness Watch™ Spotters**

### **Scholarly Credentials Toolkit**

<http://library.temple.edu/services/faculty/toolkit/>

Scholarly credentials are evaluated in different ways, depending on how accomplishments are presented in specific fields. If you are new to this, you might start by looking at their pages on Getting Started, a Flowchart, and a Checklist. Below are links to information tools for documenting the significance of scholarly accomplishments and some suggestions for: a) How best to use tools for traditional methods (such as citation counts, journal rankings and impact.); and b) Documenting the social and/or creative impact of accomplishments in fields where publication is less uniform. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Student Research Resources](#) Subject Tracer™ Information Blog.

### **Global Terrorism Database (GTD)**

<http://www.start.umd.edu/gtd/>

The Global Terrorism Database (GTD) is an open-source database including information on terrorist events around the world from 1970 through 2007 (with annual updates planned for the future). Unlike many other event databases, the GTD includes systematic data on domestic as well as international terrorist incidents that have occurred during this time period and now includes more than 80,000 cases. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

### **Journal of Mechanical Engineering**

<http://www.banglajol.info/index.php/JME>

The Journal of Mechanical Engineering published by the Mechanical Engineering Division of the Institution of Engineers, Bangladesh is intended to become a quality international journal in the field of Mechanical Engineering by publishing papers of high quality through critical reviews. It is published twice each year in June and December and accepts technical articles of permanent interest to the Mechanical Engineering community from home and abroad. The journal features a mix of experimental, numerical, and theoretical articles dealing with all aspects of the field, including, but not limited to: Fluid mechanics, Heat transfer, Solid mechanics, Refrigeration and air conditioning, Renewable energy technology, Materials engineering, Composite materials, Marine engineering, Petroleum and mineral resources engineering, Textile engineering, Leather technology, Industrial engineering, Operational research, Manufacturing processes, Machine design, Quality control, Mechanical maintenance, Tribology, etc. In addition to being of interest to engineers and other scientists doing research in the field, the information published in the journal is also of great importance to engineers who design or use mechanical components and/or who are involved with manufacturing processes.

### **opensourceCMS - PHP CMS Demos**

<http://php.opensourcecms.com/>

opensourceCMS.com was created to give you the opportunity to "try out" some of the best free and open source software systems in the world. Each system listed here provides for a user demo so you can make an informed decision regarding which system best suits your needs without having to go through the tedious process of installing multiple systems only to find they don't do what you require. In the past, opensourceCMS.com has been limited to only php/mysql projects. Shortly they will also provide for ASP, .NET, Ruby, Python, Perl, and other programming languages. They hope opensourceCMS.com is useful to you in your quest for the best CMS for your needs. This has been added to [Script Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ information Blog.

### **Greenwala - The Green Social Network**

<http://www.greenwala.com/>

Greenwala is a For Profit Philanthropic company focused on harnessing the power of a community to create opportunity for people to "Go Green" and improve their lives. They believe that every individual has the power to foster change and it is through that belief that they feel that the Greenwala community will be the destination for those wishing not to just Green their lives but to improve the lives of those around them. Greenwala founder and Chief Wala, Rajeev Kapur founded Greenwala in early 2008. It was founded because he wanted to find a way to inspire people to make a difference. He believes that the new economy will be one that is centered around Social Responsibility. That the saying "Every person has the power to make a difference" can be finally achieved through social media and the leveraging of communities like Greenwala. At Greenwala they believe that a focus on minimizing the impact of Climate Change is but one pillar in the going green story. They also believe that living a healthier lifestyle, reducing our foreign oil dependency and the focus on social responsibility are additional pillars that contribute to the Green message. Their community mantra is one of open and free flowing dialogue - Green...Your Way. Greenwala is a place where the principles of community, open positive discussions, content sharing and fun co-exist. That by building a bridge for companies and non-profits to partner together will lead to a better and more sustainable future. This has been added to [Green Files](#) Subject Tracer™ Information Blog.

### **Milkyway@Home - Help Discover the Structures in the Milky Way Galaxy**

<http://milkyway.cs.rpi.edu/milkyway/>

The goal of Milkyway@Home is to use the BOINC platform to harness volunteered computing resources in creating a highly accurate three dimensional model of the Milky Way galaxy using data gathered by the Sloan Digital Sky Survey. This project enables research in both astroinformatics and computer science. In computer science, the project is investigating different optimization methods which are resilient to the fault-prone, heterogeneous and asynchronous nature of Internet computing; such as evolutionary and genetic algorithms, as well as asynchronous newton methods. While in astroinformatics,

Milkyway@Home is generating highly accurate three dimensional models of the Sagittarius stream, which provides knowledge about how the Milky Way galaxy was formed and how tidal tails are created when galaxies merge. MilkyWay@Home is a joint effort between Rensselaer Polytechnic Institute's departments of Computer Science and Physics, Applied Physics and Astronomy. This has been added to [Astronomy Resources](#) Subject Tracer™ Information Blog. This has been added to [Grid, Distributed and Cloud Computing Resources](#) Subject Tracer™ Information Blog.

### **Journal title: Signs: International Journal of Semiotics**

<http://vip.db.dk/signs/>

Signs is an international peer-reviewed electronic journal on the semiotics of mind, consciousness, language and culture as well as living and inanimate nature, and possible connections between them. The stance of the journal is interdisciplinary due to the nature of the subject and explores all processes of cognition, communication, meaning and information interchange, in which signs feature. The journal is also transdisciplinary in that it has an interest in the philosophical frameworks forming the specific semiotic outlook on cognitive, communicative and social processes. Signs invites to a broad range of contributions: the philosophical as well as scientific description of sign phenomena, the systematization of sign phenomena in theories and models, and the application of semiotic knowledge. Signs primarily publishes research articles but also response articles, comments, and critical reviews. With Signs we hope to serve well researchers in semiotics and related areas of semiotics, researchers using semiotic theory in their work and scientists interested in becoming informed about current work in semiotics and its ramifications as well as educators seeking inspiration and material.

### **MyNoteit - An Online Note Taking Tool for Students**

<http://www.mynoteit.com/>

Take, edit, store and share notes online. Edit and revise notes with peers. Look-up and define words with your Workspace Utilities. Easily search, bookmark and share notes. Share notes with your friends and groups. Manage tasks with your to-do list. Keep track of what you have to do, and what you've done. Don't forget anything with your calendar. Advanced calendar for easy assignment management. Stay in the loop with class groups. Share notes and assignments with everybody in your class. Post questions on the message board. This has been added to [Student Research Resources](#) Subject Tracer™ Information Blog.

### **Swizznet - QuickBooks Hosting, Virtual Office and Online Accounting**

<http://swizznet.com/>

Swizznet uses the latest technology and tools to provide the fastest, most reliable QuickBooks hosting and Online Accounting Solutions. Swizznet provides all of their users with a complete virtual desktop which gives businesses seamless remote worker capabilities as well as the ability to share files without the cost and hassle of having to set up and maintain a network. QuickBooks Hosting, Document Management Tools and Secure Online Data Storage solutions for: a) Accountants, b) Businesses & Non-Profits,

and c) Mac OS. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

### **eyebrowse - Track and Share Your Web Trails**

<http://eyebrowse.csail.mit.edu/>

eyebrowse is an add-on for firefox that lets you easily record, visualize, and share your trails through the web in real-time. Tell eyebrowse what sites to track, browse away and compare! Find out what's hot, who's reading what, and how your surfing changes over time. Plus, contribute your web trails to science! This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

### **Journal of Biophotonics**

<http://www3.interscience.wiley.com/journal/114172147/home>

The first international journal dedicated to publishing reviews and original articles from this exciting field, the Journal of Biophotonics covers the broad range of research on the interaction between light and biological material. As such, this new journal is strictly interdisciplinary, covering specific research in the fields of physics, chemistry, biology, medicine as well as engineering. The coverage extends from fundamental research to specific developments, while also including the latest applications. The main areas of interest in the Journal of Biophotonics are:

- \* Imaging and Microscopy
- \* Advanced Spectroscopy
- \* Biomedical Applications
- \* Manipulation and Preparation
- \* Optical Biosensors

Contributions may focus on such topics as:

- \* Advanced optical microscopy
- \* Optical tomography
- \* Photonic Nano-Manipulation
- \* Spectroscopic Methods on a cellular and molecular level
- \* Optical biosensors
- \* Theory and Simulation of Light
- \* Tissue interaction
- \* Photonic techniques and devices for high volume analysis
- \* Non Invasive physiological monitoring
- \* Therapeutic and Diagnostic Applications of Light in Medicine
- \* Microscopic and spectroscopic methods for food and drug analytics
- \* Photonics and spectroscopy in biosafety applications

## **Stock.xChng - Leading Free Stock Photography Site**

<http://www.sxc.hu/>

Whether you just want to browse their huge image gallery or want to share your own photos with others, this is the site for you! Browse through the categories of their huge gallery containing over 350,000 quality stock photos by more than 30,000 photographers! Need a wallpaper for your desktop or illustration for your blog? Need a pic for your commercial website design? Looking for inspiration? Have a look around. Share your photos with fellow designers! SXC is a friendly community of photography addicts who generously offer their works to those who need them free of charge. If you have some nice photos that you'd like to share with others, join them! Not only it feels great to share, you will also get a huge exposure for your work! Chat with other members in our forum! Looking for something? Need an opinion? Have a question? Post a topic, and someone will definitely help you out. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

## **Deep Web Research 2009**

<http://DeepWeb.us/>

I have just updated my freely available report and guide titled **Deep Web Research 2009** and is available directly as a .pdf file (52 pages, 1.17MB) from the above URL. The deep web continues to be the place for finding information that the search engines cannot locate and is an extremely important resource for finding all that information on research and topics of special interest. Click [here](#) for associated news release.

## **Indinero - Software for Managing Business Finances**

<https://indinero.com/>

Indinero creates software to help small businesses better track and manage their finances. Indinero aims to provide its users with instant insights into the finances of their companies, leading them to save on unnecessary expenses and to earn more money for their companies. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Financial Sources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

## **SoundBible - Free Sound Clips**

<http://www.SoundBible.com/>

SoundBible.com offers thousands of free sound effects, sound clips, and straight up sounds. These sounds can be used in a variety of sound projects including Video Sound Scores, Movie Scoring, Game Design, Powerpoint Presentations, Prank Calls, Sound Boards, and the list goes on. Why are these sounds free? Well for a few reasons really: a) Our project benefits teachers, students, faculty, and starving artist. They couldn't afford to buy them so we are forced to give them away for free. :); b) The Royalty Free Sounds section consist of Creative Commons and Public Domain works; c) The owners of

Awareness Watch V7N11 November 2009 Newsletter

SoundBible.com where taught to share by their parents. Isn't that what your parents taught you?; and d) Because Free is way cooler than Fee. That one letter "r" makes a world of difference. Can these sounds be used commercially? The Royalty Free Sounds can indeed be used for commercial uses. The free sounds can only if they are under the Creative Commons Attribution, or Public Domain License. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

### **Journal of Biomedical Semantics**

<http://www.jbiomedsem.com/>

Journal of Biomedical Semantics is an open access, peer-reviewed online journal soon to be launched by BioMed Central. Journal of Biomedical Semantics encompasses all aspects of semantic resources (e.g. ontologies, taxonomies, terminologies, data, knowledge and service repositories, literature, reasoning systems) and their use in data integration, mining, modeling, interpretation and exploitation in biomedical research. The journal aims to provide the community of biomedical semantics specialists and general researchers a forum for communication on knowledge representations and on the results of semantics driven analyses. Journal of Biomedical Semantics will publish high quality research focused on the biomedical domain, addressing computational methods, infrastructure and resources needed to support semantic mining and enrichment. It will serve researchers who exploit semantics resources and reasoning to facilitate data and knowledge integration into the biomedical research infrastructure. The journal will also provide a place for dissemination of results on the semantic web research in the domain of life sciences. As an interdisciplinary forum, the journal will address practical and theoretical advances in applying knowledge-based and semantics-driven approaches to biomedical research. Topical areas include (but are not limited to): a) Design, development and maintenance of semantic resources; b) Semantic infrastructure development and access to data; c) Semantic enrichment, mining and annotation of biomedical data; d) Automatic semantics-driven analysis and reasoning in biomedicine; and e) Exploitation and impact of semantics on biomedical research. This has been added to [Biological Informatics](#) Subject Tracer™ Information Blog. This has been added to the Semantics Web Research Section of [Deep Web Research](#) Subject Tracer™ Information Blog.

### **Docu-View - Free Online Documentaries**

<http://www.docu-view.com/>

Docu-View.com is dedicated to providing the best free online documentaries for your entertainment and education. If you want to learn something interesting or just pass time, you are sure to find something that suits your taste. You can browse them by category, or if you feel lucky just pick a random documentary. Currently there are 449 documentaries in their database, and they have been watched 25198 times. They are adding new documentaries all the time so it might be a good idea to check for new every now and then. They also have an RSS feed if you want to stay updated. This has been added to [Tutorial Resources](#) Subject Tracer™ Information Blog.

## **Swebapps - The Easy Way To Build Your Application**

<http://www.swebapps.com/>

Create a mobile phone application for your business in minutes. Track your application usage with their App Tracker. Update your application content in real time. Swebapps is the easy way to build your own application. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog. This has been added to [Script Resources](#) Subject Tracer™ Information Blog.

## **Tweeterview - Using Tweets to Interview**

<http://www.tweeterview.com/>

Tweeterview is designed to allow for Twitter users to conduct more in-depth 'Tweeterviews' or 'Twinterviews' without giving up the benefits of twitter. Still working on the 140 limit (well mostly) Tweeterview is designed to allow for a singular view of the Tweeterview and also to retain an easily digestible version for later on. It means people who used to use non interactive emails to conduct remote interviews can choose to do a real time interview, as well as retain the whole interview to link to & from their blog or news articles without giving up precious screen time for the whole interview. This way the interview can be summarised and analysed on your blog or site and the best bits highlighted, with a link to the Tweeterview in its entirety, to support the post. Also the Tweeterview links directly back to the post if a URL is added to the Tweeterview. This means you retain all the comments about the interview where they belong, on your post! Additionally: a) Users can view the Tweeterview in real time if they wish to view it; b) You can still receive questions and comments live to your twitter account while conducting the interview; c) Observers avoid the clutter; and d) We realised that some interviews require some 'off the record' comments so we built that feature in as well. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog. This has been added to the Public Relations section of [Advertising, Marketing and Public Relations Resources](#).

## **Neuroethics**

<http://www.springer.com/philosophy/ethics/journal/12152>

Neuroethics is a forum for interdisciplinary studies in neuroethics and related issues in the sciences of the mind. The focus is on ethical issues posed by new technologies developed via neuroscience, such as psycho-pharmaceuticals and other ways of intervening in the mind; the practice of neuroscience itself, including problems posed by incidental findings in imaging work on research subjects; regulation of neuroscientific technologies, and ways in which the sciences of the mind illuminate traditional moral and philosophical problems, such as the nature of free will and moral responsibility, self-deception, weakness of the will and the nature of personhood. This important publication covers the dual areas of neuroethics: the ethics of neuroscience and the neuroscience of ethics. It offers comprehensive bibliographies, reviews of significant literature, information on activities including partial proceedings of selected meetings, and an opinions section for reader commentaries.

### **Healthbase - Search and Research Solution for Healthcare**

<http://healthbase.netbase.com/>

This is a beta showcase of NetBase's Content Intelligence platform for healthcare which allows you to find the following: a) Treatments for health conditions; b) Causes of health conditions; c) Complications of health conditions; and d) Pros & Cons of drugs, foods, chemicals and treatments. This has been added to [Healthcare Resources](#) Subject Tracer™ Information Blog. This has been added to [eHealthcareBot](#) Search Engine.

### **Google - Internet Stats**

<http://www.google.co.uk/intl/en/landing/internetstats/>

This Google resource brings together the latest industry facts and insights. These have been collected from a number of third party sources covering a range of topics from macroscopic economic and media trends to how consumer behaviour and technology are changing over time. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Statistics Resources](#) Subject Tracer™ Information Blog.

### **Springo - Web Categorization**

<http://www.springo.com/>

Springo singles out the most widely consulted websites ... those sites that provide the information that most users need. Springo organizes the Web according to categories and allows users to quickly navigate between categories, or focus or expand a search along the category tree. Springo directs users to specialized and expert sites, knowledge centers, and vertical sites that are most relevant to their search, since in many areas, no one site is likely to provide all the information that a user needs. Most Internet users can quickly and almost intuitively identify the websites that are most likely to provide the information that they need based on a quick look at their home page. The clear, user-friendly Springo visual interface enables users to assess a number of sites at a glance, without going through a time-consuming and irritating click-load-and-return process for each site. Springo ranks websites based on their actual popularity among users. Since user behavior is our only consideration, commercial factors and website optimization techniques do not impact our site rankings. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Directory Resources](#) Subject Tracer™ Information Blog.

### **Journal of Evidence-Based Medicine (JEBM)**

<http://www.wiley.com/bw/journal.asp?ref=1756-5383>

The Journal of Evidence-Based Medicine (JEBM) is the official English language journal of the Chinese Cochrane Centre. The journal aims to present the newest research results and promote the international understanding and development of evidence-based decision-making, research, practice and education. Papers in any of the following fields will be considered: editorial, commentary, systematic review, clinical trial and register, methodology, policy-making and management, drug safety, education, patient safety, and

knowledge translation. The Journal encourages submissions from interdisciplinary studies and all manuscripts are blind peer reviewed.

### **bub.blicio.us - Covering the Social Economy**

<http://bub.blicio.us/>

Web 1.0 was all about the “e-”conomy. Web 2.0 is driven by the social economy and the social capital that defines the new landscape. Rather than try to classify it as a bubble and in turn, attempt to predict when it will pop, there are other more important factors that highlight and provide a glimpse at the future of the Web. bub.blicio.us is here to help capture the excitement and insight behind everything two-point-oh and beyond, providing a lens into the social landscape that’s energizing and shaping the new economy. The social landscape extends across all types of industries from automotive, beauty and fashion to tech, travel and so many others. At bub.blicio.us we cover it all to bring you what’s bubbling up across the Social Web. This has been added to [Social Informatics](#) Subject Tracer™ Information Blog.

### **EnablingOpenScholarship (EOS)**

<http://www.openscholarship.org/>

EnablingOpenScholarship (EOS) is an organisation for universities and research institutions worldwide. The organisation is both an information service and a forum for raising and discussing issues around the mission of modern universities and research institutions, particularly with regard to the creation, dissemination and preservation of research findings. The aim of (EOS) is to further the opening up of scholarship and research that they are now seeing through the growing open access, open education, open science and open innovation movements. These, and other, 'open' approaches to scholarship are changing the way research and learning are done and there are profound implications for universities and research institutions. EOS has been established to help guide developments and to assist others in understanding the issues and their implications. This has been added to [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

### **Loore - Finding People Online Within Social Networks and Directories**

<http://www.loore.com/>

The Loore project is involved in search of people within social networks and directories. By aggregation of social network profiles Loore makes it easy to check which social network a person belongs to. This has been added to [Finding People](#) Subject Tracer™ Information Blog. This has been added to [Social Informatics](#) Subject Tracer™ Information Blog.

## **Frontiers of Chemical Engineering in China: Selected Publications from Chinese Universities**

<http://www.springer.com/chemistry/journal/11705>

Frontiers of Chemical Engineering in China, a refereed international journal, seeks to provide a platform for the publication of peer-reviewed academic papers to promote rapid communication and exchange between researchers in the field of chemical engineering in China and abroad. It aims to reflect significant advances currently being made worldwide in nearly all fields of chemical engineering. The journal publishes review articles, original research papers, and rapid communications by individual researcher and research groups. The journal covers nearly all main branches of chemical engineering, including these core areas: catalysis and reaction engineering, chemical engineering in material technology, chemical engineering in microelectronics processing, chemical engineering in nanotechnology, food, pharmaceutical and biotechnology, particle technology and multiphase processing, separation science and technology, sustainable technologies and green processing.

## **Social Media Policies Database**

<http://socialmediagovernance.com/policies.php>

An online Database of Social Media Policies whose mission is empowerment with accountability. This is a database offering 100 plus policies from various organizations and entities covering Social Media and viewable by industry. With the rapid deployment of social media in today's business and social environment this is a very valuable resource in the development of policies and procedures. This has been added to [Social Informatics](#) Subject Tracer™ Information Blog. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

## **Robo.to - Video-Enabled Calling Card**

<http://robo.to/>

Robo.to gathers the latest about you into a tiny, easy to update, video-enabled calling card. Publish once, update everywhere! Record yourself from your phone or webcam and publish everywhere. Add your favorite sites & services to your card. It always stays fresh. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

## **smart.apnoti.com - Real Time Price Bot**

<http://smart.apnoti.com/>

smart.apnoti.com is the world's first and only price search engine to operate in real-time. This innovative price search engine helps you to find the most up-to-date and lowest price for your desired product in just a few seconds – and in real-time. In the process, smart.apnoti.com searches through over 10,000 affiliated shops on the internet for every single search request, and offers you a comprehensive and up-to-the minute overview of all available product offers with the respective real-time prices. In this way, online buyers can be immediately assured that they have the very latest prices, and they can even

benefit from price fluctuations during the day – a technologically unique service that is available only from smart.apnoti.com. At smart.apnoti.com, they offer anything from A for Apple iPod to Z for Zippo lighters. Every product that is available online across the areas of TV, video, photography, HiFi and audio to computer/multimedia, household and gardening, leisure time activities, fashion and many more, can be accessed directly in real-time. smart.apnoti.com will find the prices without any time delay for anything that you can buy online. A detailed breakdown of product information and an extremely simple, flexible and quick search function for products form part of the standard solutions of our platform. This has been added to [ShoppingBots](#) Subject Tracer™ Information Blog.

### **Journal of eWorking (JOE)**

<http://www.merlien.org/oj/index.php/JOE>

The Journal of E-working (JOE) is an online, multi-disciplinary and peer-reviewed publication on E-working. It aims to enhance and accelerate communication among researchers and practitioners concerning the impacts of new working environments on individuals, businesses and society. Topics of interest to the journal include, but are not limited to the following:

- \* Enhancing distributed work through e-collaboration
- \* Managing the virtual workforce through effective communication
- \* Developing strategies for implementing e-learning in the workplace
- \* Enhancing distributed work through workplace design and architectures
- \* Supporting e-working through the developments on information technologies
- \* Exploring the impacts of e-working on social inclusion
- \* Exploring the impacts of e-working on environment, energy & transportation
- \* Assessing the labour conditions and regulations for e-workers
- \* Exploring the trends of e-working in the healthcare and medical sectors

### **Gogrok - High Performance Online Collaboration Platform**

<http://www.gogrok.com/en/index.html>

Gogrok features include: a) A revolutionary way of working together with computers via the Internet; b) The cyberspace to work with your co-workers on the same application side by side, while you are thousands of miles away; c) A platform to share applications, desktop, software, and files on your computer with your co-workers; and d) A two-way real-time communication, with voice and sharing, to help you and your co-workers understand each other better. You may share any of your applications or desktop with other participants. Every guest will be able to see your application in real-time. You can grant editing right to the guests. They can co-edit on the same application or use your desktop instead of just watching you working alone. Use Scenarios include: 1) High effective web conference and online presentation, 2) Outstanding collaborative tool for working together, 3) Easy-to-adopt program for comprehensive e-coaching, 4) Instant product introduction and demonstration from anywhere, and 5) High quality advanced customer support and employee training. This has been added to the tools section of

### **Student Aid - Helping Students Make Smart College Choices**

<http://www.studentaid.com/>

They created StudentAid.com out of a desire to help students and their families make well-informed, affordable college choices that are as appropriate for their career goals as they are for their bank account. They believe: a) in the "college dream" as much as we do in the "American dream."; b) education can transform an individual and a nation; c) every individual with the interest and capability to complete a post-secondary education should be able to do so, regardless of their or their family's financial or personal circumstances; and d) that pursuing a dream—any dream—without due regard to its financial implications is reckless and potentially harmful. This has been added to [Student Research Resources](#) Subject Tracer™ Information Blog.

### **Bigola - Meta Search Tool Searching Digg, Twitter, Technorati, FriendFeed and YouTube**

<http://www.bigola.com/>

Bigola is a multi-search engine which allows users to search Digg, Twitter, Technorati, FriendFeed and Youtube. Bigola is not associated with these sites, they just use their API's to power our engine. To use Bigola, enter your search phrase and hit enter, on the results page you can filter by site. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

### **Journal of Manufacturing Processes (JMP)**

[http://www.elsevier.com/wps/product/cws\\_home/620379](http://www.elsevier.com/wps/product/cws_home/620379)

An Official Journal of the Society of Manufacturing Engineers (SME). Manufacturing is undergoing major transformation due to the unforeseen challenges arising from the current trend of miniaturization, the emergence of new materials and the growing interaction between biologists and engineers to learn more from nature and living objects. Traditionally, a "top-down" approach has been used in manufacturing. Recently, engineers and scientists have begun exploring "bottom-up" approaches for manufacturing today's highly complex products. Further, these emerging processes are aimed to improve process efficiency and product quality. The aim of the Journal of Manufacturing Processes (JMP) is to exchange current and future directions of manufacturing processes research, development and implementation, and to publish archival scholarly literature with a view to advancing state-of-the-art manufacturing processes and encouraging innovation for developing new and efficient processes. The journal will also publish from other research communities for rapid communication of innovative new concepts. Special-topic issues on emerging technologies and invited papers will also be published. Papers relevant to the scope of JMP include, but are not limited to, the following areas:

- \* Meso/micro/nano fabrication, including imprint lithography.
- \* Advanced manufacturing processes, including mechanical, chemical and thermal

processes.

- \* Welding, joining and assembly at micro and macro scales.
- \* Rapid prototyping, rapid manufacturing and repair, stereolithography and other 3-D fabrication techniques that can use optical projection.
- \* Advanced embossing, casting, forming and molding processes at all scales.
- \* Mono/multilayer functional coating processes.
- \* Continuum and subcontinuum process modeling and simulation.
- \* Manufacturing process monitoring, control and automation.
- \* Tribology and wear issues relevant to manufacturing processes.

### **fwisp - Discover and Share Business, Economy, Finance News, Articles and Videos**

<http://fwisp.com/>

fwisp was created as an attempt to bring some organization in the whole blend of financial blogs out there. They have discovered that it is sometimes close to impossible to find organized information between all the millions of blogs. The whole idea of fwisp is to allow a democratic approach to article categorizing and presentation. That is, the content is controlled by the site's visitors rather than administrators. There are many regular blog aggregators out there that have tried to accomplish a similar task before – however, they lack the key user interaction capability which would allow visitors to control the environment of the website. Most of those blog aggregators are merely page and pages of robotically collected links with usually no apparent organization. fwisp employs an up-to-date social system which will hopefully benefit both bloggers and regular visitors. For bloggers, it provides better exposure and advanced social benefits. For others, fwisp offers an easy way of discovering relevant information which is readily tagged, categorized and searchable for you to discover. Last but not least, fwisp is constantly evolving. Many visible and invisible changes are made to bring better experience for everyone. This has been added to [Financial Sources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog.

### **Read.gov - Online Books and Resources for Literacy and Reading for Everyone**

<http://read.gov/>

Explore new worlds: Read. The Center for the Book in the Library of Congress invites people of all ages to discover the fascinating people, places and events that await you whenever you read. This has been added to [Reference Resources](#) Subject Tracer™ Information Blog.

### **Mendeley - Academic Software for Research Papers**

<http://www.mendeley.com/>

Through the Mendeley research network you can connect with other researchers in your field. This opens up a whole new avenue for knowledge discovery. You can view the most read authors, journals and papers in your field. You can explore by using tags associated with your research area. By navigating the web of knowledge available to you, you make some useful contacts along the way too. In addition to that, you can also view

interesting statistics about your own digital library. Collaborate with fellow researchers and share information, resources and experiences with shared and public collections. Your research team will have easy access to each others papers. Just create a group, invite your colleagues and drag and drop documents in there. This way you can keep on top of what they're reading and discover more about what interests you. Mendeley Desktop is academic software that indexes and organizes all of your PDF documents and research papers into your own personal digital bibliography. It gathers document details from your PDFs allowing you to effortlessly search, organize and cite. It also looks up PubMed, CrossRef, DOIs and other related document details automatically. Drag and drop functionality makes populating the library quick and easy. The bookmarklet allows you to quickly and easily import papers from resources such as Google Scholar, ACM, IEEE and many more at the click of a button. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Student Research Resources](#) Subject Tracer™ Information Blog.

### **Journal of Electronic Resources Librarianship**

<http://www.library.gatech.edu/jerl/index.php/jerl/index>

This journal aims to inform librarians and other information professionals about current research, evolving work-related processes and procedures, and the latest news on topics related to electronic resources and the digital environment's impact on collecting, acquiring and making accessible library materials. Library professionals today require an integrated approach to understanding and managing electronic resources in libraries. They need a place to find scholarly, peer-reviewed literature, opinion pieces, latest news and e-resources related updates. Since topics related to electronic resources span many areas of the profession, there is a proliferation of articles and conferences with electronic resources topics often too many and too scattered for any one individual to read or attend. This journal will highlight pivotal, interesting and thought-provoking articles and conference presentations to keep professionals and staff of all levels on top of the latest ideas and changes in the field. The journal will also have relevant book reviews to enable reader to target their professional readings. The Journal of Electronic Resources Librarianship is intended for library administrators, librarians, and other information professionals who work with managing electronic resources in libraries. It is also intended to bridge the gap between theory and practice for LIS educators and students, and is a starting point for information professionals from various backgrounds concerned with issues surrounding the changes in collections, acquisitions and services in libraries in the digital age.

## Geolenz - Let's Find That Place

<http://www.geolenz.com/>

Geolenz is a real-time location discovery application. The company is privately held and based in San Francisco Bay Area. With Geolenz you can quickly ask a question about where something is and just as quickly get an answer back from the community. The answer is in the form of marker(s) on a pictorial map, so you will know exactly where it is located. Examples of location related questions: a) Where is the tweetup in Palo Alto taking place?; b) Where are the biggest castles in the world located? Where are the finest distilleries in Scotland?; and c) Where is the house where the first rocky horror picture show was shot? Geolenz keeps track of all of your question and answer activity for you and provides real-time personal and community activity dashboards, and easy search. Twitter is used as a distribution platform to broadcast (tweet) questions and their responses to the user community. Geolenz was founded by repeat entrepreneurs with domain expertise in mapping and Geo-media platforms, and Web 2.0 technologies. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Internet Experts](#) Subject Tracer™ Information Blog.

## Goby - Create Your Own Adventure

<http://www.goby.com/>

With Goby you do one search, specifying what you want to do, where and when to find what you need about a desired trip or leisure activity, rather than hopping around from Web site to Web site and sorting through pages and links to often irrelevant info. Goby explores the depths of the Web to access the richest sources of hard-to-find information for your free time activities. The results are organized in a way that's easy to understand and use, rather than serving up page after page of Web sites that just happen to contain your key words. They are cursed with the love of travel and experiencing new things in life! Goby was created to solve the frustrations involved in planning your everyday adventures and free-time activities. Their goal is to stop the madness and eliminate the need to hop around to multiple Web sites and sort through information that's often

incomplete and/or irrelevant or hard to find. Also, they are total technology geeks and love to build stuff for the sake of building it. This has been added to tools section of [Research Resources](#) Subject Tracer™ Information Blog.

### **PubList - Database of 150,000 Domestic and International Print and Electronic Publications**

<http://www.publist.com/>

PubList.com is the only Internet-based reference for over 150,000 domestic and international print and electronic publications including magazines, journals, e-journals, newsletters, and monographs. PubList.com provides quick and easy access to detailed publication information including, titles, formats, publisher addresses, editor contacts, circulation data, and ISSN numbers. PubList.com also provides access to subscription services as well as article level information through rights and permissions providers and document delivery services. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Academic and Scholar Search Engines and Sources](#) white paper.

### **Social Web CMS (SWCMS) - Open Source Social News Application**

<http://www.socialwebcms.com/>

Social Web CMS (SWCMS) is a mature, full-featured, and open source social news application written in PHP and utilizing a MySQL backend. From the web newbie looking for a simple way to enter the playing field to advanced developers hoping to drive social news to the next level, SWCMS is your best source for full, free, and actively developed social news applications. What is Social News? Social News refers to a concept pioneered by web 2.0 companies like Digg and Reddit. In this model the front-page news is determined not by a small group of editors but rather by the viewer community. This helps ensure that the topics covered are diverse - featuring multiple viewpoints rather than a select group's editorial bias. Social News also helps ensure that the news is always the latest and freshest. Drawing on the full resources of the internet community social news can far surpass any one company's ability to review and prioritize important news items as they happen. This has been added to [Social Informatics](#) Subject Tracer™ Information Blog.

### **Business Intelligence Online Resources**

<http://www.BIOOnlineResources.info/>

I have just updated my annotated white paper titled **Business Intelligence Online Resources** and it is now a 69 page (1.71MB) freely available .pdf document available from the above URL. Also the associated white paper link compilation titled Business Intelligence Resources is available from my Subject Tracer titled Business Intelligence Resources and available by clicking [here](#). ## **National Center on Disability & Journalism (NCDJ)**

<http://ncdj.org/>

The National Center on Disability & Journalism, headquartered at the Walter Cronkite School of Journalism and Mass Communication at Arizona State University. The goal of the NCDJ, is to provide support and guidance for journalists as they cover people with disabilities. The NCDJ does not advocate a particular point of view; it is concerned with the journalistic principles of accuracy, fairness and diversity in news coverage. Reporters who cover disability issues as a beat and those who may occasionally report on people with disabilities or disability issues may find the center a useful resource for information and the exchange of ideas. Resources on this site include: a) Disability style guide with suggestions on appropriate language and short descriptions of disability-related terms; b) Tip sheets with best practices on interviewing people with disabilities and brief guides to specific disability topics; c) Disability & Journalism blog, a place for journalists and those with disabilities to meet and share their experiences and ideas; d) Disability library with news stories about people with disabilities; and e) Disability resources, including disability-related organizations, experts, advocates and people with disabilities who are willing sources for journalists. This has been added to [Accessibility Resources](#) Subject Tracer™ Information Blog. This has been added to [Journalism Resources](#) Subject Tracer™ Information Blog.

## **Wopular - News and Search Aggregagtor**

<http://www.wopular.com/>

Wopular is a news aggregation site, giving a summary view of the top headlines from the top news sites. The search box grabs results from the top news, aggregation, blogging, video, and photo sites; it searches sites like CNN, NY Times, Digg, Google News, Twitter, YouTube, Flickr, Yahoo, Bing, Wikipedia, and many more, all on one site. Now you can instantly get the latest news and buzz on any news topic. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog. This has been added to [Reference Resources](#) Subject Tracer™ Information Blog.

## **Biotechnology Healthcare**

<http://www.biotechnologyhealthcare.com/index.cfm>

Biotechnology Healthcare publishes peer-reviewed articles relating to healthcare applications of biotechnology. To provide a comprehensive array of articles with potentially significant implications for our readers, we will publish review articles and papers reporting the results of scientific research. Topics include but are not limited to new therapies and diagnostic capabilities, clinical outcomes, and the cost-effectiveness of programs and products. We also welcome bylined essays from qualified experts in the fields of biotechnology, specialty pharmacy, managed care, and health benefits whose experience can be instructive for payers, purchasers, and providers of health care services. The editors are interested in reviewing unpublished manuscripts that report on such subjects as: the processes and procedures involved with integrating biotech agents into treatment plans; clinical and/or financial outcomes of integrating biotech therapies

into benefit packages; how advances in biotechnology affect diagnostic applications; pharmacoeconomic analysis of biotech products; the relevance of Human Genome Project discoveries and functional genomics to disease; the use of public databases and computational methods in meeting challenges in medicine; and the effects of biologic therapies, diagnostics, and devices on health-benefit design and access to care. Review papers and essays discussing health policy aspects of emerging biotech therapies and diagnostic capabilities are also appropriate. The editors welcome case studies that evaluate the use of information technologies for converting molecular biological data into knowledge that can improve patient care and/or further therapeutic development. This has been added to [Biotechnology Resources](#) Subject Tracer™ Information Blog.

### **SlickPlan - Free Web Based Sitemap/Flowchart Generator**

<http://www.slickplan.com/>

SlickPlan is a web-based sitemap/flowchart generator that allows for the creation of free sitemap and flowchart design. SlickPlan was handcrafted with PHP/MySQL and jQuery by the Dayton website design team at Atomic Interactive. SlickPlan lets you create free flowcharts and sitemaps quickly and easily. Unlike other software programs, SlickPlan has only one purpose - to create beautiful, functional sitemaps and flowcharts. Slick Plan was developed with the web designer and developer in mind, but it can be used by anyone who needs a quick and professional sitemap or flowchart for their planning project. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

### **GuruStorms - The World's Experts Answer Your Questions**

<http://www.gurustorms.com/>

GuruStorms is the elite brainstorming site that uses a curated crowd of Gurus to answer complex, difficult questions that require specific knowledge and expertise. With rewards of up to \$5000, GuruStorms makes it possible to ask, interact, and carry on a digital conversation with the world's experts in specific disciplines. This has been added to [Internet Experts](#) Subject Tracer™ Information Blog.

### **Saching.com - Submit Articles Online - Write Article for Free**

<http://www.saching.com/>

This website provides you an excellent platform for writing informative articles on a wide range of topics. Every week they receive thousands of visitors who love reading articles submitted by people just like you. They enjoy publishing your articles, but they do not accept spam submissions, marketing or articles with duplicate content. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

## **OR Insight**

<http://www.orsoc.org.uk/publication/insight.htm>

Operational Research ("OR"), also known as Operations Research or Management Science ("OR/MS") looks at an organisation's operations and uses mathematical or computer models, or other analytical approaches, to find better ways of doing them. OR Insight aims to be an interesting and stimulating publication that appeals not only to OR practitioners and consultants, but also to managers and others wishing to learn more about OR in practice. The journal seeks to inform about not just the scope and potential of OR but also developments in related areas. Contributions are particularly sought from OR practitioners, consultants and others with experience of OR. The journal aims to publish the following kinds of paper:

- \* Descriptions of an OR project, successful or otherwise, discussing how it was useful and might have been improved, drawing lessons for general use. For complex projects, the discussion should focus on one particular question.
- \* Discussions of the process of OR, problem structuring, definition and formulation, modelling, implementation, consulting, and the management of OR activities. Case studies providing insights and enhanced understanding are welcome, as well as analyses of unfortunate experiences from which constructive lessons may be drawn. As a rule, mathematical expressions should be kept to a bare minimum.
- \* Reviews from a practice perspective or descriptions of recent developments in OR with practical implications.
- \* Articles reviewing the relevance of management topics to OR practitioners and consultants, for example, innovation management, information systems, simulation, organisational improvement, business process design, etc.

## **80legs - Powerful and Economical Service Platform for Crawling and Processing Web Content**

<http://www.80legs.com/>

80legs is a service platform for crawling and processing web content. Their service is very powerful and very affordable. They give you the following capabilities: 1) Exceptional performance: Crawl up to 2 billion web pages/day; 2) Easy to use and highly customizable: Design and run your own crawls in minutes; and 3) Very affordable: Only \$2 per million pages crawled and \$0.03 per CPU-hr used. Start running crawls today by visiting their web portal and registering. They put the power of over 50,000 computers to work for you. Their unique distributed architecture stitches together computers from all around the world to deliver exceptional crawling performance at an incredibly low cost. Ideal for custom semantic search, media analysis, market research and other research related areas. ### **The Swop - A Collaboration Platform for Startups**

<http://www.theswop.com/>

Especially in today's climate, many start-ups and growth businesses could do with a few favors to get off the ground. TheSwop amplifies our personal social networks into an online worldwide resource of start-ups and suppliers willing to help each other out. Look up by price, recommendations and location. Suitable for newly minted start-ups and growth businesses. Through your interaction with other start-ups you can help drive your start-up forward at minimal cost. Networking, and getting your name out there for free or very low cost if you sign up for their premium or professional account. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

### **QuietAgent - Finds You Jobs**

<http://www.QuietAgent.com/>

QuietAgent is a product of privately held technology company QuietAgent, Inc., founded by Jason Kerr and headquartered in San Diego, with offices in New York, Chicago and Auckland, New Zealand. It is the culmination of years of extensive research and development into the problems of online recruitment and the wants and needs of job seekers, employers and third party recruiters globally. QuietAgent is the pioneer of automated high-quality job-to-candidate matching; the single lifetime 'resume profile' and the anonymous two-way matching process, a key element as it removes all the 'resume gaming'; multiple candidate 'personalities' and 'advert-resumes' so common with job boards and social / professional networks. The company has relationships with a growing number of employer associations and educational institutions, and is used by governments for sophisticated matching in the areas of immigration and workforce development. The vision of QuietAgent is to establish a new benchmark for the engaging and sourcing of quality talent, moving away from 'paying, posting and praying' to a model whereby recruiters use rich toolsets to get two-way private connections with quality candidates, and only pay small fees when they have success. This has been added to [Employment Resources](#) Subject Tracer™ Information Blog.

### **Catalyst: Journal of Energy and Environmental Policy**

<http://www.rooseveltinstitution.org/publications/journals/catalyst2009>

The Roosevelt Institution is a non-profit, non-partisan national network of campus-based student think tanks. Its members conduct policy research on the pressing political issues facing our world, from environmental protection to equality under the law to trade and taxes. The Roosevelt Institution connects the fruits of that research to the policy process, delivering sound, progressive proposals to policymakers and advocacy groups at all levels of government as it organizes, trains, and empowers the next generation of progressive leaders. Catalyst seeks to drive the merger between science and policy. Between these two worlds lies an informational barrier that frequently isolates policy-making from pertinent, cutting-edge research. It is time to bridge the gap with policy

ideas that reflect authoritative technical research. With a natural disposition for action, a critical stake in shaping the future, and the ability to study and understand complex problems, students are ideal candidates to help bring science and policy closer together.

### **Lunchster - Stay In Touch With Your Real World Network**

<http://www.lunchster.com/>

Tell Lunchster whom you want to stay in touch with .... Provide your location and the email associated with your Outlook, iCal, or Google Calendar. Lunchster will arrange lunches with your friends and colleagues twice a month on the 1st and 3rd Wednesdays. Everything works right from your calendar, so it's easy to decline if you aren't available. And you can always adjust your preferred lunch days, preferred restaurants, and more from the Lunchster website. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

### **Third Party Websites That Transform Government Data**

[http://www.opencongress.org/wiki/Third\\_Party\\_Websites\\_That\\_Transform\\_Government\\_Data](http://www.opencongress.org/wiki/Third_Party_Websites_That_Transform_Government_Data)

This wiki page contains a list of websites generated by third parties that make available raw government information. The categories include: a) Legislative Information (with focus on U.S. Congress); b) Federal Law and Regulations; c) The Courts; d) Money and Influence; e) Freedom of Information Act; f) Political Party Information; g) Business Information; h) Other Useful Websites; i) Other Meta-Lists of Third Party Government Data; and j) International Websites. This has been added to [New Economy Analytics](#) Subject Tracer™ Information Blog.

### **Wolfram|Alpha Homework Day**

<http://homeworkday.wolframalpha.com/>

Meet them here on October 21, 2009, for the first Wolfram|Alpha Homework Day. This groundbreaking, live interactive web event brings together students and educators from across the country to solve your toughest assignments and explore the power of using Wolfram|Alpha for school, college, and beyond. This has been added to [Student Research Resources](#) Subject Tracer™ Information Blog.

### **Get The Pic? Sure! - Guess Phrases Using Web Resources...**

<http://www.getthepicture.com/>

The game was developed in 3 days, as a nomination for the Yahoo BOSS contest presented on Yahoo's conference held in Israel on October 31st. Here is the flow: a) Select 3 letters; b) A random phrase containing these letters is selected; c) See some pictures describing the phrase, and try guessing what it is; d) You can either try guessing letters, or gamble on more by guessing the entire phrase; e) If you see you can't get it - buy a hint. A hint is a sentence containing the phrase; and f) •If you misspell the phrase - you will be forgiven and get your points. Here is how the game works: 1) Phrases repository: Phrases are taken from an open-source words list; 2) Picture fetching:Using

Yahoo BOSS image search engine; 3) Hints:Hints use the Yahoo BOSS news search; and 4) Spelling:Using Yahoo BOSS spelling correction. This has been added to [Games Resources](#) Subject Tracer™ Information Blog.

### **file2.ws - Convert Any File Into A Public Website**

<http://file2.ws/>

File2.ws is a free website that converts any of your own files into a public online web page. Every converted file to a web page has a unique web address so you can share it with friends, or other people on the internet. This allows information to be shared quickly and efficiently to a large audience. Features and strengths include: 1) Fastest download speeds, 2) No download limits, 3) No CAPTCHA codes, 4) Multiple simultaneous downloads and uploads, 5) Unlimited page bandwidth, 6) No sign up required, 7) No software to install, and 8) Link directly to the generated web page. Supports the conversion of: a) image/photo files (jpeg, gif, png, svg...); b) audio formats (mp3, ogg...); c) documents (doc, pdf, odt, txt, rtf, ppt...); d) programming source code (java, php, cpp...); e) web documents (html, htm, swf...); f) archive (zip, rar, tar...); g) video, fonts, chemical file formats and more; and h) all into a widely accessible web page! This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

### **November 2009 Zillman Column - Online Games Resources 2010**

[http://columns.virtualprivatelibrary.net/Online\\_Games\\_Nov09\\_Column.pdf](http://columns.virtualprivatelibrary.net/Online_Games_Nov09_Column.pdf)

<http://www.zillmancolumns.com/>

<http://www.GamesResources.info/>

The November 2009 Zillman Column is now available and is titled **Online Games Resources 2010**. This November 2009 column is a comprehensive list of resources and sites that give you the latest and most important information concerning online games that are available over the Internet including related and associated resources and sites. These resources will keep you current to the latest happenings and events as well as the latest applications as they become available to better utilize all the vast online games sites and resources that are currently accessible from the Internet. Download this excellent freely available 21 page .pdf (732KB) column today!

### **EDUCAUSE - Promoting the Intelligent Use of Information Technology**

<http://www.educause.edu/>

EDUCAUSE is a nonprofit association whose mission is to advance higher education by promoting the intelligent use of information technology. EDUCAUSE helps those who lead, manage, and use information resources to shape strategic decisions at every level. A comprehensive range of resources and activities is available to all interested employees at EDUCAUSE member organizations, with special opportunities open to designated member representatives. EDUCAUSE programs include professional development activities, applied research, strategic policy advocacy, teaching and learning initiatives, online information services, print and electronic publications, special interest

collaborative communities, and awards for leadership and innovation. EDUCAUSE has offices in Boulder, Colorado, and Washington, D.C. This has been added to [Research Resources](#) Subject Tracer™ Information Blog.

### **SnapABug Visual Customer Support by TimZon**

<http://www.snapabug.com/>

TimZon is the easiest way to share visual feedback. By combining audio, video, whiteboard and screen capture it enables companies to establish high quality engagement with their customers while lowering support costs. Email and text communication in general is very ineffective at communicating complex visual ideas. This situation can quickly turn into a disaster when trying to support a remote customer. Because it costs more to acquire a new customer than keep an existing one, TimZon enables companies to establish a high quality engagement with their customers, without the cost of real time support. TimZon enables companies to save money by reducing the support cycle and ultimately improving first time resolution metrics. TimZon is also helping companies to optimize support resources utilization. By using recorded messages, companies don't have to staff for expensive real time support, but can still provide a high quality white glove service to their customers. While using TimZon, companies are also building a library of rich visual messages that they can re-use to address the most common issues; saving time, and money. TimZon is the easiest way to share visual feedback. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [eCommerce Resources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

### **AIS Transactions on Human-Computer Interaction (THCI)**

<http://aisel.aisnet.org/thci/>

AIS Transactions on Human-Computer Interaction (THCI) is a high-quality peer-reviewed international scholarly journal on Human-Computer Interaction. As an AIS journal, THCI is oriented to the Information Systems community, emphasizing applications in business, managerial, organizational, and cultural contexts. However, it is open to all related communities that share intellectual interests in HCI phenomena and issues. The editorial objective is to enhance and communicate knowledge about the interplay among humans, information, technologies, and tasks in order to guide the development and use of human-centered Information and Communication Technologies (ICT) and services for individuals, groups, organizations, and communities. Topics of interest to THCI include but are not limited to the following:

- \* The behavioral, cognitive, motivational and affective aspects of human and technology interaction
- \* User task analysis and modeling; fit between representations and task types
- \* Digital documents/genres; human information seeking and web navigation behaviors; human information interaction; information visualization
- \* Social media; social computing; virtual communities

Awareness Watch V7N11 November 2009 Newsletter

- \* Behavioral information security and information assurance; privacy and trust in human technology interaction
- \* User interface design and evaluation for various applications in business, managerial, organizational, educational, social, cultural, non-work, and other domains
- \* Integrated and/or innovative approaches, guidelines, and standards or metrics for human centered analysis, design, construction, evaluation, and use of interactive devices and information systems
- \* Information systems usability engineering; universal usability
- \* The impact of interfaces/information technology on people's attitude, behavior, performance, perception, and productivity
- \* Implications and consequences of technological change on individuals, groups, society, and socio-technical units
- \* Software learning and training issues such as perceptual, cognitive, and motivational aspects of learning
- \* Gender and information technology
- \* The elderly, the young, and special needs populations for new applications, modalities, and multimedia interaction
- \* Issues in HCI education

The language for the journal is English.

### **LotusLive iNotes**

<https://www.lotuslive.com/en/services/inotes>

LotusLive iNotes e-mail is a business-class messaging solution for everyone in organizations. Remote employees, retail workers and anyone who doesn't work behind a desk will appreciate the easy access to company e-mail. With web-based e-mail, all employees will have real-time e-mail access from a Web browser and Internet connection. In addition to a web-based interface, all e-mail accounts are enabled with POP, authenticated SMTP and IMAP capabilities for use with e-mail clients such as Lotus Notes or Microsoft Outlook®. LotusLive iNotes gives the best of both worlds. It simplifies e-mail administration but still offers robust, flexible services. You'll have access to all the essential messaging features - previously only found in desktop software - via the Web browser. You don't need any special training - and there are no hardware, software or data center costs to worry about, either. In just minutes you can issue e-mail accounts to your users, and easily manage member's accounts. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

### **Tech Crunchies - Internet Statistics and Numbers**

<http://www.TechCrunchies.com/>

Tech Crunchies is a blog on the latest internet related statistics and surveys. Statistics covered here are all taken from some of the most credible names in the internet media like TechCrunch, GigaOm, Marketing Pilgrim, eMarketer, Comscore to name a few. This

### **YourVersion - Real Time Discovery Engine of Relevant Content for Your Personal Interests**

<http://www.yourversion.com/>

YourVersion is a revolutionary real-time discovery engine that lets you easily discover, share, and bookmark new, relevant web content tailored to your interests. Features include: a) Discover news, blogs, webpages, Tweets, videos, and products; b) Easily share pages via email, Twitter and Facebook; and c) Bookmark and auto-organize pages by interest. YourVersion continuously discovers new and personally relevant web content based on your interests, and lets you easily bookmark and share your discoveries with friends. The web is growing bigger every day. The rate at which new websites and content are being added is accelerating and overwhelming web users with a sea of information. At the same time, people are increasingly busy and have less time to find new and relevant content on the web. We designed YourVersion to solve this problem by giving people an efficient way to continuously discover new and relevant web content based specifically on their interests. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Knowledge Discovery](#) Subject Tracer™

### **Archives of Computational Materials Science and Surface Engineering**

<http://www.archicmsse.org/>

The journal publishes articles on computer-aided methods of modelling, simulation and prediction for designing new engineering materials and the technological processes of the manufacturing, processing and forming of their structure and properties in the whole volume and their surface and also the description of phenomena and phase transformations appearing in those materials and also the description of the research results in the field of the materials science and engineering and surface engineering, as well as solutions of real-life problems, in which it is necessary to apply computational materials science and computational surface engineering methodologies for achieving effective results and for solving tasks in materials and surface engineering, industrial management and administration, and technical education in any particular fields from macroscopic to nanoscopic scales (e.g. nanoscience and nanotechnology). Topics include:

Engineering materials:

\* Metallic alloys; Tool materials; Superplastic materials; Ceramics and glasses; Carbon-based materials; Composites; Amorphous materials; Nanostructured materials; Nanocomposite materials and structures; Materials in micromanufacturing and nanomanufacturing; Electronic materials; Multifunctional and smart materials; Bioengineering and biomimetic materials; Materials for artificial organs and tissues; Engineering polymers; Novel applications of materials.

Manufacturing and processing of engineering materials:

\* Casting; Powder metallurgy; Sintering; Plastic deformation; Heat treatment; Thermo-mechanical treatment; Thermo-chemical treatment; Thin and thick coatings and other methods of surface treatment; Welding; Advanced manufacturing technology; Machining; Laser treatment; Electron beam treatment; Processes for nanomaterials synthesis; Nanomanufacturing and nanotechnology; Micromanufacturing; Electronic packaging technology; Tissue engineering; Quality assessment; Biological and environmental aspects and cleaner production; Industrial management and organisation in the field of materials engineering and surface engineering; Societal and educational implications.

Engineering materials properties:

\* Ductility and crack-resistance; Fatigue-resistance; Creep-resistance; Fracture mechanics; Mechanical, electrical and magnetic properties; Corrosion-, erosion- and wear-resistance; Non-destructive testing; Reliability assessment; Toxicity; Working properties of materials and products; Methods of research of structure and chemical composition of engineering materials; Electron microscopy; X-ray phase analysis; Materialography and quantitative materialography; Image analysis; Spectroscopic methods; Surface characterisation and metrology.

Methods of analysis and modelling:

\* Statistical methods; Artificial intelligence methods; Expert systems; Genetic algorithms; Neural networks; Numerical techniques; Process system design; Mould flow analysis; Engineering design; Technological design; Materials design; Modelling of behaviour of materials; Materials and engineering databases; Computer aided materials selection; Computer aided materials design; Computer aided manufacturing; Computer-integrated material processing; Computer-aided learning and teaching.

### **MailMyWeb.com - Browse the Internet in a Revolutionary Way**

<http://www.MailMyWeb.com/>

If you can't access the internet through your restricted corporate network, MailMyWeb.com is the solution! There is no need to install software on your workstation, you are only using legal ways to browse the internet in a revolutionary way! Create professional benefits by accessing the largest library in the world .... The INTERNET. (Incidentally you can watch videos, use search engines and read your online-community mails). If you want to know exactly, how it works, please feel free to register gratuitous, log in and read the short "How to" (currently only in english language). This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Privacy Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

### **Livebrush - Drawing Application**

<http://www.livebrush.com/>

Livebrush is a drawing application. It employs an easy-to-use brush tool that reacts to your gesture. By combining simple motion controls with brush styles, Livebrush offers a fun and unique way to create graphics. Use graphics you create in Livebrush within your existing projects. Create entire compositions in Livebrush alone. Share styles and see how others combine your brush with their ideas. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

### **Myna Audio Editor**

<http://aviary.com/tools/myna>

Use Myna to remix music tracks and audio clips. Apply sound effects and record your own voice or instruments! Trim, Loop, Stretch and Reverse your audio clips, with editable loop points, and interactive time stretch capabilities. Easily add fade-ins, fade-outs, pan from left to right, and modify gain over time, with editable control points. Add non-destructive effects to your audio clips including Pitch Change, Reverb, Delay, Parametric EQ, and more. Import your own audio files, or search one of our provided libraries. Mix it down and export directly to your desktop or publish back to your account. Collaborate with other users. Follow step-by-step tutorials to learn new skills. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

### **WorldView Magazine**

<http://peacecorpsconnect.org/worldview-magazine>

The National Peace Corps Association and its member groups produce global education programs and advocacy campaigns, and provide community, national and international services. It is governed by a board of directors, and is managed by a professional staff with headquarters in Washington, DC. It is not a part of the United States Peace Corps, which is a federal agency. WorldView magazine is a quarterly magazine of news and commentary about the Peace Corps world, the only magazine dedicated to bringing the events and people of the less-developed places in this world to U.S. readers. In each issue, the editors provide a Peace Corps perspective to global issues by featuring articles by and about Peace Corps Volunteers, Returned Peace Corps volunteers and people who share the global values of the Peace Corps experience.

### **Toobla - Collect, Enjoy and Share Visual Bookmarks**

<http://toobla.com/>

Toobla lets you easily collect, enjoy and share visual bookmarks to websites and other embeddable content (i.e. widgets like YouTube or other videos, photos, documents, games and widget applications). Content of any kind can be collected into online folders that users can then easily share with friends via Twitter, Facebook, email or elsewhere on the social web. Users can also create their own mashups of their favorite content, putting

multiple things into a single widget which they can post to their blog, MySpace, Facebook or any site online. Frequent users of the social web can have their content automatically sent to Toobla so that anything they bookmark or favorite while they find content online ends up on Toobla, thereby helping them to better organize and never forget where to find their favorite content online. Toobla is an early stage Internet company located in Columbus, Ohio in the TechColumbus incubator with another office in Sausalito, CA. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Student Research Resources](#) Subject Tracer™ Information Blog.

### **MediaCommons Press - Open Scholarship In Open Formats**

<http://mediacommons.futureofthebook.org/mcpres/>

MediaCommons Press, an in-development feature of MediaCommons, promoting the digital publication of texts ranging from article- to monograph-length. As their first major project, they are happy to release Kathleen Fitzpatrick's book manuscript, *Planned Obsolescence: Publishing, Technology, and the Future of the Academy* for public review. This has been added to [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Journalism Resources](#) Subject Tracer™ Information Blog.

### **My Bank Tracker - Compares Rates, Reviews and Financial Information**

<http://www.mybanktracker.com/>

My Bank Tracker is dedicated to bringing easy access to financial information across US banks and other financial institutions and to tracking day-to-day updates in the banking industry. MyBankTracker.com helps you make smart banking decisions to save you money. Choose your top bank from thousands of financial institutions by comparing customer reviews, bank rates and amazing deals. With more than 500 financial products and bank profiles to search and review, My Bank Tracker helps today's consumer make a smart choice when opening their next bank account or making their next investment. Spanning across the Mortgage, Savings, Checking, Certificate of Deposit (CD) and Credit verticals, My Bank Tracker is a site enriched with financial tools and user-generated content. My Bank Tracker cares what its users have to say, and we think visitors do as well. That's why each Bank Profile gives registered users the ability to post reviews on their experience with anyone of the 500+ banks listed on My Bank Tracker. Check out what consumers said about a specific bank product or service before making a choice. My Bank Tracker also offers articles and information on the industry and how consumers can better prepare when making financial decisions. By having a voice within the industry we position ourselves to meet the demand our users expect from us on a daily basis. This has been added to [Financial Sources](#) Subject Tracer™ Information Blog.

## **Metamaterials**

<http://www.elsevier.com/locate/metmat>

The Journal aims to cover a wide area of research, connected with artificial electromagnetic materials and surfaces in microwave and optical range, and encompassing general theory, design, applications, fabrication and technology. This involves both theoretical and experimental papers on metamaterials, chiral and bianisotropic media, various periodic structures and frequency selective surfaces, EBG (electromagnetic bandgap) and PBG (Photonic bandgap) structures, high-impedance surfaces, nanostructures, etc., as well as whole range of their applications in antenna and circuit technology and various electromagnetic devices. Particular directions, associated with the Journal, are:

- \* Properties and design of advanced electromagnetic materials:
- \* Metamaterials and Complex Media
- \* Chiral and bianisotropic media
- \* EBG, PBG and other periodic structures
- \* Frequency-selective, high-impedance surfaces
- \* Nonlinear metamaterials
- \* Nanostructures
- \* Biometamaterials
- \* Analytical and numerical modelling
- \* Antenna, circuit and other microwave and optical applications
- \* Fabrication and characterization

and other related topics.

## **Zakta - Personal and Social Deep Web Search Engine**

<http://www.zakta.com/>

Zakta is a personal and social Web search engine where you can find, personalize, share and discover information from the Internet. Zakta relieves the pain of deeper Web searches. Zakta lessens your frustration and saves precious time by giving you powerful tools to find, edit, save, share, and truly benefit from information on the web. For your deeper Web searches, Zakta provides you organized search results, tools to edit and share your search results, and collaborate with those you trust to find exactly what you need. Zakta is no ordinary search engine. Zakta gets smarter with each search and each user interaction, and as a Zakta user, you benefit from a system that improves its results continuously. Zakta takes the guesswork out of searching for information on the Internet. As a Web search and discovery for you and people you trust, Zakta helps you find exactly what you are searching for. Oh ... the name Zakta is derived from the word "exactly". Out of this arose the name Zakta, a service which helps you find exactly what you are searching for!

An excellent resource from an old friend and search genius Sundar Kadayam!! Keep up the excellent work Sundar!! Also I definitely like the exact first letter "Z" ....

### **ProCon.org - Pros and Cons of Controversial Issues**

<http://www.ProCon.org/>

ProCon.org is a 501(c)(3) nonprofit public charity that has no government affiliations of any kind. Their purpose is educational. They do not express opinions on our research projects ("issue websites"). Their mission statement is: "Promoting critical thinking, education, and informed citizenship by presenting controversial issues in a straightforward, nonpartisan primarily pro-con format." They accomplish their mission by researching issues that they feel are complicated and important and work to present them in a balanced, comprehensive, straightforward, and primarily pro-con format. Their sites are free, require no registration, and have no advertising. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog.

### **Journal of Management and Social Sciences (JMSS)**

<http://www.biztek.edu.pk/JMSS.php>

The Journal of Management and Social Sciences (JMSS) is a peer-reviewed bi-annual periodical in which scholar's research articles relating to a particular academic discipline have been published. JMSS serves as a forum for the presentation of new research. The objective of the JMSS is to provide a valuable platform for communication between the profession and academics on the research and facilitate the practice of Management and Social Sciences theories. The JMSS content typically takes the form of articles presenting original research, review articles, and book reviews.

### **ResumePark - Resume Hosting and Discovery**

<http://www.resumepark.com/>

ResumePark is a resume hosting and discovery service. It allows you to easily publish your resume online, for free. Regardless of your environment, resume formats are preserved and can be presented online without any third party document readers. Upload your resume (.doc, .docx, .pdf, .txt). Your document is converted into Flash based document. You share with friends and contacts via social networks or your personal blog. They share with Employers/Recruiters who are looking for candidates just like you. Upload: a) Most formats supported, b) Flash viewer, c) Resume ready in seconds, and d) Upload multiple resumes. Share: 1) Build a custom link, b) Share on social networks, and c) Share on your blog. Track: a) See who viewed your resume, b) Solicit feedback, c) Get comments, and d) Track detailed stats. This has been added to [Employment Resources](#) Subject Tracer™ Information Blog.

### **Bulkish - Free Classifieds Site for the United States**

<http://www.bulkish.com/>

Bulkish is a free classifieds site for the United States that focuses on simplicity, elegance and advanced search power. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

### **Trendero - Find and Follow Trends**

<http://www.trendero.com/>

Trendero helps users create and discover breaking lifestyle trends around the world. Features include: a) Explore global trends on an interactive map, even start you own; b) Filter trends by location, category and more; c) Update trends by uploading audio, video, photos and links; and d) Meet and follow your favorite trendspotters. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog.

### **Social Statistics 2.0 - Open Database of Statistics**

<http://www.postyour.info/>

Open Statistics is an open database of statistics filling up with voluntary users from around the world. Features include: a) count up statistics never known before; b) find correlations between facts in people life; and c) alternative source of statistics created by users. This has been added to [Statistics Resources](#) Subject Tracer™ Information Blog.

### **Glossator: Practice and Theory of the Commentary**

<http://ojs.gc.cuny.edu/index.php/glossator/index>

Glossator publishes original commentaries, editions and translations of commentaries, and essays and articles relating to the theory and history of commentary, glossing, and marginalia (catena, commentum, gemara, glossa, hypomnema, midrash, peser, pingdian, scholia, tafsir, talkhis, tika, vritti, zend, zhangju, et al). The journal aims to encourage the practice of commentary as a creative form of intellectual work and to provide a forum for dialogue and reflection on the past, present, and future of this ancient genre of writing. By aligning itself, not with any particular discipline, but with a particular mode of production, Glossator gives expression to the fact that praxis founds theory.

### **DataMasher - State Data - Mash It**

<http://www.datamasher.org/>

How do the States Compare? Mash up some government data to find out! The Federal Government produces an immeasurable amount of data each day. DataMasher helps citizens with that data by creating mashups to visualize them in different ways and see how states compare on important issues. Users can combine different data sets in interesting ways and create their own custom rankings of the states. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog. This has been added to [New Economy Analytics, Resources and Alerts](#) Subject Tracer™ Information Blog.

## **Trademarkia - Free Trademark Search Online**

<http://www.trademarkia.com/>

Trademarkia is the largest, most accurate, and most complete free search engine for U.S. federally registered trademarks on the Internet. They provide up to the minute contextual information about the current use of interesting business names, slogans, and logos through pictures, commercials, and conversations from Flickr, Google, Youtube, and Twitter for each U.S. trademark filed in with the United States Patent and Trademark Office (USPTO) since the year 1870. You can also discover interesting trademarks that are now abandoned and expired. File U.S. trademarks on logos, trademark slogans, and trademark business names that are not being used. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog. ## **XML Federal Register - Bulk Data and Daily Files**

<http://www.gpo.gov/fdsys/bulkdata/FR>

The White House, U.S. Government Printing Office (GPO) and the National Archives' Office of the Federal Register (OFR) achieved a breakthrough in making Government information available and usable by the public. GPO converted the text of the Federal Register (2000-2009) into XML (extensible markup language) and placed it online in numerous Federal Government portals, which include: GPO's Federal Digital System (<http://www.fdsys.gov/>), The Federal Register Web site (<http://www.federalregister.gov/>) and the Government's new portal for Government data (<http://www.data.gov/>). For direct access to Federal Register bulk data files, go to: [www.gpo.gov/fdsys/bulkdata/FR](http://www.gpo.gov/fdsys/bulkdata/FR). This project began when President Barack Obama challenged Federal agencies to create a more open and transparent Government.

The change supplements the official publishing formats with XML, a form of text that can be manipulated in virtually limitless ways with digital applications. For example, people who want to know about the workings of the Executive branch of the Federal Government no longer need to sift through the Federal Register in its traditional Department-by-Department and Agency-by-Agency format. In this new format users can rearrange the Federal Register's contents in personalized ways to match their particular interests. It is now possible, for example, to download the Federal Register and easily see what proposed actions might affect one's community or region, or what actions might have an impact on one's profession or business interests.

## **Journal of Industrial and Engineering Chemistry (JIEC)**

<http://www.elsevier.com/locate/issn/1226086X>

Journal of Industrial and Engineering Chemistry (JIEC) is published bimonthly in English by the Korean Society of Industrial and Engineering Chemistry. JIEC brings together multidisciplinary interests in one journal and is to disseminate information on all aspects of research and development in industrial and engineering chemistry.

Contributions in the form of research articles, short communications, comments and reviews are considered for publication.

## **Arktan - Connecting Your Digital Activity**

<http://www.arktan.com/>

Arktan is an online service that helps you to aggregate, mix, segment, share and redistribute your blogs, photos, videos and other content you add on multiple websites. It also helps in keeping up-to-date with your friends' latest content on multiple websites.

Mix your web content and create your own channels. For Eg., you can create a "Multimedia" channel for all your music, photos, videos, etc. or you can create a "Europe Vacation" channel with photos, videos, blogs related to your Europe vacation. Control privacy and decide who sees your content with fine-grained permissions. Share your content and channels with friends, family, co-workers. You can embed your channel as a widget in your blog/website OR you can show your channel in a separate page on your blog/website with just one line of HTML code. You can also link your channel to twitter and post your updates in this channel automatically to twitter. Discover the latest content from your friends' channels instantly. This has been added to [Social Informatics](#) Subject Tracer™ Information Blog. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

## **WebTrendMap.com - Trends from Sources We Trust**

<http://webtrendmap.com/>

The Stream of Information represents the entirety of articles and data being publishing online. Individuals actively filter the portion of the stream of information passing in front of them. Acting as Micro-Curators, they selectively publish (to services like Twitter, Facebook, etc) the links they consider having highest value. Webtrendmap.com users create Micro-Aggregates of link publishers by choosing highly selective subsets to place on their Web Trend Maps. These maps become representative of subsets of online communities. The maps are also public facing (unlike most RSS readers) and provide a visual summary of links and trends within that community subset. Both the map creator and passive viewers gain insight into the community. Webtrendmap.com collects, summarizes and publishes all of the trending links on individual maps onto a Macro-Aggregate represented as Top Trending Links. The filtration process facilitated by Web Trend Map (All Information > Micro-Curation > Micro-Aggregation > Macro-Aggregation) means the data rising to the top is always high quality. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has

### **101ElderCare.com - Elder Care, Long Term Care and More**

<http://www.101eldercare.com/>

101ElderCare.com provides online resources on elder care, long term care and assisted living etc. to senior citizens and caregivers. On our site you can find related news, articles, service directories and other useful resources. We hope the information and resources provided here can help older persons live safely and independently in communities or their homes for as long as possible. This has been added to [Elder Resources](#) Subject Tracer™ Information Blog.

### **Geneva Risk and Insurance Review (GRIR)**

<http://www.palgrave-journals.com/grir/index.html>

The Geneva Risk and Insurance Review (GRIR) aims to publish: a) Authoritative contributions regarding risk, insurance and related areas, b) Theoretical papers as well as empirical and/or experimental research for global dissemination, and c) New innovative ideas in insurance economics. The Journal's direction is towards economics in general, focusing on risk and insurance in particular. Although most of the papers published are theoretical, GRIR also publishes tests and competing theories in order to expand understanding of insurance economics. The editors are especially interested in new and innovative ideas and see the topic area of 'risk and insurance' rather broadly, encouraging papers from related disciplines. Published twice a year, this international journal endeavours to provide a forum for the exchange of academic findings and views, whilst also supporting and encouraging research for all those in the insurance industry who search for current innovations in their sector concerning risk, uncertainty and insurance.

### **DOC Cop - Plagiarism, Cryptomnesia and Collusion Tool**

<http://doccop.com/>

DOC Cop is a plagiarism, cryptomnesia and collusion detection tool that creates reports displaying the correlation and matches between documents or a document and the web. DOC Cop does not take copyright or ownership of your material. It does not retain your material beyond the time it takes to generate your report. DOC Cop gathers the evidence, and provides the information required for you to judge whether plagiarism, cryptomnesia or collusion has occurred. Features include: a) Check .DOC and .PDF; b) Multiple report formats; c) Detailed reports; d) Plagiarism & Collusion Detection; f) Easy to use; g) Online support; h) Fast turnaround; i) Real time status indicator; j) Latest plagiarism news; k) Totally free; and l) Entirely web based, no installation necessary. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog. ## JCVI Cloud BioLinux

<http://www.jcvi.org/cms/research/projects/jcvi-cloud-biolinux/>

JCVI Cloud BioLinux image enables scientists to quickly provision computation infrastructures supporting bioinformatics using cloud computing platforms such as Amazon EC2 and Eucalyptus. Upon deployment users will have instant access to a host of software including BLAST, glimmer, hmmer, phylip, rasmol, genespring, clustalw, the Celera Assembler, and the EMBOSS collection of utilities. JCVI Cloud BioLinux is built on a 64-bit instance of Ubuntu virtual server customized with bioinformatics packages from the BioLinux repository, and will be updated periodically. This image is meant to be a community resource. As such, they look to the community for suggestions on tools and software for incorporation, as well as general feedback or ideas that will enhance the value of the image to the entire community. To maximize this effort, they will be crowd sourcing and using forums to gather feedback, respond, and implement features. Many bioinformatics workflows involve large datasets in which high performance computing is needed. This moves the burden to the individual scientist for provisioning the computational infrastructure and technical expertise in order to setup and use the software for their research and storage needs. Cloud computing can provide researchers with the ability to perform computations using a practically unlimited pool of virtual machines, without facing the burden of owning or maintaining any hardware infrastructure. One of the major vendors of compute clouds is Amazon Web Services, which is based on the same infrastructure that powers the Amazon.com e-commerce website and executes millions of customer transactions monthly. The vision for JCVI Cloud BioLinux is to offer a base image of genome analysis resources for cloud computing platforms, such as Amazon EC2. This Science as a Service model (SaaS) will allow JCVI to incorporate, develop and optimize life science software as well as supporting data sets on compute clouds. This project is driven by the observation that commonly-used bioinformatics tools are hard to build and maintain, require high amounts of resources, or just too numerous to choose from. This has been added to [Biological Informatics](#) Subject Tracer™ Information Blog.

## OnlyWire - Automated Content and Bookmark Distribution

<http://onlywire.com/>

Auto-Syndicate Your Content to Millions of Readers with One Button. OnlyWire syndicates your content and articles to the web's top social networking sites with a single button click. ## **JEGP, Journal of English and Germanic Philology**

<http://www.press.uillinois.edu/journals/jegp.html>

JEGP, Journal of English and Germanic Philology focuses on Northern European cultures of the Middle Ages, covering Medieval English, Germanic, and Celtic Studies. The word "medieval" potentially encompasses the earliest documentary and archeological evidence for Germanic and Celtic languages and cultures; the literatures and cultures of the early and high Middle Ages in Britain, Ireland, Germany, and Scandinavia; and any continuities and transitions linking the medieval and post-medieval eras, including modern "medievalisms" and the history of Medieval Studies.

## **Big Start Ups - Start Something Big**

<http://www.bigstartups.com/>

BigStartups.com is a community of startup companies who want to share their experiences, promote their ideas, develop partnerships and get feedback from others in the startup community. Whether you're looking for capital, business partners, or just simply want to promote your business, BigStartups.com is the place where you should go. This has been added to [Entrepreneurial Resources](#) Subject Tracer™ Information Blog.

## **Neuroph - Java Neural Network Framework**

<http://neuroph.sourceforge.net/>

Neuroph is lightweight Java neural network framework to develop common neural network architectures. It contains well designed, open source Java library with small number of basic classes which correspond to basic NN concepts. Also has nice GUI neural network editor to quickly create Java neural network components. It has been released as open source under the LGPL license, and it's FREE for you to use it. Neuroph simplifies the development of neural networks by providing Java neural network library and GUI tool that supports creating, training and saving neural networks. If you are beginner with neural networks, and you just want to try how they work without going into complicated theory and implementation, or you need them quickly for your research project the Neuroph is good choice for you. It is small, well documented, easy to use, and very flexible neural network framework. This has been added to [Artificial Intelligence Resources](#) Subject Tracer™ Information Blog.

## **Swarm - A Transparently Scalable Distributed Programming Language**

<http://code.google.com/p/swarm-dpl/>

Swarm is a framework allowing the creation of web applications which can scale transparently through a novel portable continuation-based approach. Swarm embodies the maxim "move the computation, not the data". Swarm is implemented in Scala 2.8 (unreleased at the time of writing), and makes use of the delimited continuations plugin. Swarm is currently at an early stage of development, although it is able to migrate a thread between servers as needed. Currently the best way to learn about Swarm is to watch the video and then read about their current efforts on their OpenIssues page. Swarm was initially proposed by Ian Clarke in this [blog post](#), although the concept has

evolved considerably since then. This has been added to [World Wide Web Reference Subject Tracer™ Information Blog](#). This has been added to [Script Resources Subject Tracer™ Information Blog](#). This has been added to [Grid, Distributed and Cloud Computing Resources Subject Tracer™ Information Blog](#). This has been added to the Peer to Peer (P2P), File Sharing, Grid and Matrix Search Engines section of [Deep Web Research Subject Tracer™ Information Blog](#).

### **LORE: An e-Journal for Teachers of Writing**

<http://blogs.bedfordstmartins.com/bits/lore/>

LORE is an e-journal for adjuncts and graduate students who teach writing at colleges and universities. This journal is designed to provide a forum for sharing knowledge, building communities, and voicing concerns about what happens in the classroom. LORE is a site for exploring and discussing experimental pedagogies and for engaging in lively, personal reflections about professional matters that inspire and irritate. It is also a place in which instructors may air grievances about how the academy relies upon yet undervalues their expertise. LORE is edited by assistant professors, adjuncts, and graduate students who have been teaching composition for a number of years and who care about composition as both a philosophical discipline and a lived experience. We invite and welcome your participation in on-going dialogues. LORE is available free of charge as an Open Access journal on the Internet. Content available online.

### **IdeaScale - Idea Management, Innovation Management, Crowdsourcing, and Customer Feedback**

<http://www.ideascale.com/>

IdeaScale empowers communities to drive innovation. Collect ideas from your customers, give them a platform to vote, the most important ideas bubble to the top. Your customers use your product or service everyday. Let them engage you when they're most inspired - giving you the best quality ideas. Find answers to questions before you even thought to ask. Its not easy getting your customer's time - your busiest ones generally provide the best ideas. Encourage them to vote on the ideas they are most passionate about. A community forms around your brand and each of its ideas. The most valuable ideas are brought forward. This has been added to [Business Intelligence Resources Subject Tracer™ Information Blog](#). This has been added to the tools section of [Research Resources Subject Tracer™ Information Blog](#).

### **iland Workforce Cloud**

<http://www.iland.com/solutions/workforce-cloud>

The iland Workforce Cloud integrates desktop PCs, laptops, and other devices with your hosted servers, data, and services. Worker's desktop data is secured in the cloud, and IT management is simplified and centralized. ## **Twit Robot - Twitter Marketing Tool**

<http://twitrobot.com/>

Their RSS feeder tool will help you to share your favorite blog posts by distributing it to Twitter. They automatically update your twitter account when there is a new post in your blog. Completely automated 24/7 service which sends tweets according to category of your interest. Select category like 'Business and Money' or 'Movie Quotes' or 'Funny Messages'. Allows you to schedule your tweet messages. Send status updates to twitter even when you're away from your phone or computer. Or remind yourself about something in future. Find People in twitter will not satisfy your full needs. Their search engine will search user's bio data field with your keywords, and thus you get popular profiles. With their unique multi tasking technology they can deliver your tweets lighting fast. A single service is running for all normal users and a dedicated service is running for each and every paid users. When user opens a short link, it shows your product's advertisement, or your profile with Follow me link, on the top of every page. Thus each and every links will promote your business. One unique feature of twitRobot is you can even setup your RSS feeds , to post on recurring basis. Your followers get updated about one random article in every selected interval of time. No need to enter your userid and password to twitRobot. They use OAuth which allow secure API authorization from twitter. answers or just debate about different software. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog. This has been to the tools section of [Research Resources](#) Subject Tracer™ Information Blog.

### **Law.gov - America's Operating System Open Source**

<http://public.resource.org/law.gov/>

Law.Gov is an effort to create a report documenting exactly what it would take to create a distributed registry and repository of all primary legal materials in the United States. By primary legal materials, we mean all materials that have the force of law and are part of the law-making process, including: briefs and opinions from the judiciary; reports, hearings, and laws from the legislative branch; and regulations, audits, grants, and other materials from the executive branch. Creating the system from open source software building blocks will allow states and municipalities to make their materials available as well. Law.Gov would be similar to Data.Gov, providing bulk data and feeds to commercial, non-commercial, and governmental organizations wishing to build web sites, operate legal information services, or otherwise use the raw materials of our democracy. Anybody who cares to submit concurring opinions, dissenting opinions, appendices, specifications, or others materials to this report will be invited to do so. It is understood that on a subject as complex as the functioning of our system of justice and our system of legal education there will be many views, and our hope in this process is to stimulate a robust discussion and dialogue on how to move our legal system forward. Can an effort of workshops, a report, and briefings spur real change in Washington, D.C.? We won't know if we don't try. This is an opportunity for citizens to help change the way we distribute America's Operating System. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Reference Resources](#) Subject Tracer™ Information Blog.

### **Google Trends**

<http://google.com/trends>

With Google Trends, you can compare the world's interest in your favorite topics. Enter up to five topics and see how often they've been searched on Google over time. Google Trends also shows how frequently your topics have appeared in Google News stories, and in which geographic regions people have searched for them most. With Hot Trends, you can see a snapshot of what's on the public's collective mind by viewing the fastest-rising searches for different points of time. You can see a list of today's top 40 fastest-rising search queries in the U.S. You can also select a recent date in history to see what the top rising searches were and what the search activity looked like over the course of that day. We update Hot Trends hourly. Google Trends analyzes a portion of Google web searches to compute how many searches have been done for the terms you enter, relative to the total number of searches done on Google over time. We then show you a graph with the results – our Search Volume Index graph. Located beneath the Search Volume Index graph is our News reference volume graph. This graph shows you the number of times your topic appeared in Google News stories. When Google Trends detects a spike in the volume of news stories for a particular search term, it labels the graph and displays the

headline of an automatically selected Google News story written near the time of that spike. Currently, only English-language headlines are displayed, but we hope to support non-English headlines in the future. Below the search and news volume graphs, Trends displays the top regions, cities, and languages in which people searched for the first search term you entered. This has been added to the tools section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [Business Intelligence Resources](#) Subject Tracer™ Information Blog.

### **Research Journal of Environmental Sciences**

<http://scialert.net/jindex.php?issn=1819-3412>

Research Journal of Environmental Sciences Research Journal of Environmental Sciences aims to provide a stimulating, informative and critical arena for intellectual debate on significant environmental issues. Research Journal of Environmental Sciences covers all areas of environmental sciences such as environmental chemistry, environmental biology, ecology geo-science and environmental physics. Appropriate subjects include basic and applied research on atmospheric, terrestrial and aquatic environments pollution control and abatement technology, conservation of natural resources, environmental health study and toxicology, environmental quality assessment, environmental standards and criteria. Research Journal of Environmental Sciences is available free of charge as an Open Access journal on the Internet. Abstracts available online. Articles available in HTML and PDF format. This has been added to [Green Resources](#) Subject Tracer™ Information Blog.

### **DBpedia Knowledge Base**

<http://dbpedia.org/>

DBpedia is a community effort to extract structured information from Wikipedia and to make this information available on the Web. DBpedia allows you to ask sophisticated queries against Wikipedia, and to link other data sets on the Web to Wikipedia data. Knowledge bases are playing an increasingly important role in enhancing the intelligence of Web and enterprise search and in supporting information integration. Today, most knowledge bases cover only specific domains, are created by relatively small groups of knowledge engineers, and are very cost intensive to keep up-to-date as domains change. At the same time, Wikipedia has grown into one of the central knowledge sources of mankind, maintained by thousands of contributors. The DBpedia project leverages this gigantic source of knowledge by extracting structured information from Wikipedia and by making this information accessible on the Web under GNU Free Documentation License. The DBpedia knowledge base currently describes more than 2.6 million things, including at least 213,000 persons, 328,000 places, 57,000 music albums, 36,000 films, 20,000 companies. The knowledge base consists of 274 million pieces of information (RDF triples). It features labels and short abstracts for these things in 30 different languages; 609,000 links to images and 3,150,000 links to external web pages; 4,878,100 external links into other RDF datasets, 415,000 Wikipedia categories, and 75,000 YAGO categories. The DBpedia knowledge base has several advantages over existing knowledge bases: it covers many domains; it represents real community agreement; it

automatically evolve as Wikipedia changes, and it is truly multilingual. The DBpedia knowledge base allows you to ask quite surprising queries against Wikipedia, for instance “Give me all cities in New Jersey with more than 10,000 inhabitants” or “Give me all Italian musicians from the 18th century”. Altogether, the use cases of the DBpedia knowledge base are widespread and range from enterprise knowledge management, over Web search to revolutionizing Wikipedia search. Within the W3C Linking Open Data (LOD) community effort, an increasing number of data providers have started to publish and interlink data on the Web according to Tim Berners-Lee’s Linked Data principles. The resulting Web of Data currently consists of several billion RDF triples and covers domains such as geographic information, people, companies, online communities, films, music, books and scientific publications. In addition to publishing and interlinking datasets, there is also ongoing work on Linked Data browsers, Linked Data crawlers, Web of Data search engines and other applications that consume Linked Data from the Web. The DBpedia knowledge base is served as Linked Data on the Web. As DBpedia defines Linked Data URIs for millions of concepts, various data providers have started to set RDF links from their data sets to DBpedia, making DBpedia one of the central interlinking-hubs of the emerging Web of Data. ## **Watch™ Paper Review**

### **Toward Global Measurement of the Information Society: A U.S.-China Comparison of National Government Surveys** *By Kate Williams, Hui Yan*

<http://firstmonday.org/htbin/cgiwrap/bin/ojs/index.php/fm/article/view/2576>

#### **Abstract:**

To be global, digital and inclusive, we need comparable measures of ICT use around the world. To contribute to this, this research note analyzes what questions the Chinese and the U.S. governments ask in their large, long-running surveys on the topic of computer and internet use. The process and content of these surveys point up agreements, differences, and silences. Based on this, we propose nine basic questions that can be standardized and used in all country surveys of ICT use to create a coherent global dataset.
