Awareness Watch™ Newsletter

By Marcus P. Zillman, M.S., A.M.H.A.
http://www.AwarenessWatch.com/

Welcome to the V8N3 March 2010 issue of the **Awareness Watch™ Newsletter.** This newsletter is available as a complimentary subscription and will be issued monthly. Each newsletter will feature the following:

Awareness Watch™ Featured Report
Awareness Watch™ Spotters
Awareness Watch™ Book/Paper/Article Review
Subject Tracer™ Information Blogs

I am always open to feedback from readers so please feel free to email with all suggestions, reviews and new resources that you feel would be appropriate for inclusion in an upcoming issue of Awareness Watch™. This is an ongoing work of creativity and you will be observing constant changes, constant updates knowing that "change" is the only thing that will remain constant!!

Awareness Watch™ Featured Report

This month's featured report will be highlighting **Directories, Subject Trees, Pathfinders and Indexes** with the Subject Tracer located at the Virtual Private Library and accessible online at the following URL:

http://www.DirectoryResources.info/

These resources will allow you the ability to create your own private virtual library for the latest and most current directories, subject trees, pathfinders and indexes available online over the Internet. These resources will keep you on the correct and positive path for continued information and new knowledge discovery required to fulfill your personal, academic, business and professional quest for information and new knowledge discovery.

Directory Resources:

SINGLE SUBJECT DIRECTORIES AND PORTALS INCLUDING:

Academic/Education
Economics/Business
Government and Statistics
Humanities
Information and Information Science
Law
Medicine
News
Science and Engineering
Social Sciences

Medgadget - Latest Medical Gadgets, Technologies and Discoveries
http://medgadget.com/
Medgadget is an independent journal of the latest medical gadgets, technologies and discoveries. It is written, edited and published by a group of MDs and biomed engineers. This has been added to Healthcare Resources Subject Tracer™ Information Blog. This has been added to the tools section of Research Resources Subject Tracer™ In formation Blog.

HCPLive - Healthcare Professionals Homepage
http://www.hcplive.com/
HCPLive is the preeminent destination for physicians, pharmacists, managed care executives, and other healthcare professionals who are looking for tools, techniques, and information that can help them provide better care. Our unique content is organized by specialty, by publication, and by audience, and it includes features from the print journals MDNG, Oncology Net Guide, Oncology Nurses, and MDNG: Hospitality, Oncology & Biotechnology News, Pharmacy Times, The American Journal of Managed Care, Cardiology Review, as well as the online site for Physicians Money Digest, PMDLive, among other clinical and professional publications. At HCPLive, you'll find all the information from the print publications and a host of additional features, including CME and CE courses, web exclusives, blogs from healthcare experts, patient perspectives, seminars, videos, and more. This has been added to Healthcare Resources Subject Tracer™ Information Blog.

International Journal of Network Security & Its Applications (IJNSA)
http://airccse.org/journal/ijnsa.html
The International journal of Network Security & Its Applications (IJNSA) is a quarterly open access journal that publishes articles which contribute new results in all areas of the computer Network Security & its applications. The journal focuses on all technical and practical aspects of security and its applications for wired and wireless networks. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on understanding Modern security threats and countermeasures, and establishing new collaborations in these areas. Authors are solicited to contribute to the journal by submitting articles that illustrate research results, projects, surveying works and industrial
experiences that describe significant advances in the areas of Security & its applications. Topics of interest include, but are not limited to, the following

* Network and Wireless Network Security
* Mobile, Ad Hoc and Sensor Network Security
* Peer-to-Peer Network Security
* Database and System Security

* Intrusion Detection and Prevention
* Internet Security & Applications
* Security & Network Management
* E-mail security, Spam, Phishing, E-mail fraud
* Virus, worms, Trojon Protection
* Security threats & countermeasures (DDoS, MiM, Session Hijacking, Replay attack etc,)
* Ubiquitous Computing Security
* Web 2.0 security
* Cryptographic protocols
* Performance Evaluations of Protocols & Security Application

Highcharts - Interactive Javascript Charts for Your Web Pages
http://www.highcharts.com/
Highcharts is a charting library written in pure JavaScript, offering an easy way of adding interactive charts to your web site or web application. Highcharts currently supports line, spline, area, areaspline, column, bar, pie and scatter chart types. It works in all modern browsers including the iPhone and Internet Explorer from version 6. Standard browsers use the Canvas element and in some cases SVG for the graphics rendering. In Internet Explorer graphics are drawn using VML. Do you want to use Highcharts for a personal website, a school site or a non-profit organisation? Then you don't need the author's permission, just go on and use Highcharts. For commercial websites and projects, see License and Pricing. Highcharts is solely based on native browser technologies and doesn't require client side plugins like Flash or Java. Furthermore you don't need to install anything on your server. No PHP or ASP.NET. Highcharts needs three JS files to run: The highcharts.js core, a canvas emulator for IE, and either the jQuery or the MooTools framework. One of these is most likely already in use in your web page. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Updated> Finding Experts By Using The Internet
http://www.FindingExperts.info/
http://www.InternetExperts.info/
This just updated reference link compilation is designed to bring together the latest URLs for you to use the Internet to find that expert you need in your profession, business, project or special interest. This miniguide is a freely available 25 page (1.23MB) that was updated on February 1, 2010; including a direct domain name. This is the ultimate tool for finding that expert by using the Internet!! Bookmark today, spread the word to all your friends and associates, and enjoy!!

Flogs.com - Keeps You Up To Date
http://www.flogs.com/
Flogs.com means that you are ALWAYS up-to-date. With the touch of a button, you can add your favourite sporting events, concerts, CD releases and other events in the field of music, gaming, film, books, art and financial markets to your personal digital organizer.

29

Maintaining a full calendar is a tricky business, so that's what Flogs is here for. Changes are automatically kept updated and implemented, so that your calendar is always up-to-date. Whether it's a late-starting concert or a football match that has been postponed due to the weather, Flogs always provides the latest digital content for your preferred categories. Simple, clear and always in the know. You select which flogs (sports, music, film, theatre, games, specific subject areas, etc.) and relevant sub-categories interest you. For example: Sports > Football > FC Barcelona, or Music > R&B > Beyoncé. With a single click, the information you request will then appear in your digital calendar. Appointments, concerts, competitions, etc. will be automatically inserted amongst your existing engagements, giving you a complete overview of your schedule! With flogs you can: a) Create and share your own flogs with people all over the world; b) Download calendars that are constantly kept up-to-date for you; c) Add and share calendars with your friends or with the whole world; and d) Search among thousands of interesting calendars added by other users. This has been added to tools section of Research Resources Subject Tracer™ Information Blog.

The BusinessMakers Radio Show - Information Resources for Entrepreneurs
http://www.thebusinessmakers.com/
The BusinessMakers! feature entrepreneurs, the "Make It Happen" innovators, the inventors who find a better way and, perhaps even make our lives better. What triggers that first big step to start a business? How do you become a "Make It Happen" entrepreneur? They explore the methods of start-up veterans who made it through the challenges, who made the tough decisions that put them on the road to success. THey visit with inventors who will dazzle you with their brilliance and hard work. And they talk about mistakes, and about lessons learned. Founded on June 6, 2005, The BusinessMakers radio show and web site feature the very personal business stories of entrepreneurs, from early stage start-ups, to billionaire octogenarians and all the way to big company intrapreneurs. Their stories are incredible, amazing and inspiring. Show hosts Russ Capper and John Beddow, along with Kelsey Ruger, Erica O'Grady, Katie Laird and Kenn Stearns, interview guests who discuss the challenges, the obstacles, and the thrill of starting and growing a business. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

Mineralogy and Petrology
http://www.springer.com/springerwiennewyork/geosciences/journal/710
Mineralogy and Petrology is devoted to multidisciplinary coverage of the entire field of mineralogy, petrology, and geochemistry. Its coverage focuses on mineralogically-oriented topics in crystallography, crystal chemistry, applied mineralogy, mineral physics, the study of ore deposits, and environmental mineralogy, in an attempt to counteract increasing fragmentation in the earth sciences.

ThingBuzz - Hottest Stuff On the Web
http://www.thingbuzz.com/
Thingbuzz is a site to discover the most talked about products on the web. Through real time search and crowdsourcing, Thingbuzz will help you: a) Discover exciting new products buzzed by real people; b) Find great gift recommendations for your friends and family (no more lame-o sweaters); c) Procrastinate, A LOT (based on personal experience but may be biased); and d) Empty your wallet (disclaimer disclaimer). Thingbuzz mines the real time web through Twitter tweets to predict product trends and uncover the most talked about things. Trending products are ranked based on several criteria: 1) Time frame, 2) Number of unique tweets; and 3) Tweeter credibility (number of followers). This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. This has been added to the tools section of Research Resources Subject Tracer™ Information blog. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

Radon - Indoor Environments Division EPA
http://www.epa.gov/radon/
The Indoor Environments Division (IED), located within the Office of Radiation and Indoor Air (ORIA), under the Office of Air and Radiation (OAR), is responsible for implementing EPA's Indoor Environments Program, a voluntary (non-regulatory) program to address indoor air pollution. Most Americans spend about 90 percent of their time indoors, where pollutant levels may be 2-5 times higher, and occasionally 100 times higher, than outdoors. The Agency defines indoor air pollution as chemical, physical or biological contaminants in the breathable air inside a habitable structure or conveyance, such as in homes, schools, offices, and vehicles. Sources of indoor air pollution include natural sources, building materials, products, and occupant activities. Health effects from indoor air pollution range from immediate to long-term, and treatable to severely debilitating or fatal. EPA's Indoor Environments Division seeks to reduce human health risks posed by contaminants in indoor environments. IED analyzes those risks based on sound science, and uses social marketing techniques to conduct broad public education and outreach. IED encourages people to take action to minimize their risk and mitigate indoor air quality problems. To complement efforts, IED partners with public and private sector entities, in some cases providing funding support. Partners across EPA Regions include state and local governments, tribes, non-profit public health organizations, and industry. Since 1987, EPA has addressed public health risks from indoor radon, indoor asthma triggers, environmental tobacco smoke, and air toxics, in schools, public and commercial buildings, homes, and communities. Other program areas include mold, green buildings and international assistance in developing nations to reduce indoor smoke from household heating and cooking. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Google Fusion Tables
http://tables.googlelabs.com/
Upload small or large data sets from spreadsheets or CSV files. Visualize your data on maps, timelines and charts. Pick who can access your data; hide parts of your data if needed. Merge data from multiple tables. Discuss your data with others. Track changes and discussions. This has been added to Deep Web Research Subject Tracer™ Information Blog.

Renewable Energy World - Renewable Energy News, Jobs, Events, Companies and More
http://www.RenewableEnergyWorld.com/
RenewableEnergyWorld.com was started in 1998 by a group of Renewable Energy professionals who wanted their work to relate to their passion for renewable energy. With this passion and the desire to create a long term sustainable business, they have created perhaps the single most recognized and trusted source for Renewable Energy News and Information on the Internet. At RenewableEnergyWorld.com they do their best to provide you with access to Renewable Energy-focused services, including: a) Daily Renewable Energy News; b) Renewable Energy Products; c) Renewable Energy Technology Overview; d) Comprehensive Renewable Energy Events Calendar; e) Extensive Renewable Energy Job Opportunities; and f) Comprehensive Internet Brand Building For Your Renewable Energy Business. This has been added to Green Files Subject Tracer™ Information Blog.

OWL - Library of Useful Knowledge, Opinions and Images from Experts Worldwide
http://www.owl.com/
Introducing Owl, brought to you by AOL. Owl is a living, breathing library where useful knowledge, opinions and images are posted from experts the world over. These contributions create an archive of insights, advice, commentary, and everything you want to know and a few things you didn't even know you needed to know. Owl is a place for your expertise to live, too. Whether a profession or a past time, your passions now have a place to be published and accessed by everyone. Everyone's mind contains knowledge about something that's near and dear to them. Something you know more about than practically anyone else. And on Owl, there's always room for it. Simply submit content and share what you know with others. You can even be paid for it as well. This has been added to Internet Experts Subject Tracer™ Information Blog. This has been added to Knowledge Discovery Subject Tracer™ Information Blog.

Thunderdell and BusySponge
http://reagle.org/joseph/2009/01/thunderdell.html
Would you like a bibliographic system that was a simple and powerful complement to the way you take notes? The Thunderdell scripts are intended to make sure the important task of engaging a text is not hindered by bibliographic constraints. Using the power of the FreeMind (0.7) mindmap application you can quickly tag and outline a source and

trivially indicate annotations, paraphrases, and excerpts with simple keyboard shortcuts; you can outline, link to Web resources, and include images and tables -- really, anything you can do with a mindmap and HTML. The underlying data is accessible XML and Thunderdell transforms this into the open biblatex bibliographic format (an update to the BibTeX standard). Thunderdell is written in Python and requires some familiarity if only to specify the location of your root mindmap. Their system is an Ubuntu machine, but they believe it could be made to work on any platform as all dependencies (including lxml and httplib2) are cross-platform. The scripts are available at this repository. The command-line BusySponge micro-blogger and Web scraper is also included and can be used to populate your mindmap with bibliographic data about Web resources. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Technology for Transparency Network - Tracking Civic Engagement Technology Worldwide
http://transparency.globalvoicesonline.org/
Mapping and evaluating technology projects that promote transparency, accountability, & civic engagement around the world. The Transparency for Technology Network is a three-month, participatory research mapping to gain a better understanding of the current state of online technology projects that increase transparency, government accountability, and civic engagement in Latin America, Sub-Saharan Africa, Southeast Asia, South Asia, China, and Central & Eastern Europe. The project is co-funded by Open Society Institute's Information Program and Omidyar Network's Media, Markets & Transparency initiative, and aims to inform both programs' future investments toward transparency, accountability, and civic engagement technology projects. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

Natural Product Radiance (NPR)
http://www.niscair.res.in/ScienceCommunication/ResearchJournals/rejour/npr/npr0.asp
Natural Product Radiance (NPR) is an outcome of contributions, compilation and collation of information. It serves as a useful addition to current literature and fosters a greater understanding, applications and conservation of natural resources. It is a single platform for knowing and exchanging latest updates especially on applied science and technologies related to plants, animals. Besides, author's contributed papers, information compiled and collated by editors is also published in this journal. The scope of this journal is multidisciplinary. It will consider original unpublished research papers, especially of applied nature, reviews and feature articles dealing with the cultivation, disease control measures, post harvest technology, development processes of various products and utilization (including ethnobotany and pharmacology) related aspects of plants and animals in broadest sense.

Letter-Matics - Sending Real Mail From Your Computer
http://www.lettermatics.com/
L-mail® is a desktop/laptop based system that uses proprietary copyrighted software technology that revolutionizes the mail processing, sorting, and delivery systems. Due to the software design and the strategically placed network of digital printing and finishing facilities, substantial savings occur both in time to delivery and costs, creating a significant Value Proposition. Cost savings over many systems used today will save the consumer from 35% to 45%, creating a significant "Market Opportunity". Additionally, the "green" effect of significant reduction in use of fuel oil to transport mail by air and long haul trailers creates a Value Proposition for the US Postal Service, and other carriers such as UPS, DHL, and FedEx, as well as the environment. L-mail® provides services such as postal address correction, bar code printing, and sorting. These postal services have great potential for postal organizations to streamline their clients' business first-class mail, make it easier to automate. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

Wetoku - Tool for Talkingheads Interviews
http://wetoku.com/
With Wetoku, bloggers can bring the talkingheads experience to their viewers. Whether oceans apart or living next door, Wetoku brings you together. Your interview is automatically recorded for instant playback. Embed it to your blog and share it with the world. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

The Gates Notes
http://www.thegatesnotes.com/
Every January, Bill writes an Annual Letter, which includes his thoughts on the work of the Bill & Melinda Gates Foundation and progress it is making toward achieving its goals. Interest in the 2009 Annual Letter was one reason Bill decided to create the Gates Notes website. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

Medical Molecular Morphology
http://www.springer.com/biomed/medical+microbiology/journal/795
Medical Molecular Morphology is an international forum for researchers in both basic and clinical medicine to present and discuss new research on the structural mechanisms and the processes of health and disease at the molecular level. The normal function and structures of molecules, organelles, cells, tissues, and organs determine their normal function. Disease is thus best understood in terms of structural changes in these levels of biological organization, especially in molecules and molecular interactions as well as the cellular localization of chemical components. Medical Molecular Morphology presents articles on basic or clinical research in the fields of cell biology, molecular biology, and medical, veterinary, and dental sciences using techniques for structural research such as

electron microscopy, confocal laser scanning microscopy, enzyme histochemistry, immunohistochemistry, radioautography, X-ray microanalysis, and in situ hybridization. Content available by subscription. Free content available online. Abstracts available online. Articles available in PDF format.

1Cast - Your Digital News Stand
http://www.1cast.com/
Sourcing content through partnerships with top broadcasters and cable networks, 1Cast is the online destination to get all the news you need delivered to your desktop and smart-phone — and it is updated throughout the day. The 1Cast web and mobile-based video delivery system enables you to build your own personalized video news feed from a multitude of broadcast and cable news sources around the world, on topics that interest you. Follow your presidential candidate, favorite celebrity, or sports teams, or track the stock market or your favorite cooking show — and more. Get the freshest television news that matters to you —
when, where, and how you want to watch it. With 1Cast you can: a) Watch the news; b) Search for video; c) Set up your own news casts; d) Share casts — email, embeds, social networks; e) Watch your favorite networks in one place; and f) Keep track of news stories that interest you. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. LLRX Featured Article: Business Intelligence Online Resources
http://www.llrx.com/features/busintellguide.htm
My white paper **Business Intelligence Online Resources** was the featured article in the February 2010 LLRX publication which offers legal and technology articles and resources for librarians, lawyers and law firms. It is available by clicking on the above link or going directly to the continuously updated Subject Tracer™ by clicking here.

EThOS - Electronic Theses Online Service
http://ethos.bl.uk/Home.do
The aim of EThOS is: a) To offer a 'single point of access' where researchers the world over can access ALL theses produced by UK Higher Education; b) To support Higher Education Institutions through the transition from print to e-theses; c) To help UK Higher Education Institutions expand available content by digitising paper theses; and d) To demonstrate the quality of UK research and help attract students and research investment into UK HE. To achieve this, EThOS offers a coherent and consistent interface by implementing a central 'hub' comprising an e-store and a digitisation suite at The British Library site in Boston Spa, Yorkshire. The hub automatically harvests e-theses from Institutional Repositories and digitises paper theses from participating institutions to offer the single point of access. Many UK institutions support Open Access to their theses, so download of their digital and digitised theses is free to the researcher. A small number of participating institutions may not be able to offer Open Access and in this case the

researcher may have to pay for the digitisation. Where a thesis must be digitised before supply, you can expect a short delay. However, you will be informed when the thesis is ready for collection and you can then log on to the system and download it. EThOS can only offer the theses of participating institutions. While they expect a large number of institutions to take part, they cannot supply from an institutions which chooses not to. In this case, you should approach the institution's library directly to gain access to a thesis. This has been added to the tools section of Research Resources Subject Tracer&trader; Information Blog. This has been added to Academic and Scholar Search Engines and Sources white paper.

Australasian Digital Theses Program - ADT
http://adt.caul.edu.au/
The aim of the ADT program is to establish a distributed database of digital versions of theses produced by the postgraduate research students at Australian universities. The theses will be available worldwide via the web. The ideal behind the program is to provide access to, and promote Australian research to the international community. The ADT concept was an initiative of 7 Australian universities in association with the Council of Australian University Librarians (CAUL). The ADT program is designed to improve access to, and enhance transfer of, the research information contained in theses by providing a full text version available from the desktop via the web. The retrieval is enhanced by the inclusion of metadata tags in the documents which are given a higher weighting by the more sophisticated search engines. It is also designed to provide a new model for deposit and archiving of theses that takes into account the tools and technologies that students are now using to prepare their theses. The program has two major components, digitisation of theses as part of the deposit process and the digitisation of a selected number of frequently requested existing theses. As each University is responsible for maintaining an archival copy of the theses of their own institution, each participant in the program will mount their own theses on a server located in their respective institution. The participants will use the same database configuration, standards and metadata system to ensure compatibility. The document format will be Adobe Acrobat Portable Document Format (PDF) ensuring that the data is independent of the platform on which it is created. Adobe PDF ensures that a high quality printed version can be provided if needed. Acrobat is relatively easy to use, with a high quality free reader readily available. PDF has also become an electronic publishing standard. This has been added to the tools section of Research Resources Subject Tracer&trader; Information Blog. This has been added to Academic and Scholar Search Engines and Sources white paper.

Procedia Earth and Planetary Science
http://www.elsevier.com/locate/inca/720660
Procedia: Earth and Planetary Science is an e-only product focusing entirely on publishing high quality conference proceedings. Procedia: Earth and Planetary Science enables fast dissemination so conference delegates can publish their papers in a dedicated online issue on ScienceDirect, which is then made freely available worldwide.

Conference proceedings are accepted for publication in Procedia: Earth and Planetary Science based on suitability and are required to meet certain criteria, including relevance to an international audience and covering highly cited or timely topics. Procedia: Earth and Planetary Science will cover proceedings in all topics in Geology, Geochemistry, Planetary and Atmospheric Science with the exception of Energy and Environmental Science.

Notelog - Find, Share, and Create College Notes, Knowledge and Know-How
http://www.notelog.com/
Notelog [noht-log], is the premier online social document sharing platform used for sharing academic knowledge on college campuses worldwide. Notelog provides registered users with unlimited free college notes, knowledge, and know-how! Notelog's growing number of users ("noteloggers") consists of students, professors, publishers, and experts located around the world all collaborating to create the world's largest collection of notes, knowledge, and know-how! You're free to browse Notelog and read as many notes, documents, and answers as you like without an account, but if you want to download an ebook, leave a comment, or access groups you'll need to sign up and log in. But no worries sign up is absolutely free! All you need is a valid email address. Student users can even register and log in with their facebook account! This has been added to Student Research Resources Subject Tracer™ Information Blog. This has been added to Academic and Scholar Search Engines and Sources white paper.

GoalBot - Goal Achievement Toolkit
http://goalbot.org/
Goalbot is a goal achievement toolkit - a set of tools that will assist you in accomplishing your goals and sharing your knowledge and experiences. Goalbot is powered by the community, so every user is an integral part of Goalbot. Goalbot will help you to: a) Learn about and explore your goals, along with the tools and resources that will help you to accomplish them; b) Create a step-by-step action plan using our smart goal planner, then easily track what you've done and what you have to do next; and c) Connect with other people who are interested in or who have accomplished goals similar to yours. Goalbot was designed based on principles of goal achievement derived from psychology and cognitive science. Research has shown that implementing these principles leads to an increased likelihood of goal accomplishment. Blog. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This will be added to Academic and Scholar Search Engines and Sources Subject Tracer™ Information Blog.

Technology Innovations in Statistics Education (TISE)
http://www.escholarship.org/uc/uclastat_cts_tise
Technology Innovations in Statistics Education (TISE) reports on studies of the use of technology to improve statistics learning at all levels, from kindergarten to graduate school and professional development. The editors believe we must teach students to become data scientists who can think about and reason with data. To do this educators must employ a variety of technologies so students can better understand statistical concepts, learn to gain insight from data, and design and shape technology to meet future needs. TISE is interested in scholarly papers that address any of these themes:

* Designing technology to improve statistics education
* Using technology to develop conceptual understanding
* Teaching the use of technology to gain insight into and access to data

MightyMeeting - Mobile Collaboration and Social Publishing
http://www.MightyMeeting.com/
With MightyMeeting you can manage a library of PowerPoint presentations directly from your smartphone. You can share them via email, blog, Twitter, or Facebook. You can start or join web meetings directly from your laptop, iPhone, iPod Touch, or an Android phone. GroupSpaces - Online Tools for Real-World Groups
http://groupspaces.com/
GroupSpaces is an Oxford-based start-up that is revolutionising the way real-world groups and communities manage themselves online. GroupSpaces is a easy-to-use platform where you can: a) Upload a Profile: get found on Google; attract more members; drive more traffic to your group's website; b) Run a Mailing List: send professional-looking e-mail newsletters; manage different lists for your committee, freshers, alumni..; make it easy to subscribe/unsubscribe; c) Manage a Member Database: learn more about your members; share management between committee members; make handing over and delegating admin easy; d) Create Polls/surveys: make group decisions; gather feedback easily; run committee elections online; e) Power your Website: keep latest events up-to-date; sign up new members; archive news from your newsletters. They believe that instead of using many disconnected websites and programs to manage your group, it's better if you can do everything one place! This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

Catalyst: The Magazine of the Union of Concerned Scientists
http://www.ucsusa.org/publications/catalyst/
The Union of Concerned Scientists is the leading science-based nonprofit working for a healthy environment and a safer world. UCS combines independent scientific research and citizen action to develop innovative, practical solutions and to secure responsible changes in government policy, corporate practices, and consumer choices. Catalyst magazine explains and highlights the activities and policies of the UCS.

SproutPitch - Elevator Pitch Videos from Startups
http://www.sproutpitch.com/
Sproutpitch is dedicated to present your startup elevator pitch to world. They invite you to submit your pitch for their community to evaluate the prospect of your startup and give

you some ideas and advice. What is an elevator pitch? An elevator pitch is an overview of an idea for a product, service, or project. The name reflects the fact that an elevator pitch should be possible to deliver in the time span of an elevator ride. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog. This has been added to Business Intelligtence Resources Subject Tracer™ Information Blog.

Cadmus - Keeping You Updated
http://thecadmus.com/
Cadmus is a real time service that manages your stream (Twitter, FriendFeed and RSS) by displaying the most relevant content since the last time you checked in. It helps you get caught up on what you have missed. Cadmus groups similar posts into conversations and places the most important ones at the top. It does all of the heavy lifting so you don't have to search through your stream to find out what everybody is talking about. Unlike traditional relevance sorting services, Cadmus focuses on what you need to read since the last time you checked in. So every time you check in, it brings the recent conversations to you. Cadmus finds trends posted from within your group of friends. If you want to know what your friends have been talking about in the last day or week, we can help you catch up. You can access Cadmus simply by signing in using your Twitter account or by using their API that allows you to view your filtered stream anywhere. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This will be added to eCurrent Awareness. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

Amazee - Connect, Collaborate, Change
http://www.amazee.com/
Amazee is an internet platform that empowers individuals and organizations to initiate and promote their ideas and plans in projects, to find like-minded people and raise funds. Amazee is the global action network! Examples of successful projects on Amazee are: Building an IT learning center in Sri Lanka, planning meetings of internet entrepreneurs in Zurich or ensuring the complete supply with running water in a small South African village. Amazee is built for globally-minded activists who want to use the web for collective action. Thus their goals become projects on Amazee and these projects come to life. Each project on Amazee has its online publication medium: the project magazine. Via an intuitive interface users can add a large variety of so called widgets to these magazines to publish your content. Among many other things there are gallery, blog and event planning widgets which can be combined into a very attractive package. The collaboration of members in projects on Amazee is being empowered by different state-of-the-art tools such as calendars, discussion boards, polls, event planning modules etc. Moreover, Amazee is distinguished by its very responsible user community which is more attracted by the collective pursuit of social challenges than by self expression and non-binding chitchat. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Gene Expression to Genetical Genomics
http://www.la-press.com/journal.php?journal_id=137
Gene Expression to Genetical Genomics is an open access, peer reviewed journal, which covers all aspects of gene and genome expression and its effect in resulting phenotypes. Topics include mechanisms of gene regulation including epigenetics, innovative and evolving technologies, consequences of over and under expression and novel approaches to relate gene and genomic expression to the phenotype. It will include aspects of genetical genomics (combination of gene expression with genetic linkage) and other approaches that may offer novel insight in complex phenotypes. Abstracts available online. Articles available in PDF format.

BusyLissy - Super Simple Project Management
http://busylissy.com/en/
BusyLissy is a super simple project management tool. Work together, organize stuff and keep track of the developments within your projects. BusyLissy is for everybody who want to organize stuff together. Small businesses, student groups, sports clubs, you name it. BusyLissy makes organizing and project management super simple. All the messages, tasks and files in one place makes your live easier. Create tasks and sub-tasks for any project. Assign tasks to certain project members and keep track of what has to be done. Discuss your project and keep al your messages in one place. Keep a good overview of what is happening in your project. Store all your files and documents in one place and forget emailing each other with attachments since Lissy organizes the files for you. Create and share events within a project. Milestones automatically appear in your agenda. Use your personal agenda to track events throughout all of your projects. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Learning Tools Directory 2010
http://janeknight.typepad.com/pick/2010/01/learning-tools-directory-2010.html
In 2006 Jane Hart started the Learning Tools Directory. Since that time some tools have come and gone, and others have changed, adding more features and becoming more integrated. So Jane has just completely overhauled, updated and re-organized the Directory into 12 categories. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Directory Resources Subject Tracer™ Information Blog.

Ranking Web of World Repositories
http://repositories.webometrics.info/
As in the previous edition they provide two global Rankings. One that covers all repositories (Top400) and another that focuses only on Institutional Repositories (Top 400 Institutional). They are considering to include in future editions portals of journals and papers (super repositories). The composite index (World Ranking) is computed combining normalized values instead of ranks. The visibility is calculated giving extra importance to the external inlinks not coming from generic domains (.com, .org, .net). The figures for rich files (pdf, doc, ppt, ps, and new for this edition, xls) are combined

and not treated individually. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Academic and Scholar Search Engines and Sources white paper.

Saudi Journal of Biological Sciences (SJBS)
http://snipurl.com/ucg0b
The Saudi Journal of Biological Sciences (SJBS) is published biannually by the Saudi Biological Society (SBS) Riyadh, Saudi Arabia. The Journal is devoted to all disciplines of biological Sciences and related fields. The Journal publishes original research articles, review articles, short communications and abstracts of papers presented at the society meetings and symposia, in Arabic and English.

Mentory - Achieve Your Goals
http://mentory.com/
Mentory, an online community that will bring mentor´s and protégés from around the world together to cultivate potential and achieve goals. Providing simple tools and a participatory environment, Mentory makes it easy to connect and establish personal and professional mentorships. Potential protégés can choose from existing mentor´s or utilize Mentory to invite personal role models to join the network and become their personal mentor. Experienced men and women can sign up as mentor´s and put their skills and experience to use, in order to help others exploit their potential and reach their goals. Mentory is an online give and take tool, because we all have knowledge to share and goals to follow. Protégés set their personal goals, while mentor´s define their unique skills and experience. You can choose to be both differentiated by the particular goal. Each individual user creates their own agenda, and only ambitions, goals and dreams set the limits. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

Memonic - Keep the Essential Information
http://www.memonic.ch/
A problem facing the regular Internet user today is how to keep track of information and bits of information found on the Internet. Current solutions such as (social) bookmarks do provide only partial and unsatisfactory solutions. This system, called memonic.com, helps you to remember the relevant parts of information you come across: The tool lets you easily collect all the important pieces of information during your day/work. Once collected you are able to access your knowledge in a natural, contextual and visual way anywhere and anytime on any device. You may easily organize your items and either import them effortlessly to a number of other applications or simply distribute and share them with your colleagues/friends. In brief it's a description of a system likened to a Rolodex of the Internet: Smallish cards holding bits and pieces of information for later use. Information becomes truly fluid. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Business Intelligence Resources.

RadioTuna - Free Real-Time Search Online Radio
http://www.RadioTuna.com/
Choose from thousands of radio stations online right now, playing the best music from every genre. Start discovering online radio by asking the Tuna! RadioTuna is the first real-time search engine for online radio, giving up-to-the-minute results relating to the music being played across the globe right now. If you search for an artist that happens to be playing right now, they will tell you and you can connect straight to that station. If your choice isn't playing right now, they will tell you which stations are most likely to play them next.This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been aded to World Wide Web Reference Subject Tracer™ Information Blog.

Journal of Education, Informatics and Cybernetics (JEIC)
http://www.journaleic.com/index
Their purpose in the Journal of Education, Informatics and Cybernetics (JEIC) is to gather and disseminate original research, reflections and reviews in Education and its bidirectional relationships with Informatics and Cybernetics. JEIC encourages researchers and practitioners to submit their valuable manuscripts for fast publication and also invites reviewers to join the two tier reviewing process, in which double-blind and non-blind reviewing are used. The main themes or macro-areas of JEIC are:

* Education and Training.
* Instructional Technologies.
* Educational Informatics.
* Educational Information Systems.
* Informatics Education.
* Education of Computer Science and Engineering.
* Educational Cybernetics.
* E-Learning.
* E-Training.
* On-line Teaching.
* Cybernetics Education.
* Educations in Cybernetics Concepts, Methodologies, and Cyber-tools.

Journal of Education, Informatics and Cybernetics is available free of charge as an Open Access journal on the Internet. Abstracts available online. Articles available in PDF format.

MyGengo - Simple Good Quality, Low Cost Human Translation
http://mygengo.com/
Just type in or paste the text online. Choose languages to translate into, and the level of service you want... Pay via PayPal. Their global team of qualified translators starts working. You receive an email when it's done - usually the same day. This is a new start up located in Japan and has some very interesting features as well as some new exciting

services coming online in the very near future. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Busines Intelligence Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

TopicFire - Live Breaking News
http://topicfire.com/
Topicfire filters out all the bad news and only shows the hottest breaking news in real-time. Their goal is to create an insanely efficient and clean way to consume news. What makes them different is their novel HeatRank algorithm that radically increases the speed, depth, breadth, and scalability of content ranking. That allows them to rank content in real-time, rank content very accurately by popularity, rank less popular long-tail news, and do everything on 1 server. They also do other tricks like organize millions of articles into neat topics, real-time updates, infinite scroll, a slider to filter by rank, extract article images, Facebook newsfeed integration, and retrieve update notifications using PubSubHubbub and rssCloud. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog.

Cluuz Search - Semantic Cluster Graphs, Image Extractions and Tag Clouds
http://cluuz.com/
Cluuz generates easier to understand search results through patent pending semantic cluster graphs, image extraction, and tag clouds. The difference between standard search engines and Cluuz is in the fact that Cluuz does some work for you. A standard search engine shows links in a list. Cluuz instead peers into the searched web pages, extracts important terms and images, clusters them and gives them in chart format (semantic graph) and in a tag cloud where you can click on any entity to further focus your search. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Journal of Scientific Review (JSR)
http://srbmag.org/index.php/srbmag/index
Journal of Scientific Review (JSR)-an Open Access Journal, is an international interdisciplinary research journal on all aspects of science and technology. It provides a unique forum to place your ideas, articles of general interest, research article, commentaries, book reviews, review articles, and anything of interest to the scientific community. Articles from different branches of science and technology are promptly made available to the wide range of readers after peer review. Being an open access journal, articles are freely available online, and those interested may read online or download articles in pdf format.

cQuery - Content Query Engine
http://cquery.com/
Use CSS to extract Internet content featuring: a) Create Micro-mashups; b) Simple API; c) JSON,XML & raw Response Types; and d) Powerful content parsing. This has been added to Web Data Extractors White Paper. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Bot Research Subject Tracer™ Information Blog.

March 2010 Zillman Column - Tutorial Resources 2010
http://columns.virtualprivatelibrary.net/Tutorial_Resources_Mar10_Column.pdf
http://www.zillmancolumns.com/
http://www.TutorialResources.info/
The March 2010 Zillman Column is now available and is titled **Tutorial Resources 2010**. This March 2010 column is a comprehensive list of resources and sites that give you the latest and most important information concerning tutorial resources that are available over the Internet including related and associated resources and sites. These resources will keep you current and up to date with the latest happenings and events for continuing education using tutorial resources on the Internet including some of the most important tutorial sites available today. Download this excellent freely available 26 page .pdf (1.11MB) column today!

AutoTracer.org - Converts Your Raster Images To Vector Graphics
http://www.autotracer.org/
Convert raster images like JPEGs, GIFs and PNGs to scalable vector graphics (EPS, SVG, and PDF) with this free online vectorizer. This has been added to the tools section of Researtch Resources Subject Tracer™ Information Blog. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

Notepad Generator
http://botsko.net/Demos/notepad_generator/
This tool allows you to customize a PDF notepad. Michael Botsko needed a way to organize his notes from various meetings, so he developed this to assist himself. You can customize how you would like your PDF file to look. You can then print it out on standard 8 1/2 x 11 paper. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Nutrition and Metabolic Insights
http://www.la-press.com/journal.php?journal_id=101
Nutrition and Metabolic Insights is a peer-reviewed, open-access online journal focused on all aspects of nutrition and metabolism. This encompasses nutrition, including the biochemistry of metabolism, exercise and associated physical processes and also includes clinical articles that relate to metabolism, such as obesity, lipidemias and diabetes. It includes research at the molecular, cellular and organismal levels. Other areas of interest

include gene-nutrient interactions, the effects of hormones, models of metabolic function, macronutrient interactions, outcomes of changes in diet, and pathophysiology. Abstracts available online. Articles available in PDF format.

Small Business Expo - Resources, Software and Services for Small Business
http://www.smallbusinessexpo.com/
Small Business Expo is a directory of resources for small business owners. Here you can find and compare everything from small business loans to printers, small business software and phone systems. Founded by two entrepreneurs (who happen to be brothers) who had a difficult time finding help to launch a small company, SmallBusinessExpo.com is designed to make finding everything you need to launch your startup business quickly and achieve long-term success. Your idea is the first step. Now take the second step and find the small business resources and tools to make your entrepreneurial dream a reality! SmallBusinessExpo.com makes it easy to compare and evaluate all the small business services available in one convenient place. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

URBZ - User Generated Cities
http://urbz.net/
URBZ facilitates the production and exchange of information, knowledge, ideas and practices towards better cities for all. They organize participatory workshops, designs adaptable structures and develops web tools for urban communities and practitioners. URBZ believes that residents are experts in their neighbourhoods. Their everyday experience of the places where they live and work constitute an essential knowledge for planning and urban development. For policy-makers, urban planners, architects and real-estate developers, accessing this knowledge is the best possible way to enhance the quality and impact of their work. Understanding a locality from the point of view of those who inhabit it improves the chances of success of a project at several levels:

. It provides a deep assessment of the ground-level situation
. It identifies local stakes and players
. It opens multiple communication channels
. It generates new ideas and solutions
. It improves social impact and environmental sustainability
. It lifts up the image of the project and increases support

URBZ is engaged in communities in various parts of the world. They support individual expression, grassroots involvement and ground up development and are committed to information sharing, open access and public participation. URBZ uses web-based tools for the production and sharing of information by residents and stakeholders. URBZ develops "mashup sites", comprising tools and applications such wikis, blogs, interactive maps, photo and videos albums and dynamic web pages. This has been added to the tools section of Research Resources Subject Tracer™ Information blog.

Next Billion - Development Through Enterprise
http://www.nextbillion.net/
hey chose Next Billion for its dual meaning: on the one hand, the phrase represents the next billion people to rise into the middle class from the base of the economic pyramid (BoP); on the other, it indicates the next billion(s) in profits for businesses that fill market gaps by integrating the BoP into formal economies. NextBillion.net is a website and blog bringing together the community of business leaders, social entrepreneurs, NGOs, policy makers and academics who want to explore the connection between development and enterprise. It is a discussion forum, networking space and knowledge base for individuals and organizations interested in the "next billion". Their goal is to highlight the development and implementation of business strategies that open opportunities and improve the lives of the world's approximately 4 billion low-income producers and consumers. This has been added to Research Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog.

Delete Your Account
http://www.deleteyouraccount.com/
Information on how to delete your account from all of the major social networking, blogging, shopping, etc. sites and services across the web. Feeling a little regret? They can show you how to get it back, too! (If possible). This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

Probiotics and Antimicrobial Proteins
http://www.springer.com/chemistry/journal/12602
Probiotics and Antimicrobial Proteins publishes reviews, original articles, letters and short notes and technical/methodological communications aimed at advancing fundamental knowledge and exploration of the applications of probiotics, natural antimicrobial proteins and their derivatives in biomedical, agricultural, veterinary, food, and cosmetic products. The Journal welcomes fundamental research articles and reports on applications of these microorganisms and substances, and encourages structural studies and studies that correlate the structure and functional properties of antimicrobial proteins. Content available by subscription. Free content available online. Abstracts available online. Articles available in HTML and PDF format.

UK Government Open Data Site
http://data.gov.uk/
The UK Government's open data website, data.gov.uk, developed with the help of Tim Berners-Lee (W3C Director) and John Sheridan (Linked Data Lead for data.gov.uk and co-Chair of the W3C eGovernment Interest Group). Like data.gov in the United States, the UK site reflects a growing awareness inside and outside of government that standards-based open data is a key enabler of government services and a building block for new information services across government and industry. Additionally, this new site

showcases Semantic Web and Linked Data technologies. Learn more about "Publishing Open Government Data" and eGovernment at W3C. Additional links:

CSS3 Gradient Generator v2.0
http://gradients.glrzad.com/
The CSS3 Gradient Generator was created as showcase of the power of CSS based gradients as well as a tool for developers and designers to generate a gradient in CSS. CSS gradients generate an image result, meaning the result of a CSS gradient can be used anywhere an image can be used, be it a background-image, mask,border, or list item bullet. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Metaphysica
http://www.metaphysica.de/
The journal Metaphysica is published semi-annually. The editors aim to create an international forum of ontology and metaphysics for readers all over the world. In the Anglo-Saxon countries (in particular the USA and Australia) the volume of research publications in ontology and metaphysics significantly increased during the last two decades. European philosophers, on the other hand, initially seemed reticent to address ontological and metaphysical topics, undoubtedly due to deeply rooted Kantian ideas about the "end of metaphysics." Since the nineties, however, sentiments have changed in favour of a new 'ontological turn' within Central European philosophy. In Austria,

© 2010 Marcus P. Zillman, M.S., A.M.H.A.

Switzerland, and Germany an increasing number of philosophical publications present systematic treatments of ontological and metaphysical issues. At the same time there is a new strong interest in reviewing historical contributions to ontology and metaphysics, from Parmenides to Plato, Aristotle, Occam, Leibniz and further to Brentano, Husserl, and Nicolai Hartmann. Since there is no other European journal devoted to the discussion of ontological and metaphysical issues in particular, the editors found it necessary to fill this gap by founding the journal Metaphysica.

OpenThesis - Upload and Search Theses and Dissertations
http://www.openthesis.org/
OpenThesis is a free repository of theses, dissertations, and other academic documents, coupled with powerful search, organization, and collaboration tools. OpenThesis is a searchable compendium of theses, dissertations and other academic documents from around the world. The site is completely free. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Academic and Scholar Search Engines asnd Sources white paper.

Allerglobal - Create Your Free Allergy Travel Card
http://www.allerglobal.com/
Allerglobal is a free service for people travelling to a foreign country. It allows you to create a ready-to-print card listing your food allergies in the language of your choice, so you can show it at restaurants or medical facilities of the country you are visiting. This has been added to International Trade Resources Subject Tracer™ Information Blog.

Mobenzi - Empowering People To Be Rewarded for Doing Simple Tasks On Their Mobile Phones
http://www.mobenzi.com/
Mobenzi is a software service that empowers people to be rewarded for completing simple tasks on their mobile phones. These tasks involve certain types of problems that are difficult for a computer to solve without assistance from a real person – even someone without expert knowledge of the problem. They are seeking to uncover new applications for these 'human intelligence tasks' and build the systems to process them, so that they can create novel technology solutions and help thousands of poor people earn additional income. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Nano Biomedicine and Engineering (NBE)
http://nanobe.org/index.php/nbe
Nano Biomedicine and Engineering (NBE)is an open access, international, peer-reviewed journal. Each quarterly issue of NBE, presents basic, clinical, and engineering research in the interdisciplinary field of Nanotechnology, Biology, Medicine and Engineering. Article categories include:

* synthesis, clinical application and safety evaluation of nanobiomaterials

* nanoscale diagnosis technologies including nanoscale chip, microfludics, nanodevice and molecular imaging * nanoscale therapeutic technologies including targeting therapies based on nanomaterials and nano-effects, design and synthesis of nanoscale drugs, drug delivery system

* stem cell nanotechnology including experimental, clinical, engineering studies

* pharmacologic, toxicologic, and dynamic, metabolizable nanomedicine.

* regular features will address the commercialization of nano biomedicine advances, ethics in nanomedicine, funding opportunities, and other topics of interest to researchers and clinicians.

Tweety Jobs
http://www.tweetyjobs.com/
In the past, if you were looking for a job, you'd search through thousands of job listings, submit your resume, and hope that someone calls you. And, then, everything changed. Social media took the world by storm. Recruiters got smarter. And now, you need to be everywhere – and connected to everyone – to find the real opportunities. TweetyJobs is the world's first truly employment-centric social network. TweetyJobs will help connect jobseekers with jobseekers; employers with employers; they will help you reach out and have real conversations with employers. Tjhey are breaking down the walls of traditional job boards. They are building a community that helps people network and connect in ways they haven't been able to in the past. Search hundreds of thousands of jobs in the Twittersphere and beyond, send messages to employers through SMS, Twitter, Email. Have job alerts delivered anywhere, any time, any way. Build a profile that's clean, portable, and professional. Have a conversation with recruiters. Phase II will connect to other people just like you; same skills, same region, same employers – they will help you build strong online relationships. Networking done right. Socialized resume critiquing. Dynamic reference building tools. This has been added to Employment Resources Subject Tracer™ Information Blog.

Biofuels Information Exchange
http://biofuelexperts.ning.com/
As biofuels grow in importance, there is more interest in finding places where professionals, scientists, and policymakers with a passion for the subject can come together and exchange ideas. CABI, a non-profit science-based development and information organization, has created this website to allow just that to happen. What can you do on the site? Well, for starters you can peruse the "What's in the News" area to learn about timely reports from different news outlets and scholarly sources regarding biofuels technology. Dedicated users should sign up on the site so that they can create their own group to discuss shared interests with other colleagues on the site and so that they may create a profile. The site also has a blog, a section dedicated to relevant publications, and a RSS feed of activities from registered users. [From The Scout Report,

Reviews of Accelerator Science and Technology (RAST)
http://www.worldscinet.com/rast/rast.shtml
This journal aims to provide readers with a comprehensive review of the driving and fascinating field of accelerator science and technology. It will document the tremendous progress made in the past decades and describe the bright future. RAST will cover a variety of topics, including linear and circular accelerators, high beam power accelerators, high brightness accelerators, synchrotron light sources, free electron lasers, medical accelerators, accelerators for industrial applications, advanced accelerator technologies as well as promising new breakthroughs (such as laser, plasma, wakefield acceleration, and beam physics). Articles are by invitation only. Each article will be written by one or more leading scientist with recognized authority in their fields and will be peer reviewed. Beginning in 2008, one volume will be published each year. The first volume will be an overview of various types of accelerators across the entire field. Each of the following volumes will focus on one particular type of accelerator and present in-depth discussions and analysis.

TopSite - Finding The Top Sites on the Web
http://www.topsite.com/
Based on our revolutionary related content search technology, TopSite.com is the latest addition to the SimilarGroup family of Web properties and applications. TopSite.com searches the Web, first collecting sites, then applies their proprietary technology to group sites by topic, finally assigning a rank to each site. The result is a list of the best sites for each category. The biggest benefit of their technology is that all users can quickly find the best sites in their field of interest, and do so without having to master complicated searches queries and spend hours of digging through irrelevant results. Using TopSite.com, simply search for a topic and choose from one of the results. Each results page contains several relevant sites for the chosen topic, and these results are ranked from best to worst. For most users, the top website result should be a great match for the searched term. This has been added to the tols section of [Research Resources](#) Subject Tracer™ Information Blog. This has been added to [World Wide Web Reference](#) Subject Tracer™ Information Blog.

ESENCe - Ethics in Science and Engineering National Clearinghouse
http://www.ethicslibrary.org/
The beta site for a national digital library for ethics in science and engineering is designed to benefit the national and international scientific and engineering research communities. In April 2009, the National Science Foundation's Office of Integrative Research sponsored a project at the University of Massachusetts Amherst to advance development of an Ethics in Science and Engineering National Clearinghouse (SES 0936857). The Ethics in Science and Engineering National Clearinghouse (ESENCe) uses state-of-the-art digital tools to preserve and widely disseminate a variety of materials on ethics and the responsible conduct of research in science and engineering disciplines. The project is a direct response to the America COMPETES Act, which, beginning January 4, 2010, will require "that each institution that applies for financial assistance from the Foundation for science and engineering research or education describe in its grant proposal a plan to provide appropriate training and oversight in the responsible and ethical conduct of research to undergraduate students, graduate students, and postdoctoral researchers participating in the proposed research project" (Section 7009) and "that all grant applications that include funding to support postdoctoral researchers include a description of the mentoring activities that will be provided for such individuals" (Section 7008). This has been added to Research Resources Subject Tracer™ Information Blog.

EPJ Web of Conferences
http://www.epj-conferences.org/
EPJ Web of Conferences is an open-access publishing service dedicated to archiving conference proceedings in physics and related sciences. The fields of publication are those covered by the aims and scope of the EPJ journals (the publishers reserve the right to reject proposals that they consider not fitting on these grounds). Proceedings are published under the scientific responsibility of the conference organisers. EPJ Web of Conferences aims to make conference proceedings citable and widely usable by the scientific community. It offers versatile and highly flexible publishing solutions suited to any conference, whatever the number and the type of documents supplied.

edocr.com - Sales Leads from Your Documents
http://www.edocr.com/
edocr.com provides a highly interactivity environment for publishing and distributing an organisation's public documents across the Internet. Once uploaded to edocr.com, both the organisation as well as the growing edocr community and visitors who come across the documents start to distribute to friends and colleagues as well as to the world's most popular social networks such as Linkedin, Facebook and Twitter. At the same time, Google and other search engines ensure that the documents are found easily, giving the organisation significant global market place, which they could not reach out through their document inventory in the past. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to Entrepreneurial Resources Subject Tracer™ Information Blog. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog.

Factery - Get Real-Time Facts Not Links
http://facterylabs.com/
Factery has developed FactRank technology to mine real-time feeds and web content for the purpose of providing simple, short answers to user queries. Factery was founded in April 2009 by Paul Pedersen and Sean Gaddis, building on their research and experience at Google, Powerset, eBay, & Skype. School Mental Health: A Multidisciplinary Research and Practice Journal
http://www.springer.com/psychology/child+&+school+psychology/journal/12310
School Mental Health: A Multidisciplinary Research and Practice Journal is a forum for the latest research related to prevention, education, and treatment practices that target the emotional and behavioral health of children in our education system. The journal publishes empirical studies, theoretical papers, and review articles from authors representing the many disciplines that are involved in school mental health including: education, pediatrics, psychiatry, psychology, counseling, social work and nursing. Topics include:

* Evaluation of outcomes of school mental health prevention, interventions, and treatment

* Development and early evaluation of educational interventions and school-based prevention and treatment strategies

* Methods for measuring key constructs in school mental health for use as prescriptive, descriptive or outcome variables

* Evaluation of mediators and moderators of response to prevention and intervention methods

* Descriptions of developmental pathways and contextual variables that influence children's progression and success through their school years

* Assessment of techniques and strategies to facilitate productive parent and community involvement in the schools

* Innovative interventions that involve aspects of mental health, education, and health care for students with emotional and behavioral problems

* Dissemination, training, and fidelity issues in the transfer of school mental health techniques and strategies from research to practice

* Reviews of these topics that summarize and coalesce findings to inform next steps in research and practice.

Impressive - Stylish Way of Giving Presentations
http://impressive.sourceforge.net/
Impressive is a program that displays presentation slides. But unlike OpenOffice.org Impress or other similar applications, it does so with style. Smooth alpha-blended slide transitions are provided for the sake of eye candy, but in addition to this, Impressive offers some unique tools that are really useful for presentations. Creating presentations for Impressive is very simple: You just need to export a PDF file from your presentation software. This means that you can create slides in the application of your choice and use Impressive for displaying them. If your application does not support PDF output, you can alternatively use a set of pre-rendered image files – or you use Impressive to make a slideshow with your favorite photos. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

AudioOwl - Free Audio Books
http://www.audioowl.com/
AudioOwl makes the world's public domain audio books available for browsing in a visual and entertaining way. If you don't know what book you want to listen to next, it can be tedious trolling through hundreds of lines of text results looking for a fun book. AudioOwl puts the fun back into browsing for audio books. For those who listen to audio books because reading does not come easily to them, the last thing these people would want to do is read through pages of text to find something to listen to. AudioOwl provides a primarily visual browsing experience so you don't have to read tedious amounts to find listening material. The AudioOwl.com website is also screen reader friendly making its resources accessible to people with vision disabilities. All audio books on AudioOwl.com are in the public domain. This means that no one holds a copy right on these books and therefore anyone including AudioOwl.com is free to distribute them. Enjoy these free audio books and use the share button on AudioOwl.com to tell your friends about all these great public domain audio books. Books that have entered the public domain are digitized and recorded by volunteers that coordinate themselves through a variety of websites. The majority of public domain books, however, are digitized by Gutenberg.org and recorded by Librivox.org. AudioOwl draws on these public domain sources to deliver free audio books to you in an engaging and fun way. This has been added to Reference Resources Subject Tracer™ Information Blog.

MeetWithAgenda - Easy Meeting Management
http://www.meetwithagenda.com/
MeetWithAgenda is a minimalistic approach to meeting scheduling and management.
Just the basics! Easy to use yet very powerful! It provides all functionality to schedule
meetings, agree on a meeting date and location, create a meeting agenda and send
invitations. Your participants can confirm and view the meeting agenda online, wherever
they are. No registration required! This has been added to the tools section of Research
Resources bSubject Tracer™ Information Blog.

Psychometrika
http://www.psychometrika.org/journal/Psychometrika.html
Psychometrika, the official journal of the Psychometric Society, is devoted to the
development of psychology as a quantitative rational science, including the advancement
of theory and methodology for behavioral data analysis in psychology, education, and the
social and behavioral sciences generally. There are three main sections in Psychometrika:
Theory & Methods, Application Reviews & Case Studies(ARCS), and Book Reviews.
Theory and Methods is the primary section, and it contains articles on the development of
quantitative models for psychological phenomena, and on quantitative methodology in
the social and behavioral sciences, including new mathematical and statistical techniques
for the evaluation of psychological data, and the application of such techniques.
Empirical studies will be considered only if they involve new or particularly interesting
uses of quantitative techniques. Articles about the development and/or results of specific
tests will generally not be considered. Application Reviews & Case Studies (ARCS) is
the newest section of Psychometrika, and it is designed to highlight the essential
connection between data analysis and modelling methodology and its application to data
in psychology, education sciences, and related areas in the social sciences and marketing,
in a way that deepens the substantive understanding of phenomena in one of these
disciplines.

CarryOutText - A Simple Way To Convert Text To An Audio File
http://www.carryouttext.com/
Copy/Paste text in CarryoutText to convert it to a MP3 file that can be downloaded and
used in your favorite MP3 Player. Use CarryoutText for converting: a) News, b) Blogs, c)
Emails, d) Documents, e) .. and just about any text. Listen to your text while: 1)
Commuting, 2) At the Gym, 3) You Wait for the bus, 4) You Cook, 5) .. and just about
anytime. This has been added to the tools section of Research Resources Subject
Tracer™ Information Blog.

Lead411 - Comprehensive Business Intelligence that Accelerates Growth
http://www.lead411.com/
Lead411 provides information/news about US companies and executives... this includes
303,000 companies and 1.4M executives. It also provides alerts for specific company
news like; IPOs, venture capital financings, hiring plan announcements, etc. Much of its

information is free while other information is behind paid subscriptions. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog.

Calameo - Publish, Share and Browse
http://en.calameo.com/
They offer you a new publishing method that has an incredibly wide variety of options and is simple to use. From a PDF file, you create magazines, brochures, sales catalogs, annual reports, presentation brochures. It's an interactive electronic document, accessible from a computer and capable of reproducing the feeling of reading a paper document: turn the pages, mark the pages, zoom ... magazines, brochures, sales catalogs, annual reports, presentation brochures. For any person, business, association, agency, etc. who is seeking to offer a dynamic and innovative medium that meets the new communication stand. The advantages of an interactive publication: a) Savings on cost and time for production, printing, sending print copies and logistics. Innovative, original and entertaining communication that immediately catches the readership's interest; b) Audience report, readership stats... and other e-marketing features to determine the effectiveness of your publications; c) Ease of access and file storage accessible on the Internet at any time; and d) Possibility to create an online press agency. Thjis has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Middle East Development Journal (MEDJ)
http://www.worldscinet.com/medj/medj.shtml
Middle East Development Journal (MEDJ) is a Publication of the Economic Research Forum. The Middle East Development Journal will publish analyses of particular problems or challenges confronting the region, evaluations of specific economic and social policies or programs applied within or relevant to the region, explorations of progress within certain segments of the region's population or within specific locations, investigations of cross-country issues or country-specific issues, assessments of the impact of external factors, and comparisons with other regions. While the journal will emphasize research falling under the heading of "applied economics", theoretical work will also be presented as will contributions from other disciplines, especially political science and sociology. The journal's ultimate goal is to provide a solid analytical and empirical base for the promotion of good policy within the region.

ReliaCloud - Cloud Computing, Cloud Hosting, Cloud Servers
http://www.reliacloud.com/
ReliaCloud Servers are deployed within a robust and resilient virtualization environment and architected to maximize uptime and performance. On demand computing resources put you in control of your hosting needs. Benefits include: 1) High availability, 2) Pay by the hour, 3) Dynamically scalable. 4) Robust API's, 5) Load Balancing, and 6) Persistent servers. Thjis has been added to Grid, Distributed and Cloud Computing Resources Subject Tracer™ Information Blog.

http://www.RainyMood.com/
Add gentle rain to your environment. Enhance your music ... sleep better .... relax. 15-Minute high quality loop. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. This has been added to World Wide Web Reference Subject Tracer™ Information Blog.

MyMediaInfo - Media Contact, Editorial Calendars and Profiles
http://www.mymediainfo.com/index.html
MyMediaInfo is a Research company focused on delivering the highest quality of media intelligence in the industry. The Research from MyMediaInfo includes detailed profiles for media contacts and news outlets as well as services to deliver customer specific requests. This has been added to Business Intelligence Resources Subject Tracer™ Information Blog. This has been added to Advertising, Marketing and Public Relations Subject Tracer™ Information Blog.

Silence: A Journal of RNA Regulation
http://www.silencejournal.com/
Silence is an online, peer-reviewed open access journal that covers all aspects of genetic and epigenetic control that are mediated by RNA. Silence aims to feature research involving small RNA molecules, and submissions are invited describing novel insights into the biogenesis and activity of such molecules. Manuscripts describing other RNA-mediated mechanisms in prokaryotes and eukaryotes are also of interest, particularly if they involve aspects of nucleic acid biochemistry that are relevant to processes involving small RNA. In addition to novel research findings, the Editors of Silence are particularly interested in receiving submissions describing novel methods for analysis and manipulation of RNA-mediated regulation. Silence also encourages bioinformatic and computational methods manuscripts describing results and protocols that are accessible to molecular biologists and geneticists.

CloudXL - An Organized List of Cloud Computing and Software As a Service Providers
http://www.cloudxl.com/
CloudXK provides an organized list of cloud computing, cloud storage, and software as a service providers that you (the user) can share with others through Clouders. Clouders are sort of a way to vote on and share info about cloud providers. This has been added to Grid, Distributed and Cloud Computing Resources Subject Tracer™ Information Blog.

AROUNDMe - Collaborative Social Spaces On the Web
http://www.barnraiser.org/aroundme
AROUNDMe collaboration server is the perfect solution for anyone wishing to create collaborative social spaces on the Web. If you want to extend your brand or build a business model around people forming groups on the web (think "Google groups", "Yahoo groups" or "Ning") then AROUNDMe collaboration server is the solution for

you. Using AROUNDMe collaboration server you can create multiple collaborative group, webspace, community or social networking websites. Each group can create a multiple page collaborative web site. They get social tools such as a guestbook (a wall), a group blog, a forum and a wiki which they can drop into web pages. Each group is fully customisable using xHTML, CSS, Javascript and PHP. Groups can be private or public. People can connect to a group to contribute using OpenID. They get tracking tools such as forum digest and blog RSS feeds. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog. Thjis has been added to Social Informatics Subject Tracer™ Information Blog.

Easy Projects - Web Application for Managing and Tracking Projects and Tasks
http://easyprojects.net/
Easy Projects .NET focuses on features of actual use to organizations rather than fancy "bells and whistles". Specifically designed to make project management, task tracking and team collaboration hassle free and straightforward, Easy Projects aims to bring the power of professional project management to the web. Featuring a vast array of built-in modules, not available in basic web-based applications, such as time sheets, issue tracking and customer request management, Easy Projects .NET the software of choice for serious project managers and people just looking to manage projects alike. This has been added to the tools section of Research Resources Subject Tracer™ Information Blog.

Freshwater Reviews
https://www.fba.org.uk/journals/index.php/FRJ/
Freshwater Reviews is a peer reviewed international journal dedicated to enhancing the understanding of inland waters. The content of review papers is primarily biological but papers covering limnology, policy and socio-economic aspects of fresh waters are acceptable if they are relevant to our understanding or management of fresh water biology. Freshwater is interpreted widely, embracing all inland waters including lakes, ponds and reservoirs, rivers and streams, as well as saline and caustic lakes, brackish waters, interstitial and groundwater environments.

2Tor - Great University's Best Friend
http://2tor.com/
Founded by a unique team of education veterans with unparalleled experience, 2tor Inc. partners with preeminent institutions of higher education to deliver rigorous, selective degree programs online. 2tor supplies universities with the tools, expertise, capital, and global recruiting needed to compete in a space currently dominated by unexceptional programs. 2tor develops state-of-the-art technology platforms that enhance traditional offline curricula to create transformative instruction using the best educational and Web 2.0 technologies. 2tor also develops the human and support infrastructure needed "on the ground" and provides the vital—yet often-overlooked—logistical components of any online program, including comprehensive student support services from enrollment through graduation and beyond as well as practical learning experiences within distant

communities around the country. This has been added to [Tutorial Resources](#) Subject Tracer™ Information Blog.

Watch™ Paper Review

Motivations of Cybervolunteers In an Applied Distributed Computing Environment: MalariaControl.net As an Example by *Viola Krebs*

Abstract:
Research laboratories and scientific modeling projects often lack computing power to run complex simulation models solely with in-house computing resources. One form of volunteer computing uses an interface called the BOINC software platform that allows hundreds of thousands of volunteers worldwide to participate in projects such as SETI@home and MalariaControl.net, searching for extraterrestrial intelligence or contributing to research linked to malaria control. These volunteers are effectively acting as cybervolunteers, meaning volunteers who use in part or entirely a computer or the Internet for their volunteer activity. We conducted a study on the motivations of MalariaControl.net and BOINC cybervolunteers. Are volunteers only donating CPU power or are they making other contributions? Why do they participate in projects such as MalariaControl.net? The aim of this paper is to present results obtained, formulate useful conclusions from them and identify patters in the motivations of volunteers that may be useful to other distributed computing projects, in particular, and the understanding of cybervolunteerism, in general. Volunteers living in 67 countries participated in our enquiry. We found that a majority of them indicated either solidarity and/or a cause as their main deciding factor for getting involved. This trend was stronger for MalariaControl.net than for general BOINC volunteers. Volunteers remained involved if they felt useful. The study clearly suggests that the recognition of cybervolunteers is important: volunteers invest their time in a project without financial compensation, but not for free. The paper also summarizes technical and communication suggestions made by volunteers with regards to MalariaControl.net and BOINC.

Subject Tracer™ Information Blogs

Subject Tracer™ Information Blogs created and developed by the Virtual Private Library™ combine the best of the latest tools on the Internet. Using bots, blogs and news aggregators the Subject Tracer™ Information blogs generate RSS feeds with the latest resources to create a current information resource flow through niched subject tracers. I am proud to be the creator of the Internet's first Subject Tracer™ Information Blogs:
